

*announcing the*  
**ROSENTHAL PRIZE**  
*for Innovation in Math Teaching*

**ARE YOU INNOVATIVE?**

**HAVE YOU CHANGED YOUR MATHEMATICS CLASSROOM  
TO INSPIRE YOUR STUDENTS TO LOVE MATHEMATICS?**

**IS YOUR CLASSROOM A CENTER OF HANDS-ON LEARNING?**

If you answered yes to these three questions, you should consider applying for the Rosenthal Prize for Innovation in Math Teaching.

Awarded annually to a classroom teacher in the United States, the Rosenthal Prize celebrates innovation in the math classroom by rewarding a teacher who uses hands-on methods to engage and inspire students. The inaugural Rosenthal Prize will be presented in December 2012, and carries a **cash award of \$25,000**. The winning teacher will have the opportunity to share his/her innovation with interested teachers across the country.

Fourth through twelfth grade math teachers are invited to apply, but preference will be given to pedagogical innovation appropriate to the upper elementary or middle school classroom. Preliminary applications will be due on May 11, 2012.

*The Rosenthal Prize for Innovation in Math Teaching is administered by the Museum of Mathematics ([momath.org](http://momath.org)), North America's only museum devoted to math and its many connections. Opening in NYC later this year, MoMath uses innovative and engaging exhibits and programs to stimulate inquiry, spark curiosity, and highlight the wonders of mathematics.*
