Introduction

As we continue through the twenty-first century, it is increasingly evident that students require a wider range of counseling services as they face greater societal pressures. Hence, the Guidance Plan was devised for two reasons. The first, to ensure that each student is exposed to age-appropriate activities that surround and support the personal, educational, and career goals for future success; and the second, to assure the educational stakeholders and community residents that academic success is considered for all pupils in the Huntington School District.

The purpose of the school counseling program in a school setting is to promote and enhance the learning process. Our school district families depend on school counselors to serve as valuable human resources, and the Huntington counseling team is committed to helping students achieve their full potential; while helping them to become responsible and independent members of the school and community.

The role of the school counselor has changed drastically over the last thirty years; the responsibilities and tasks assigned have expanded exponentially to meet the needs of our diverse student population. School counselors are not only expected to assist students with scheduling and post-secondary planning (including college advising), but also to facilitate personal/social growth, develop healthy self-concepts, maximize academic potential, engage in career development, partake in various meetings (team, CSE, and leadership), keep current with educational practices and changes, collaborate with staff and faculty, and network with constituents in the counseling field.

According to Commissioner's Regulations 100.2

j. Guidance programs

1. Public Schools. Each school district should have a guidance program for all students.

i. In grades K-6, the program shall be designed in coordination with the teaching staff to prepare students to participate effectively in their current and future educational programs, to help students who exhibit any attendance, academic, behavioral or adjustment problems, to educate students concerning avoidance of child sexual abuse, and to encourage parental involvement.

ii. In grades 7-12, the guidance program shall include the following activities or services:

- a. An annual review of each student's educational progress and career plans, with such reviews to be conducted with each student individually or with small groups by personnel certified or licensed as school counselors;
- b. Instruction at each grade level to help students learn about various careers and about career planning skills conducted by personnel certified or licensed as school counselors, or by classroom teachers in cooperation with school counselors;

- c. Other advisory and individual or group counseling assistance to enable students to benefit from the curriculum, to help students develop and implement postsecondary education and career plans, to help students who exhibit any attendance academic, behavioral or adjustment problems and to encourage parental involvement, provided that advisory assistance shall be provided by teachers or counselors, or by certified teaching assistants under the supervision of counselors or teachers, and that such individual or group counseling assistance shall be provided by certified or licensed school counselors or by certified or licensed school psychologists or certified or licensed school social workers in cooperation with school counselors; and
 - d. The services of personnel certified or licensed as school counselors.
- iii. Each school district shall develop a district plan which sets forth the manner in which the district shall comply with the requirements of this subdivision. The City School District of the City of New York shall submit a separate plan for each community school district, for the High School Division and for the Special Education Division. Such plan shall be filed in the district offices and shall be available for review by any individual. The plan shall present program objectives, which describe expectations of what students will learn from the program; activities to accomplish the objectives; specification of staff members and other resources assigned to accomplish the objectives; and provisions for the annual assessment of program results. The plan shall be reviewed annually by the school districts, and revisions shall be made as necessary.
2. Nonpublic schools. Each nonpublic secondary school shall provide a guidance and counseling program for students in grades 7-12.

Learning Standards for Career Development and Occupational Studies

Standard 1: Career Development

Students will be knowledgeable about the world of work, explore career options, and relate personal skills, aptitudes, and abilities to future career decisions.

Standard 2: Integrated Learning

Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings.

Standard 3a: Universal Foundation Skills

Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace.

Standard 3b: Career Majors

Students who choose a career major will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in post-secondary programs.

Guidance Programs

The Huntington Board of Education recognizes that guidance programs are an integral part of the total instructional program for all students in all grade levels. Thus, a guidance program is incorporated into the curriculum (for grades K-6) through classroom teachers, social workers, and psychologists to aid students in making informed and responsible decisions in various aspects of their lives. In grades seven through twelve, students are provided with direct guidance services and programs through certified New York State school counselors.

The objectives of the guidance department are to assist students to develop into mature self-reflective and understanding individuals who can make sound-decisions; while possessing the necessary core values for productive citizenship. School counseling programs are developed by focusing on the needs and issues related to various stages of student development. The ultimate goal of the school counseling program is to prepare students to meet the demands of college and career readiness; thereby maximizing post-secondary success in various venues (college, workforce, military, etc).

The following format follows the suggested outline for implementing the Commissioner's Regulation (CR 100.2), as communicated by the New York State Education Department, Division of Student Development and Family Support Services. The National Standards for School Counseling programs are also referenced throughout this plan.

Huntington Public Schools Guidance Plan Grades 9-12

Huntington High School counselors play a pivotal role in the development of adolescent-aged children. One of the main goals is to assist students in adjusting into their new environment, while ensuring that they are appropriately placed in courses that best prepare them for their future. This process includes informing students and parents of the graduation and diploma requirements, as well as the academic programs that provide opportunities for students to be placed in rigorous academic programs. Hence, the High School Guidance Plan is intended to meet the New York State regulations by focusing on the educational goals and career exploration opportunities; as well as encourage parental involvement.

A. Program Objective: To review each child’s educational progress and career plans annually.

B. Target Population: Grades 9-12

C. Expected Outcome(s):

1. Students will be able to identify their academic abilities and achievement levels.
2. Students will understand the relationship of academics to the world of work in relation to life at home and in the community.
3. Students will complete school with the academic preparation essential to choose from a wide range of post-secondary options, including college.

D. Annual Assessment:

1. Review student report cards, progress reports, state assessments, and standardized testing.
2. Monitor and review career assessments performed and logged through individual student portfolios.
3. Feedback received from counselors, parents and teachers.
