

Free SAT, ACT and PSAT Prep for Huntington High School Students

Huntington High School is pleased to offer free online test preparation for the SAT, PSAT and ACT provided by the world leader in test preparation, Kaplan Test Prep. All students—Freshmen through Seniors—now have 24-7 on demand access to comprehensive preparation.

These lessons will guide students through instruction, practice and mastery on every skill tested on the exams. Kaplan's proven methods are delivered through instructional video lessons, guided practice problems, and independent practice quizzes. Kaplan's adaptive learning technology, Smart Track, analyzes the student performance and adjusts to provide each student with a customized learning plan. Smart Track also moves from course to course, and test to test with students, so that demonstrated mastery in the PSAT is carried over to the SAT.
