SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, principals, directors, coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior's submitted budget.

The budget will be presented in three components which are to be voted upon as one proposition:

- a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

- b) A capital component which shall include, but need not be limited to, all transportation capital, debt service, and lease expenditures; costs resulting from judgments and tax certiorari proceedings or the payment of awards from court judgments, administrative orders or settled or compromised claims; and all facilities costs of the School District, including facilities leases expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and
- c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and salaries and benefits of all certified school administrators and supervisors who spend a majority of their time performing administrative or supervisory duties, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Each component must be separately delineated in accordance with Commissioner's Regulations.

Additionally, the Board of Education shall append to the proposed budget the following documents:

- a) A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any Assistant or Associate Superintendent of Schools in the ensuing school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- b) A list of all other school administrators and supervisors, if any, whose annual salary for the coming school year will be at or above that designated in law for such reporting purposes, with the title of their positions and annual salary identified;
- c) A School District Report Card, prepared pursuant to Commissioner's Regulations, which includes measures of the academic performance of the School District, on a school by school basis, and measures of the fiscal performance of the District; and
- d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading "Property Tax Report Card").

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

District funds may be expended to inform the public regarding the annual budget and to present the annual budget to District voters; however, such funds shall not be utilized to promote either a favorable or negative opinion of the proposed budget.

Property Tax Report Card

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

The Property Tax Report Card shall include:

- a) The amount of total spending and total estimated school tax levy that would result from adoption of the proposed budget, and the percentage increase or decrease in total spending and total school tax levy from the School District budget for the preceding school year; and
- b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and
- c) The percentage increase in the Consumer Price Index, from January first of the prior school year to January first of the current school year.

A copy of the Property Tax Report Card prepared for the Annual District Meeting shall be submitted to the State Education Department in the manner prescribed by the Department by the end of the business day next following approval of the Property Tax Report Card by the Board of Education, but no later than twenty-four (24) days prior to the statewide uniform voting day (i.e., the third Tuesday in May).

The State Education Department shall compile such data for all school districts whose budgets are subject to a vote of the qualified voters, and shall make such compilation available electronically at least ten (10) days prior to the statewide uniform voting day.

In the alternative, if the initial proposed budget is defeated, the Board may adopt a contingency budget and levy taxes as necessary for implementation of the contingency budget expenditures. If the voters fail to approve the second budget submittal, or budget propositions(s), the Board shall adopt a contingency budget in accordance with law.

8 New York Code of Rules and Regulations (NYCRR)
Sections 100.2(bb), 170.8 and 170.9

Adopted: 6/11/01

SUBJECT: ADMINISTRATION OF THE BUDGET

The Superintendent of Schools, working in conjunction with the administrative staff, is responsible to the Board for the administration of the budget.

- a) He/she shall acquaint District employees with the final provisions of the program budget and guide them in planning to operate efficiently and economically within these provisions.
- b) Under his/her direction the District shall maintain such records of accounting control as are required by the New York State Uniform System of Accounts for School Districts, the Board of Education, and such other procedures as are deemed necessary and shall keep the various operational units informed through periodic reports as to the status of their individual budgets.
- c) Board approval is required prior to the expenditure of District funds.

SUBJECT: CONTINGENCY BUDGET

The School District budget for any school year or any part of such budget, or any proposition involving the expenditure of money for such school year, shall not be submitted for a vote of the qualified voters of the District more than twice in any school year.

If the original proposed budget is not approved by District voters at the Annual District Meeting and Election, the Board has the option of either resubmitting the original or revised budget for voter approval at a special meeting held at a later date; or the Board may, at that point, adopt a contingency budget and levy a tax for teachers' salaries and ordinary contingent expenses as enumerated in law. If the Board decides to submit either the original or a revised budget to the voters for a second time, and the voters do not approve the second budget submittal, the Board shall adopt a contingency budget and levy a tax for those expenditures mandated pursuant to law and/or for those services necessary to maintain the educational program.

The contingency budget will include the sum necessary for teachers' salaries (i.e., professional educator positions certificated by the State Education Department which include teachers, administrators, teaching assistants, and professional specialists in the various areas of pupil personnel services) and ordinary contingent expenses as determined by the Board in accordance with law including, but not limited to, the purchase of library books and other instructional materials associated with the school library; and expenses incurred for interscholastic athletics, field trips and other extracurricular activities. Ordinary contingent expenses include, but are not limited to, legal expenses incurred by the District; expenditures specifically authorized by statute; and other items necessary to maintain the educational program, preserve property, and assure the health and safety of students and staff. As deemed necessary, school counsel may be consulted for review as to those items considered to be ordinary contingent expenses prior to Board adoption of the contingency budget.

In accordance with law, the contingency budget will reflect the statutory expenditure limits imposed on the administrative component of the contingency budget as well as the total spending authorized in the overall contingency budget.

With regard to overall District spending, the contingency budget, as a whole, shall not result in a percentage increase in total spending over the District's total spending under the school district budget for the prior year that exceeds the lesser of:

- a) The result when one hundred twenty percent is multiplied by the percentage increase in the Consumer Price Index (CPI), with the result rounded to two decimal places; or
- b) Four percent.

(Continued)

SUBJECT: CONTINGENCY BUDGET (Cont'd.)

Additionally, the administrative component of the contingency budget shall not comprise a greater percentage of the contingency budget exclusive of the capital component than the lesser of:

- a) The percentage the administrative component had comprised in the prior year budget exclusive of the capital component; or
- b) The percentage the administrative component had comprised in the last proposed defeated budget exclusive of the capital component.

The Consumer Price Index to be used refers to the percentage that represents the average of the national consumer price indexes determined by the U.S. Department of Labor for the twelve month period preceding January first of the current year.

In determining the increase in total expenses when computing the contingency budget percentage increase, the following expenditures shall be disregarded:

- a) Expenditures resulting from a tax certiorari proceeding;
- b) Expenditures resulting from a court order or judgment against the School District;
- c) Emergency expenditures that are certified by the Commissioner of Education as necessary as a result of damage to, or destruction of, a school building or school equipment;
- d) Capital expenditures resulting from the construction, acquisition, reconstruction, rehabilitation or improvement of school facilities, including debt service and lease expenditures, subject to voter approval;
- e) Expenditures in the contingency budget attributable to projected increases in public school enrollment, which may include increases attributable to the enrollment of students attending a pre-kindergarten program established in accordance with Education Law Section 3602-e;
- f) Non-recurring expenditures in the prior year's School District budget; and
- g) Expenditure of gifts and grants in aid and use of insurance proceeds.

Should the Board of Education adopt a contingency budget, it will officially pass a resolution reflecting such action; and that resolution shall incorporate by reference a statement specifying the projected percentage increase or decrease in total spending for the school year, and explain the reasons why the Board disregarded any portion of an increase in spending in formulating the contingency budget.

(Continued)

SUBJECT: DISTRICT INVESTMENTS (Cont'd.)

- b) By participation in a cooperative investment program with another authorized governmental entity pursuant to Article 5G of the General Municipal Law where such program meets all the requirements set forth in the Office of the State Comptroller Opinion No. 88-46, and the specific program has been authorized by the Board of Education.

All purchased obligations, unless registered or inscribed in the name of the District, shall be purchased through, delivered to be held in the custody of a bank or trust company chartered in the State of New York. Such obligations shall be purchased, sold or presented for redemption or payment by such bank or trust company only in accordance with prior written authorization from the officer authorized to make the investment. All such transactions shall be confirmed in writing to the District by the bank or trust company. Any obligation held in the custody of a bank or trust company shall be held pursuant to a written custodial agreement as described in General Municipal Law, Section 10.

The custodial agreement shall provide that securities held by the bank or trust company, as agent of and custodian for the District, will be kept separate and apart from the general assets of the custodial bank or trust company and will not, in any circumstances, be commingled with or become part of the backing for any other deposit or other liabilities. Repurchase agreements are authorized subject to the following restrictions:

- a) The purchased securities shall be held by a third party custodian other than the trading partner;

SUBJECT: ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE SCHOOL DISTRICT

The Board may accept gifts, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the School District, provided that such acceptance is in accordance with existing laws and regulations. However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District.

The Board of Education will not formally consider the acceptance of gifts or grants until and unless it receives the offer in writing from the donor/grantor. Any such gifts or grants donated to the Board and accepted on behalf of the School District must be by official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent of Schools to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with School District funds.

Gifts and/or grants of money to the District shall be annually accounted for under the trust and agency account in the bank designated by the Board of Education.

All gifts, grants and/or bequests shall become School District property. A letter of appreciation, signed by the President of the Board and the Superintendent, may be sent to a donor/grantor in recognition of his/her contribution to the School District.

Gift Giving

Gifts. An officer or employee shall not directly or indirectly solicit or accept any gift having a value of \$75 or more, whether in the form of money, services, loan, travel, entertainment, hospitality, thing or promise, or any other form, under circumstances in which it could reasonably be inferred that the gift was intended to influence him/her, or could reasonably be expected to influence him/her, in the performance of his/her official duties, or was intended as a reward for any official action on his/her part. No gift in any form shall be accepted that exceeds standards as established by all applicable municipal law.

SUBJECT: PRINCIPLES OF PURCHASING

Purchasing is an important function in support of the education of the students of the School District. The purchasing role is to provide the necessary equipment, supplies and services needed at the best cost to the District.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum educational value for every dollar expended.

The purchasing process should be performed within budgetary appropriations by the Board-appointed purchasing agent, following existing laws, regulations and Board of Education procedures. The requisition is a formal written request from a person in the School System for the purchase of supplies or equipment. It should be remembered that the requisition is a request and not a guarantee that a purchase will actually be made.
- b) The Purchase Order - The purchase order is a document that authorizes a vendor to deliver described merchandise or materials at a specified price.
- c) Procedures - Procedures shall be developed and administered by the Assistant Superintendent for Finance and Management Services for the requisitioning, purchasing, receipt, and distribution of the supplies and equipment.

SUBJECT: FUND BALANCE POLICY

GASB has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). The objective of this Statement 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied.

Fund Balance Classifications (Pursuant to GASB Statement 54)

General Policy

Fund balance measures the net financial resources available to finance expenditures within current or future periods. The District's Unassigned General Fund Fund Balance will be maintained to provide the District with financial stability and a margin of safety to fund unanticipated contingent expenditures that may occur unexpectedly during the fiscal year. The Unassigned General Fund Fund Balance used for these purposes may only be appropriated by resolution of the Board of Education unless voter approval is required.

Any portion of Fund Balance may be applied or transferred for a specific purpose either by voter approval if required by law or by formal action of the Board of Education if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board of Education.

The Board of Education shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders.

In circumstances where expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (e.g., expenditures related to reserves) the Board will assess the current financial condition of the district and then determine the order of application of expenditures to which fund balance classification will be charged.

The Board may also purchase liability insurance to pay damages assessed against Board members and District employees acting in the discharge of their respective duties, within the scope of their employment and/or under the direction of the Board.

All insurance policies, along with an inventory of the contents of the building, should be kept in a fireproof depository or with the appropriate insurance agent for safekeeping and referral purposes. The purpose of this policy is to create a Public Access Defibrillation Program (PAD Program) and authorize the administration to develop procedures on how to handle sudden cardiac arrest in students, staff and others involved in school activities. Toward this end, the Board of Education plans to acquire several AED's for use by qualified personnel and approves the use of AED's subject to the following conditions:

1. The PAD Program shall be provided in compliance with Section 3000-B, Article 30 of the Public Health Law of the State of New York, and New York State Department of Health, Bureau of Emergency Medical Services Policy Statement 98-10, "Public Access Defibrillation" or any amendments thereto.

Adoption Date: March 22, 2004

SUBJECT: TRANSPORTATION OF STUDENTS

The Board of Education recognizes the importance of transportation to the education of students and its obligation to provide transportation to students in a safe, efficient and economical manner, consistent with applicable laws and regulations.

Transportation shall be provided to all eligible public, private and parochial school students who reside in the School District. In accordance with law and regulations, transportation for non-public school students shall be provided in like circumstances to that provided to public school students.

In accordance with applicable laws and regulations, the Board shall also provide suitable transportation for students with disabilities as recommended by the Committee on Special Education.

Transportation Mileage Limits

The Board shall provide transportation for all students in Kindergarten (with the exception of those who live across from or immediately adjacent to the school) through grade 4, for students in grade 5 through 6 who live from one-half to fifteen miles from their school, and for students in grades 7 through 12 who reside from one to fifteen miles from school.

Mileage measurements shall be made from the street end of the driveway of a student's home to the main entrance of the school the student attends.

Extended Bus Service

Extended bus service includes late (after school) bus service. Extended bus service may also be defined as early (before school) bus service for some schools. Extended bus service for both public and non-public schools may be provided subject to approval of budgetary funds each year.

The District will designate central discharge points within the District for extended bus transportation and designate the extended bus schedules.

Child Care Transportation

In accordance with applicable provisions of Education Law, the District may provide transportation to child care locations for students in grades K-8 attending schools within the School District. Such transportation shall be provided subject to the following:

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

- a) A written application for such transportation shall be submitted to the Transportation Office by April 1st annually to begin in September of the subsequent school year.
- b) In accordance with specific provisions of the Education Law, transportation to or from a licensed or registered child care facility shall be made to any such facility located within the District.
- c) With respect to non-licensed or non-registered child care locations, such transportation shall be limited to child care locations located within the attendance zone of the school the child attends. However, in the interest of serving the needs of children and parents, the District will also provide transportation to non-licensed or non-registered child care locations outside the attendance zone, so long as the following conditions are met:
 1. There is available seating on the bus;
 2. There is no impact on the timeliness of the bus route affected; and
 3. There is no additional cost to the District.

Student Conduct on School Buses

Parents have the responsibility for supervising their children while they are waiting for the bus in the morning and after they leave the bus at the end of the school day.

Once students board the bus, and only at that time, do they become the responsibility of the School District. Such responsibility ends when the students are delivered to their regular bus stop at the end of the school day. It is expected that student behavior in the bus will be the same as practiced in the classroom.

The Transportation Office, in collaboration with the building principals, shall develop and implement rules governing the conduct of students on school buses.

Bus drivers shall be responsible for maintaining order and enforcing the District's rules governing student conduct on school buses. Drivers are expected to report to the building principal all serious incidents of misbehavior by students on the bus. Under no circumstances are bus drivers authorized to discipline students by putting them off the bus en route.

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

Building principals shall have the authority to discipline students for misbehavior on school buses, including the authority to suspend the riding privileges of students whose behavior on the bus presents a serious problem. When bus riding privileges are suspended, parents shall be responsible for transporting their children to and from school.

Requests for Transportation to Non-Public Schools

Requests for transportation for students attending non-public schools must be made no later than April 1st preceding the school year in which such service is requested. If a student moves into the District later than April 1st then the request must be made within thirty (30) days after residence in the District is established.

Late requests for transportation will be denied unless:

- a) Such transportation can be provided at no additional cost to the District; and
- b) The Board determines on a case by case basis that there is a compelling excuse for the later request.

Bus Routes and Stops

The Transportation Office shall establish school bus routes and stops. Authorized bus stops shall be located in places where students may safely await, board and depart the bus. Public school bus routes will be established with student travel time not to exceed 40 minutes except in circumstances as authorized by the District. Non-public or Special Education students will have routes established to limit bus travel time to 60 minutes.

Bus drivers may only pick up and drop off students at their designated stops along the bus route. If students are to be dropped off at an alternative site, in an extraordinary circumstance, permission must be granted by the principal for each instance.

When transportation is provided to a non-public school for students living within the applicable mileage limits, the District shall establish one or more centralized pick-up and drop-off points for the transportation to that non-public school for students living beyond the mileage range. Pick-up and drop-off points must be District public schools. The District is not responsible for providing transportation for non-public school students between their homes and the pick-up or drop-off points.

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)**Field Trips and Student Activities Transportation**

Building principals and designated District program directors/coordinators are authorized, within budgetary limitations, to make appropriate arrangements with the District Transportation Office to use buses to transport students on field trips and to student activities. Private cars are not to be used to transport students on field trips.

Chapters 70 and 510 of the Laws of 2001 require that where a school district provides transportation to students enrolled in such district to a school-sponsored field trip, extracurricular activity or any other similar event, the district must provide transportation back either to the point of departure or to the appropriate school in the district, unless the parent or legal guardian of the student participating in the event has provided the school district with written notice, consistent with district policy, authorizing an alternative form of return transportation for that student, or unless intervening circumstances make such transportation impractical. The law further provides that in cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the district impractical, a representative of the school district shall remain with the student until the student is delivered into the custody of his or her parent or legal guardian.

Transportation Contracts

The Business Administrator shall ensure compliance with all applicable statutes and regulations regarding contracting with private bus companies to provide student transportation.

Bus Safety Drills

The Transportation Office shall ensure compliance with all applicable statutes and regulations for bus safety drills. No such drills may be conducted when buses are en route.

Bus Driver Qualifications and Training

The Transportation Office shall annually contact all private bus contractors to ensure compliance with all applicable statutes and regulations regarding bus driver qualifications and training requirements. The Superintendent of Schools shall annually approve the employment of each bus driver for each bus operated within the School District. See Policy #5740 Qualifications of Bus Drivers and #5741 Drug and Alcohol Testing for School Bus Drivers and Other Safety-Sensitive Employees.

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)**School Bus Maintenance**

The Transportation Office shall annually contact all private bus contractors to ensure compliance with all applicable statutes and regulations regarding school bus inspections and maintenance.

Emergency School Closings

When District public schools are closed because of inclement weather, transportation to the non-public and Special Education schools which District students attend will not be offered.

Education Law Section 1501-b

Adopted: 6/11/01

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

The Transportation Supervisor, in cooperation with the principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections, and will be serviced regularly. The transportation supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

Every bus driver is required to report promptly any school bus accident involving death, injury, or property damage. All accidents, regardless of damage involved, must be reported at once to the Transportation Supervisor.

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES**

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations, including school bus drivers who are required to have and use a commercial drivers license (CDL), are now subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall either establish and manage its own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSE), including school bus drivers who drive a vehicle which is designed to transport 16 or more passengers (including the driver), shall be subject to this requirement.

Federal regulations require that the District test school bus drivers and other SSEs for alcohol and drugs at the following times:

- a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.
- c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.
- d) There will also be post accident testing conducted after accidents on employees whose performance could have contributed to the accidents.
- e) Finally, return-to-duty and follow-up testing will be conducted when an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least 6 tests must be conducted in the first 12 months after an employee returns to duty. Follow-up testing may be extended for up to 60 months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

(Continued)

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)**

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

- a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater.
- b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.
- c) Using alcohol while performing safety-sensitive functions.
- d) Using alcohol 4 hours or less before duty.
- e) When required to take a post-accident alcohol test, using alcohol within eight hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.
- f) Refusing to submit to an alcohol or controlled substance test required by post-accident, random, reasonable suspicion or follow-up testing requirements.
- g) Reporting for duty or remaining on duty, requiring the performance of safety-sensitive functions, when the SSE uses any controlled substance. This prohibition does not apply when instructed by a physician who has advised the SSE that the substance does not adversely affect the SSE's ability to safely operate a CMV.
- h) Reporting for duty, remaining on duty or performing a safety-sensitive function, if the SSE tests positive for controlled substances.

Drivers and other SSEs who are known to have engaged in prohibited behavior with regard to alcohol misuse or use of controlled substances are subject to disciplinary action and penalties pursuant to District policy and collective bargaining agreements, as well as the sanctions provided for in federal law. SSEs who have engaged in such prohibited behavior shall not be allowed to perform safety-sensitive functions until they are:

- a) Evaluated by a substance abuse professional (SAP).
- b) Complete any requirements for rehabilitation as set by the District and the SAP.

(Continued)

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)**

- c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a controlled substance test with a verified negative result if the conduct involved controlled substance use.
- d) The SSE shall also be subject to unannounced follow-up alcohol and controlled substance testing. The number and frequency of such follow-up testing shall be as directed by the SAP, and consist of at least 6 tests in the first 12 months.

The Superintendent of Schools shall ensure that each SSE receives a copy of District policy, educational materials that explain the requirements of the alcohol and drug testing regulations, and any regulations and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or his/her designee shall ensure that a copy of these materials is distributed to each SSE, who shall sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of alcohol and controlled substance testing as well as at the beginning of each school year or at the time of hire for any safety-sensitive employees.
