

## Huntington Union Free School District

*"A Tradition of Excellence Since 1657"*

James W. Polansky

Superintendent of Schools

May 22, 2013

Dear Huntington School District Residents:

On behalf of the Board of Education and administration, please accept my sincerest gratitude for supporting the Huntington School District's 2013-2014 budget. During a time that has come to be defined by fiscal challenge, your support will allow us to address the educational needs of our students as well as the concerns of our taxpayers. In addition, your support for the capital propositions will permit us to make the needed upgrades and improvements to building infrastructures with no impact on the tax levy or rate.

My appreciation also extends to each of you who assumed an active role, asked questions or provided input during the budget development process. We will maintain our efforts toward realizing cost savings and efficiencies, while preserving the goal of providing students, K-12, with a high quality education and one that promotes college and career readiness in an increasingly global and technologically driven society.

I cannot stress enough the importance of open lines of communication. Once again, I strongly encourage district residents to contact us at any time during the year with questions or concerns, or simply to recognize a student or staff member accomplishment. I firmly believe that together, we can build upon a strong educational foundation and continue to foster a climate that promotes increased student growth and achievement, parental involvement and synergy within the school district community.

Thank you for your confidence in the Huntington School District and for supporting our children and their futures.

Sincerely,

James Polansky  
Superintendent of Schools
