BRAIN HIVE E-BOOK ACCESS REMINDER

For those attempting to access Brain Hive eBooks, please follow the steps as outlined...

1) Click on the link for the building the student will be attending in 2015-16!
2) The USER NAME is the student's first initial followed by last name and last two digits of graduation year. For example, John Smith entering 7th grade at Finley next year would enter JSmith21.
3) The PASSWORD is the student's district identification number after removing any leading zeros. The number can be retrieved from the Parent Portal. A student whose identification number is 08005001 would simply enter that number WITHOUT the first zero (8005001).

Again, please do not hesitate to watch the tutorials for additional information.

Important Note: If accessing e-Books through an Apple device (Mac computer, i-Pad, i-Phone) you should first download the Brain Hive app from the Apple store. (Flash Player does not work directly on Apple devices.)
Happy Reading!
