We are pleased to present you with the HANDBOOK of the New York State Public High School Athletic Association, Inc.

We encourage you to supply copies of the HANDBOOK to all your coaches. Knowing only the game rules of a sport is not enough to protect student eligibility. We also recommend again that rule reprints be made available at preseason meetings for athletes and their parents to ensure knowledge of the rules.

We cannot emphasize enough that the rules and regulations in the HANDBOOK are your standards, developed as the result of your input. We ask your support in the partnership of enforcing these rules and regulations. Each of us must take that responsibility seriously. We know that by working together we can ensure that our students will experience equitable and safe athletic participation.

The on-line NYSPHSAA Handbook will be updated at the conclusion of all Executive and Central Committee meetings. The NYSPHSAA will no longer be printing a copy of the handbook.

An additional resource to assist Athletic Administrators is the NYSAAA Handbook.

SPORTSMANSHIP
Athletics were always a natural part of the high school program. As the academies and the early high schools were established in New York State, participation grew gradually. Originally, interscholastic sports were operated by outsiders, but problems developed. Local community pride engendered excesses, colleges and commercial agencies became involved, and practices inconsistent with the objectives of education were common. School authorities at first opposed, then tolerated, and finally assumed full control of the interschool competition to correct injustices, inequities and abuses. As someone has said, "We have come a long way."

In 1921, Frank R. Wassung, Superintendent of Schools, Norwich, met with Daniel Chase, Supervisor of Physical Education in the State Education Department, to plan for a statewide organization. Schoolmen agreed to form the New York State Public High School Association of Basketball Leagues to bring consistency to eligibility rules and to conduct state tournaments. Mr. Chase, who became the first president, had the encouragement of Dr. Frank P. Graves, Commissioner of Education.

To provide for additional sports, the New York State Public High School Athletic Association was established in 1923. The NYSPHSAA became a member of the National Federation of State High School Associations in 1926. After a constitution was adopted, President Chase appointed a Central Committee of 14 members, one from each section, which elected John F. Hummer, Principal, Binghamton, as chairman. The provision that each section elect a superintendent, a principal and an athletic director as representatives on the Central Committee was adopted in 1928. The Central Committee was expanded in 1975 to include a representative of girls’ athletics from each section. With the addition of these representatives of girls’ programs to the Executive Committee in 1976, the NYSPHSAA leads the nation with its decision-making bodies structured for equitable input.

In 1937, at the request of this association and the Associated Academic Principals, nearly all of the NYSPHSAA Eligibility Rules were adopted by the board of Regents and became a part of the Regulations of the Commissioner of Education. The NYSPHSAA became incorporated in 1975. In 1978 each of the 11 sections were incorporated.

The Central Committee approved the establishment of the Athletic Protection Plan in 1932 as a service of the NYSPHSAA. Athletic Protection Plan gains recognition and was incorporated (1941) under State insurance Law. Lawrence Grimes served as Director for 29 years (1949-78). In 1975 the corporate title was changed to Pupil Benefits Plan, Inc.

Through the years the presidents of the NYSPHSAA (p. 26) have shown effective leadership. The NYSPHSAA was strengthened under the guidance of honorary presidents Dr. Frederick Rand Rogers, Dr. Hiram A. Jones, Dr. Ellis Champlin and Dr. George H. Grover, all of the NYS Education Department.
The NYSPHSAA grew under the administration of many capable and dedicated people. Elmer L. Smith, Rochester (1923-25) and Everett T. Grout, Schenectady (1925-29) served as Secretary and Emory A. Bauer was Treasurer (1923-29). In addition to being Secretary/Treasurer (1920-1942) Frederick R. Wegner initiated and conducted the early operation of the Athletic Protection Plan. John K. Archer served as Secretary/Treasurer from 1942-75. An office was established in Albany in 1962, with J. Kenneth Hafner serving as Field Representative and becoming Director of Field Services in 1970. Alton B. Doyle was appointed the first full time Executive Secretary in 1975, serving until 1990. Administrative staff have included, William Vesp (1977-80), Floyd Jones (1981-97), Walter Eaton (1990-2008), and Lloyd Mott (1997-2008) as Assistant Directors and Marcus Martone (1975-92), Gordon Durnford (1992-96) and Kathy Higle (1996-2012) as Treasurers. Dr. Sandra Scott (1975-2000) was elected Executive Director in 1990 and became the first woman executive director of a state high school athletic association in the nation. In 2000, Nina Van Erk was appointed as the Executive Director and served in that capacity for 12 years, until 2012. Robert Zayas began his tenure as Executive Director in the Fall of 2012, after spending 10 years at the New Mexico Activities Association. The NYSPHSAA Legal Counsel have consisted of Ron Shaw (1972-2005) and Kevin Seaman during 2005. Today the administrative staff consists of Assistant Directors Robert Stulmaker (2007) and Todd Nelson (2008), Director of Media, Marketing & Public Relations Joseph Altieri (2001), Treasurer Lisa Arnold (2013), Media Content Coordinator Joe Agostinelli (2013) and Counsel Renee James (2006). In February 2006, the NYSPHSAA moved its headquarters to 8 Airport Park Blvd., Latham, NY.

Hundreds of school representatives have contributed to the progress of our Association through their interest, service and leadership.

GENERAL OBJECTIVES OF THE NEW YORK STATE PUBLIC HIGH SCHOOL ATHLETIC ASSOCIATION, INC.

The Association serves as a central organization through which member schools in the state may cooperate to:

**Encourage** as many pupils as possible to participate in athletic games.

**Promote** sportsmanlike conduct in all athletic contests.

**Maintain** essential minimum standards of eligibility.

**Provide** means to settle disputed athletic contests amicably and authoritatively.

**Conduct** appropriate athletic meets and tournaments.

**Cooperate** with the State Education Department in fostering educationally sound athletic programs.

**Adapt** rules governing sports contests to the particular conditions for school competition.

**Continually** seek data to support rules changes leading to greater safety for school athletics.
NYSPHSAA, INC. RECOMMENDATIONS

1. Because the highest standards of good sportsmanship are in opposition to the policy of giving materially valuable awards to high school athletic teams; Because such awards create a false sense of the value of school loyalty and service; The NYSPHSAA, INC. recommends that school authorities give only awards of limited monetary value appropriate to high school level competition, furthermore, that the school administration be responsible for accepting, selecting and controlling awards that are offered by individuals or organizations or outside agencies such as P.T.A., service clubs, booster clubs, etc.

2. Because experience has shown that the most successful form of school athletic organization and control is in the league; Because the league offers opportunity for friendly and sportsmanlike relationships; The NYSPHSAA, INC. recommends that schools of similar size, similar interest and within reasonable distance of each other form leagues for all sports wherein they have interschool contests; that the appeal procedure specified in the Eligibility Standards be instituted only after an earnest attempt at settlement within the league.

3. Because athletics are a vital factor in the development of character, personality, physical fitness and leadership; Because athletics can only attain their rightful position as a school activity when it is recognized that a healthy body is as necessary as a sound mind; The NYSPHSAA, INC. recommends that a student not be barred from an athletic squad for any reason which would not bar one from an academic class or other school activity, excepting recognized eligibility rules.

4. Because there is an obligation to practice the principles of safety in athletics and to take all necessary precautions to prevent injuries; The NYSPHSAA, INC. recommends that all participants in interscholastic sports be covered by appropriate insurance.

5. Because school authorities have a responsibility for preventing the exploitation of high school students who have qualified for a letter in school sports; The NYSPHSAA, INC. recommends that school authorities discharge this responsibility by protecting students from being exploited by individuals or groups interested in promoting, for any purpose spectator or revenue producing contests such as all-star, charity and similar exhibition games. Senior All-Star contests as stipulated in the Eligibility Standards are permitted. Furthermore, it shall be the responsibility of school authorities to inform their teaching personnel to do nothing which shall impair this responsibility of boards of education to protect athletes against such exploitation.

6. Because our Regulations stipulate that all organized practice and games be conducted in the appropriate season (See Sports Standards), a school district planning or administering out-of-season recreations programs should avoid any implication of out-of-season practice and play. School sponsored activities conducted out of the sport season such as general conditioning, weight training, weight lifting, intramurals, recreation, open gyms, club activities and camps are permitted: 1) if such programs are not mandated by coaches or school personnel; 2) if such programs are available to all students.
The NYSPHSAA, INC. **recommends** these criteria for the guidance of other agencies which conduct summer recreation programs:

- a. Only contestants of high school age are to compete together.
- b. No school names may be used.
- c. Faculty members may not coach contestants who play together as a high school team in the regular season.
- d. A contestant may compete in only one recreation league.

7. The NYSPHSAA, INC. **believes** that adequate financial support for athletics shall be assured as part of the instructional budget for the school district.

8. The NYSPHSAA, INC. **believes** that proper medical and first aid care shall be provided by school authorities for students engaged in athletics. Therefore, a doctor shall be present or on call, and a school official with first aid training shall be present during all competitive events. The NYSPHSAA, INC. **recommends** that the school district provide all coaches with a plan for emergency medical action. Furthermore, all coaches must be current in meeting first aid and safety skill requirements.

9. All interscholastic competition activities shall be conducted in accordance with NYSED regulations and under the rules recommended by the various sport committees and approved by the NYSPHSAA, INC.

10. The Executive Committee has adopted a policy which prohibits the use of the organization's name as a sponsor or co-sponsor of a conference, meeting or project unless specific permission in writing by the association for a designated event or activity.

GUIDELINES FOR THE COACHING REQUIREMENTS
Regulations of the Commissioner of Education
Section 135.4 (c) (7) (i) (c) and Section 135.5
The University of the State of New York
THE STATE EDUCATION DEPARTMENT
July 19, 2009

PURPOSE

In order to help provide a safe environment and successful experience for boys and girls who participate on interschool athletic teams, Section 135.4 (c) (7) (i) (c) of the Regulations of the Commissioner of Education pertaining to physical education include certain minimum requirements for a person to be appointed as a coach of an interschool athletic team (see Appendix A). This includes all head coaches and assistants for varsity, junior varsity, freshman and junior high (modified) teams of public schools.

Many times a person who would like to coach an interschool athletic team has little or no preparation to teach sport skills and techniques. The only qualification is often the person's participation on a college or university team, coach of a community youth team or perhaps experience as a professional player. While such experience is valuable, it does not constitute an adequate preparation for coaching an interschool team as an integral part of the school physical education program. Courses in techniques of coaching specific sports are necessary for persons not trained and certified as physical education teachers.

The coach needs to possess an understanding of the social, moral and physical values inherent in secondary school athletics. The coach needs to be aware of the basic philosophy and principles of athletics as integral parts of physical education and the total educational program for children. The coach needs to know the various regulations and rules governing athletics so that the decisions a coach makes will not adversely affect the eligibility of the students or penalize students unfairly.

A man or woman who coaches an interschool team must be capable of protecting the health and well-being of the students by having knowledge of the structure and function of the human body. A coach must have a working understanding of how to properly condition athletes and prevent injuries as well as recognize, evaluate and follow the proper course of action when injuries do occur.

The course requirements in the Regulations of the Commissioner of Education are intended to provide a person with an understanding of the basic philosophy and principles of athletics in education, the health related aspects of athletics and the techniques used to coach a specific sport.
WHO SHALL MEET THE REQUIREMENTS?

Regardless of the experience or teaching certificates a person may have, State Education Law, Article (6), Section 3001b, requires that a person appointed as a coach of an interschool athletic team must hold valid first aid skills and knowledge certification (minimum of 12 hours initial training, valid for 3 years); and adult CPR certification (minimum of 4 hours training, valid for 2 years). Training courses are conducted by the American Red Cross, American Heart Association, National Safety Council, and New York State Education Department approved agencies. First Aid and CPR certification must be approved prior to the first day of practice. The equivalent requirements such as sports medicine and athletic training courses are discussed later in these guidelines. In addition to the first aid certificate, all coaches of interschool teams must meet part or all of the course requirements in a pre-service and/or in-service program. Which requirements apply to the individual coach depend upon the nature of the sport to be coached and the coach’s previous experience, training and basic teaching certificate.

Potential secondary school coaches may possess three different backgrounds:
(1) a certified physical education teacher;
(2) a teacher certified in an area other than physical education, e.g. English, mathematics;
(3) holds no teaching certificate and must qualify for a Temporary Coaching License.

THE FOLLOWING SHOULD BE NOTED FOR EACH TYPE OF BACKGROUND:

1. Certified Physical Education Teachers. A person who holds a valid certificate to teach physical education in New York State may coach any sport in any school, but must meet the first aid/CPR requirement prior to starting to coach.

2. Other Certified Teachers. Coaching a secondary school athletic team is considered teaching physical education. However, a person who holds a valid teaching certificate in an area other than physical education may also be appointed to coach. The person may either complete appropriate courses or meet the provisions of the "grandfather" clause, as noted below. The "grandfather" clause qualifies a teacher under Section 80.2(c) of the Regulations of the Commissioner of Education to do incidental teaching (coaching) in an area other than the one for which the person holds a certificate.

In addition to the first aid/CPR requirement prior to starting to coach, the certified teacher must (a) complete an approved course (or an equivalent course satisfactory to the commissioner – see Appendix C for the Coaching Equivalent form) in Philosophy, Principles and Organization of Athletics in Education within two years from the date of initial appointment as a coach; (b) complete a course on Health Sciences Applied to Coaching within five years of appointment as a coach; and (c) also, within that same five years, complete a course on Theory and Techniques of Coaching the sport or sports for which he/she is appointed.

A certified teacher does not need to apply for a Temporary Coaching License. It is the responsibility of the school administration to monitor and require certified teachers to meet all requirements to coach.

A) Temporary Coaching License (TCL). A person who does not hold a current New York State teaching certificate (e.g. physical education, English, mathematics) may be appointed as a temporary coach only if there are no certified teachers available with experience and qualifications to coach the team. The non-teacher coach must obtain a Temporary Coaching license from their school district’s BOCES (Board of Cooperative Educational Services) by applying on-line through the NYSED TEACH system and meet all of the same course requirements for coaching as does the certified classroom teacher within the same time lines and extensions.

- Application for the initial Temporary Coaching License, must submit evidence of appropriate first aid and CPR; child abuse prevention workshop and violence abuse prevention workshop to the BOCES certification office. The appropriate fee must be submitted with each application (see Appendix E - Application for a Temporary Coaching License). Only one sport may be applied to a TCL.
- Applications a 1st renewal of a Temporary Coaching License must be accompanied by evidence of enrollment or completion of the Principles, Philosophy and Organization of Athletics in Education course.
- Evidence of completion of the remaining required courses must meet the same time line followed by certified teachers (see item #2 above).

B) Professional Coaching License (PCL). A person who has completed all the required coaching courses, child abuse and violence abuse workshops, maintains fingerprint clearance, has valid first aid and CPR certification, and has held a minimum of three Temporary Coaching Licenses for a sport per CR 135.4(c)(7)(4)(A) may apply for a three-year renewable Professional Coaching License. The PCL may be renewed for an additional three-year period upon the submission of a renewal application. An application for a Professional Coaching License (see Appendix F – Application for a Professional Coaching License) requires a fee of $50. Only one sport may be applied to each PCL.

Renewal applications must include a renewal application and fee; verification of current first aid and CPR; evaluations prepared by either the Principal or the Director of Physical Education/Athletics for each year coached.

TCL AND PCL APPLICATIONS:
Applicants must begin the licensure process directly through the on-line State Education Department TEACH system application process at www.highered.nysed.gov/tcert

ADDITIONAL AUTHORITY IN REGULATION:

1) A coach of a non-strenuous/non-contact sport is not required to take the last two courses on health sciences or theory and techniques courses (see Appendix B - Course Outlines).
2) Extensions To Complete the Course Requirements: An extension of up to two additional years to complete the last two courses may be obtained if there is sufficient reason given for an extension (see Appendix D - Application Form for an Extension).

3) Lapse of Coaching Service: An extension of up to two additional years may be granted by application to the Commissioner for extenuating circumstances that resulted in a lapse of coaching service from the time of initial appointment as a coach. (Appendix D – Application Form for an Extension)

4) Grandfather Clause: “persons who were employed as coaches in New York State schools on or before September 1, 1974 and who do not meet the requirements set forth in subclause (1), (2) or (3) of this clause, may continue to coach any sport;”

OTHER REQUIREMENTS FOR APPOINTMENT TO COACHING POSITIONS

1) Fingerprinting Requirement

The legislation on Project SAVE (Safe Schools Against Violence in Education Act) requires new school district employees (both certified and non-certified) as of July 1, 2001 to undergo fingerprinting and clearance for employment. The Teacher Moral Character Unit within the Office of Teaching is responsible for developing regulations for implementing this provision and is working with the Division of Criminal Justice Services and the Federal Bureau of Investigation on this requirement.

The State Education Department will produce fingerprint packets that include two fingerprint cards, information, instructions related to legislation, fees, due process rights and where to get fingerprinted. These packets will be sent to school districts and to colleges and universities that prepare teachers.

Further information regarding the Project Save fingerprinting initiative is available at the Department’s web site at [www.highered.nysed.gov/tcert](http://www.highered.nysed.gov/tcert) or by contacting the Office of Teacher Certification at (518) 474-6440.

2) Child Abuse and Violence Abuse Workshops.

In accordance with Section 80-1.4 completion of a study in child abuse identification and reporting, and school violence prevention and intervention. All candidates shall have completed at least two clock hours of coursework or training regarding the identification and reporting of suspected child abuse or maltreatment in accordance with the requirements of sections 3003(4) and 3004 of the Education Law and completed at least two clock hours of coursework or training in school violence prevention and intervention, as required by section 3004 of the Education Law. Check with the local BOCES for course offerings or go to the following links to find an on-line class: [http://www.highered.nysed.gov/tcert/certificate/ca.htm](http://www.highered.nysed.gov/tcert/certificate/ca.htm) (child abuse identification) and [http://www.highered.nysed.gov/tcert/certificate/save.htm](http://www.highered.nysed.gov/tcert/certificate/save.htm) (SAVE) for more information.
WHO IS RESPONSIBLE FOR COMPLIANCE AND RECORDS?

Compliance: It is the responsibility of the board of education to appoint only coaches who meet the requirements as outlined in the Regulations of the Commissioner of Education. The chief school officer has the responsibility to see to it that all coaches once appointed by the board of education complete the necessary courses, to determine that the coaches are keeping their first aid skill and knowledge current and are complying with the coaching course requirements. Checking applicants through the SED TEACH system prior to submitting their names for appointment to the Board of Education is highly recommended.

Record Keeping: Each school district must keep permanent records on persons who have been and are currently coaching in the district. It is recommended that the director of physical education and athletics maintain these records. Information on the current coaching staff should be listed in the School District Plan for Physical Education.

WAYS OF MEETING THE EDUCATIONAL COURSE REQUIREMENTS FOR COACHING

The courses required to be completed will depend upon the nature of the sport being coached. In addition to the first aid and CPR requirement, a person coaching a non-contact/non-strenuous sport (bowling, golf, archery, rifle, shuffleboard, table tennis) need only complete the Philosophy, Principles and Organization of Athletics in Education course. This is normally a 3-credit college course or a 45-clock hour non-credit course.

Persons coaching contact/strenuous sports (football, soccer, track and field (indoor and outdoor), cross-country, gymnastics, wrestling, basketball, swimming, ice hockey, baseball, softball, lacrosse, field hockey, team handball, volleyball, tennis, fencing, crew, skiing, handball and badminton) must have valid first aid/CPR and must complete:

- Philosophy, Principles and Organization of Athletics in Education course (a 3-credit college course or a 45-clock hour non-credit course).
- Health Sciences Applied to Coaching (a 3 credit or 45 clock hour course) and,
- Theory & Techniques of Coaching (specific to the sport coached) (a 2 credit or 30 clock hour course)
(see Appendix B - Course Outlines and Sport Categories).

Ways in which the educational requirements for coaches can be met are:

1. Complete a State Education Department-approved course for coaches offered by approved agencies: schools, leagues, BOCES, colleges, universities or other like agencies; (an alphabetical list by location of approved agencies may be found on the Physical Education web page: www.emsc.nysed.gov/ciai/phyled.html Click the item Toolkit, then click on the bullet: Approved Courses); OR

2. Obtain approval for equivalent experience in lieu of attending one or more of the courses. Applications for equivalent experience must be made to the Office of Curriculum and Instruction (click on Toolkit in the above link, then click on the bullet: FORM and send the form and appropriate documentation: transcripts, course descriptions, certifications, etc., to the State Education Department, Office of Curriculum and Instruction, 89 Washington Avenue, Albany, NY 12234, Attention: Physical
Education). **Please note:** approval for equivalent experience applied to the Philosophy, Principles and Organization of Athletics in Education course is seldom given because few people received the practical experiences of working with the specific rules, regulations and interpretations which govern athletics in New York State schools.

The State Education Department does **not** issue course credit. Credit for courses is only given by approved agencies who offer the coaching courses. Partial or full credit towards fulfillment of required courses may be given for participation in appropriate conferences, clinics, coaching schools, other courses or experiences that provide knowledge of a comparable nature. Persons who believe they can qualify for such credit should contact the SED Physical Education Associate for an evaluation of their course experiences (Coaching Course Equivalents). A review may exempt persons from class sessions covering topics in which the person’s experience is judged to be sufficient.

All coaches must be current in first aid and CPR prior to the first day of practice for the assigned sport. First aid/CPR for coaches can be completed through various options. Options available include the following (First Aid valid for three years and CPR valid for two years for the purpose of coaching):

1. Completion of an approved First Aid or CPR program by the American Red Cross, American Heart Association, National Safety Council or other approved agency included on a list available from the State Education Department; OR
2. A State Education Department-approved college or university course on athletic training or sports medicine that includes first aid certification; OR
3. A State Education Department-approved In-service first aid course; OR
4. A State Education Department-approved college first aid course; OR

A list of State Education Department approved agencies providing in-service first aid courses is available online at: [www.emsc.nysed.gov/ciai/physed.html](http://www.emsc.nysed.gov/ciai/physed.html) click on Toolkit, then click on the bullet: Approved Courses. *Insuring that all coaches continue to meet requirements for first aid and CPR from the date of appointment to coach an interschool team is the responsibility of the chief school officer.* Prior to the start of each sport season, the chief school officer must require valid evidence that each coach has kept current with skill and knowledge of first aid and CPR and that all coaches have completed coaching course work as required.

This 45 hour course will be taught in 15 sessions. Each session is three hours in duration.

The course covers basic philosophy and principles as integral parts of physical education and general education; State, local and national regulations and policies related to athletics; legal considerations; function and organization of leagues and athletic associations in New York State; personal standards for the responsibilities of the coach as an educational leader; public relations; general safety procedures; general principles of school budgets, records, purchasing and use of facilities. (Note: This is not a course in “athletic administration.” In addition to first aid and CPR, this is the only course required for coaches of non-contact/non-strenuous sports: bowling, golf, archery, rifle, shuffleboard, table tennis).

Health Sciences Applied to Coaching (3 Credits – 45 Hours)

This 45 hour course will be taught in 15 sessions. Each session is three hours in duration.

The course is a series of interactive exercises and activities designed to study Health Sciences as they apply to coaching sports. Through these activities, exercises and health application to coaching topics, participants will gain information, organize it for professional and personal use, and apply it to their particular programs. Health Sciences as applied to coaching will also help define: selected principles of biology, anatomy, physiology, kinesiology related to coaching; risk minimization; mixed competition; NYSED selection and classification of athletes; age and maturity of athletes.

This 45 hour course is divided into three parts:

Part I - Philosophy, Physiology, and Psychology (9 hours)

Part II - Fitness, Conditioning, Sport Specific Training, Nutrition, and Weight Management (24 hours)

Part III - Current and On-going Health Issues and Administrative Procedures (12 hours)
Theory & Techniques of Coaching (2 Credits - 30 Hours)

This 30-hour course will be taught in ten (10) sessions. Each session is three (3) hours in duration. The first five (5) sessions will address the commonalities of all sports. Sessions six through eight (6-8) will deal with the coaching of specific sports. Session nine (9) will result in an internship experience in one specific sport as described below. Session ten (10) will deal with the coach's maintenance of personal health and wellness.

The course will begin with an introductory phase in which the basic concepts common to all sports will be discussed. Topics will include a history of interscholastic athletics in New York State. The objectives, rules, regulations and policies of athletics, as well as performance skills, technical information, and organization and management practices will also be among the topics covered. The special training and conditioning of the athletes in specific sports, the fitting of equipment, specific safety precautions and officiating methods will also be examined. An internship that will include practical experience as a coach in the specific sport and/or periods of observing other approved coaches will also be required.

Second Sport Certification

If a coach wishes to gain certification in a second sport while taking this course, he/she must meet additional requirements by completing activities in sessions 6, 7, and 8 for that sport. A second internship experience (Session 9) must also be completed for the additional sport.

If a coach has already completed the Theory & Techniques of Coaching course for one sport and at a later date wishes to have certification in a second sport, they must complete only Sessions 6, 7, 8, and 9 for that sport and not the entire course.

The following courses are approved as equivalent instruction for sessions 6-9 when requesting 2nd sport certifications only:
2) American Sport Education Program: Coaching Technical and Tactical Skills
Online Courses in Football, Basketball, and Baseball

GUIDELINES FOR SPORTS STANDARDS

(As provided for in the Regulations of the Commissioner of Education - Section 135.4 (c) (7)(ii)B9)(3).)

NOTE: The State Education Department shall annually review the sports standards of athletic associations in order to insure that they conform to the intent of the Regulations and these guidelines.

Sports standards adopted by an athletic association shall conform to the following:

1. **Seasons.** Each sport shall be assigned a specific starting and finishing date for all member schools. Any necessary changes in such dates due to local school, league or section problems must be approved by the executive officers of the associations. The length of a season, including all skill testing, conditioning practice and contests, shall not exceed:
   a. 15 consecutive weeks for crew, cross-country, field hockey, football, lacrosse, outdoor track and field, soccer and team handball;
   b. 22 consecutive weeks for basketball, gymnastics, ice hockey, indoor track and field, skiing, swimming, volleyball and wrestling;
   c. 2 separate 15 week periods (fall and spring) for badminton, baseball, fencing, golf, handball, softball and tennis;
   d. Unlimited season length for bowling, archery, riflery and table tennis (these need not be schedule in contiguous segments).

NOTE: It is recommended that an athlete finishing a strenuous or contact sport season and starting another be given a week layoff between seasons and adjustments be made in required practices for such cases.

2. **Time Between Contests.** Each sport shall be designated with an appropriate time between contests, including interschool scrimmages. The time between contests shall be consistent with the nature of the sport in terms of: pupil physical recovery time, injury exposure, specialized practice preparation, as well as the administrative, financial and climatic factors.

3. **Required Practice Days.** Each sport shall be assigned a suitable number of practice days prior to the first scrimmage and contest. A minimum number of practice days shall be established as team practices and a minimum number of practice days shall be required of each participant. Team sports of a strenuous nature shall also have an appropriate number of practice days devoted entirely to physical conditioning before commencing with team skill development activities.

4. **Maximum Number of Contests.** The maximum number of contests, which may be established for interscholastic sports during a regular schedule, shall be determined in the sections established by the athletic associations of the State. The maximum number of contests shall be limited in accordance with a majority vote of the chief school officers of the schools located within the section. The maximum number of contests established for each sport during the regular schedule is subject to review by the state athletic associations and may be altered where it is found that disparities in the number of games contribute to unequal competition between teams in different sections.
All sectional post-schedule tournaments shall be approved by the local sectional athletic council or controlling body in which the schools hold membership. All other post-schedule tournaments shall be approved by state associations. (see p. 105)

5. **Mixed Competition.** Mixed competition between male and female pupils shall conform to Section 135.4 (c) (7) (ii) (c). An exceptional girl, under this regulation, is a girl who is so far superior to other girls in her school, league, or section that she can only be challenged through participation on a boys’ team. (see p. 39, 47, 80)

6. **Participation Rules.** Eligibility standards adopted by an athletic association shall be the same for male and female pupils. Competition standards for each sport must be the same for male and female sports when the events and rules are identical, and associations shall make an effort to have these standards equitable whenever the events and rules are not identical.

7. **Sports Standards** adopted by an association shall be filed with the New York State Federation of Secondary School Athletic Associations and the New York State Education Department.

Subject: Fingerprinting Sports Officials  

Date: September 23, 2011  

The purpose of this memorandum is to clarify and provide guidance on the topic of fingerprint supported criminal history background checks for sports officials, as mandated by the Schools Against Violence in Education ("SAVE") law, which was enacted in 2000 (Ch. 180, Laws 2000).

At the outset, it is important to note that it is the covered school’s obligation to comply with the requirements of SAVE. Each individual covered school must analyze each employment situation to determine how to ensure that that employment situation complies with the fingerprinting requirement of SAVE. In other words, each covered school must ensure that the prospective employee, in this case - the sports official, is fingerprinted or meets a fingerprinting exception contained in the Commissioner’s regulations at 8 NYCRR §87.2(k). "It is the covered school’s responsibility to ascertain how to best meet these requirements and to implement an individualized plan that will ensure compliance. For instance, a covered school could choose to apply a fingerprinting exception, when applicable, to each employee or it could determine, in their discretion, that it cannot meet the exception’s conditions for a particular group of employees and adopt a policy that requires that group to be fingerprinted prior to employment.

Specifically, with respect to sports officials, covered schools have advised that they are encountering the following recurring issues and are seeking an interpretation of the application of two exceptions provided for in the Commissioner's regulations. The issues for consideration are:

1. The complexity and cost involved in evaluating whether an official should be grandfathered for any given contest/year in a particular school district;
2. The complexity and cost involved in tracking the number of visits to verify that the 5-visit limitation has not been exceeded for non-grandfathered officials who have not been fingerprinted and cleared;

3. The real possibility that for any given contest, the official who arrives to work may exceed the 5-visit limitation due to the fact that there are many last minute substitutions of officials; and

4. The requirement to provide direct in-person supervision of each non-grandfathered official while that official is on school grounds.

The exceptions to the fingerprinting requirements contained in the regulations are very limited in scope and cannot be "piggybacked" on each other. The exceptions are as follows:

"Grandfather" - allows an employee who worked in a school district in the school year prior to July 1, 2001 to be exempt from fingerprinting as long as he or she maintains at least one employment contact with the school district in each subsequent school year after July 1, 2001. A break of a school year means the exception no longer applies to the employee. Employees are grandfathered only within a district. The failure to work in a district during any subsequent school year would mean that the employee must be fingerprinted to work in that school district again. In other words, the employee needed to have one employment contact in the 2000-2001 and at least one employment contact every school year since then. Sports officials, who are grandfathered for one sport at a covered school in a given school year, are automatically grandfathered for all sports at the covered school in the same school year (8 NYCRR §87.2(k)(3)(ii)).

"5-Day Rule" - allows an employee who is expected to have no more than five days of contact with a covered school (not a school building and not per sport), to be exempt from fingerprinting as long as that employee has in-person supervision by a covered school employee who has complied with SAVE. This exception allows for a total number of contact days with a covered school for a school year (July 1 - June 30). It cannot exceed five. If an official works more than one sport, the total number of contacts days is calculated toward the 5-day rule, not the total number per sport. In other words, a sports official cannot work 5 days for one sport, and then 5 days for another sport (8 NYCRR §87.2(k)(3)(iii)).

Finally, covered schools, may not exempt an employee by using the "5-day rule" in the first year and then claim that they are "grandfathered" in the second year. The only employees that can claim to be "grandfathered" must have had an uninterrupted series of employment contacts since the 2000-2001 school year.
1. Does a covered school have the right to have stricter standards than the law, by requiring a background check on any official prior to allowing that official to work a contest in that school, even if the official may actually be "exempt" from having to be fingerprinted under the law?

Generally no. It is, however, the duty of the covered school to ensure that the requirements of SAVE are satisfied. As was indicated above, a covered school can determine that it cannot meet the conditions of the exceptions contained in the Commissioner's regulations for a particular group of employees and adopt a policy that requires that group to be fingerprinted prior to employment. With respect to sports officials, a covered school could determine that it is too cumbersome to ascertain whether the "grandfather" provision applies to each of the several hundred sports officials it uses in any given school year (prior to him or her providing services on-site) and, therefore, require that he or she be fingerprinted prior to employment.

2. Must a school provide in-person supervision for sports officials so that the sports official can use the 5-day exemption (provided the sports official does not exceed the 5 day rule)?

No, a covered school can determine that it cannot provide in-person supervision for all sports officials when they are officiating sports contests and, therefore, the 5-day rule does not apply. If a covered school chooses to apply the 5-day rule to a sports official, it is the covered school's responsibility to ensure that the sports official: 1) has the in-person supervision required by the regulation; and 2) does not exceed the 5-day limitation. Employing an individual without in-person supervision or in excess of the 5-day rule, without completion of the fingerprint background check, does not comply with the Commissioner's regulation.

3. Can a covered school refuse to hire an official who does not have clearance under SAVE legislation, even though the official was not actually required to be cleared under the law?

Yes, if the official does not meet a covered school's policy that reasonably complies with SAVE, the covered school is under no obligation to hire them. Sports officials may choose not to comply with a covered school policy that requires fingerprinting, however, covered schools are under no obligation to hire anyone who refuses to comply with the school policy concerning fingerprinting.

PREFACE

The Athletic Placement Process (APP) is a program for evaluating students who want to participate in sports at higher or lower levels, as approved by the Board of Regents as a part of the school eligibility rules in 1980, and is aligned with Learning Standards 1 and 2. Commissioner’s Regulation Section 135.4(c)(7)(ii)(a)(4) states:

A Board of Education may permit pupils in grades no lower than seventh to compete on any senior high school team, or permit senior high pupils to compete on any teams in grades no lower than seventh, provided the pupils are placed at levels of competition appropriate to their physiological maturity, physical fitness, and skills in relationship to other pupils on those teams in accordance with standards established by the Commissioner.

These standards state that students will have the necessary knowledge and skills to establish and maintain physical fitness, participate in physical activity, maintain personal health, and acquire both the knowledge and ability to create and maintain a safe and healthy environment.

The New York State Education Department (NYSED) has collaborated with the New York State Athletic Administrators Association (NYSAAA), the New York State Public High School Athletic Association (NYSPHSAA), the Statewide School Health Services Center (SSHSC), district directors of school health services (commonly referred to as medical directors and previously known as school medical officers), and directors of physical education/athletics to promote physical education and interscholastic athletic competition statewide. This guide to the Athletic Placement Process is the result of that collaboration.

This document represents the shared belief of the NYSAAA, the NYSPHSAA, medical directors, directors of physical education/athletics, and the NYSED that physical education and interscholastic athletic competition are important to the development of the whole child, and that students benefit when they can participate in such activities at a pace that is consistent with their physical and emotional maturity, size, fitness level, and athletic skill.

Schools, both public and private, competing in interscholastic sports under the jurisdiction of the Commissioner’s Regulations may choose whether or not to adopt a policy that permits students in the 7th and 8th grades to try out for a high school team, or that permits high school students to play at the modified level. If schools choose to have such a policy, the process outlined in this document is to be followed.

Normally, a student is eligible for senior high athletic competition in a sport during each of four consecutive seasons, beginning with entry into the ninth grade. However, by satisfying the requirements of the APP, a student may receive extended eligibility that permits:

a) participation during five consecutive seasons in the approved sport, after entry into the eighth grade; or
b) participation during six consecutive seasons in the approved sport, after entry into the seventh grade.

THE INTENT OF THE APP IS TO PROVIDE A PROTOCOL FOR THOSE DISTRICTS THAT CHOOSE TO ALLOW STUDENTS IN GRADES 7 AND 8 TO MOVE UP; OR FOR STUDENTS IN GRADES 9-12 TO MOVE DOWN, ALLOWING THEM TO PARTICIPATE SAFELY AT AN APPROPRIATE LEVEL OF COMPETITION BASED UPON PHYSICAL AND EMOTIONAL READINESS AND ATHLETIC ABILITY RATHER THAN AGE AND GRADE ALONE.
Students do not mature at the same rate, and there can be tremendous developmental differences between students of the same age. The APP is not to be used to fill positions on teams, provide additional experience, provide an opportunity for middle school or junior high students when no modified program is offered, or to reward a student. Instead, it is aimed at the few, select students who can benefit from such placement because of their level of readiness.

**How to Use This Guide**

The APP is a program that may be implemented at the discretion of local school districts. It is not mandated.

The APP is intended for use by student athletes in grades 7 - 12, and directly relates to specific interschool sport categories and levels of competition as follows:

**Intermediate**
- Grades 7 - 8

**Commencement**
- Grades 9 - 12

**Interscholastic Sports Categories:**
- **Contact Sports**: basketball, baseball, field hockey, ice hockey, lacrosse, soccer, football, softball, volleyball, competitive cheerleading, and wrestling

- **Non-Contact Sports**: archery, bowling, cross-country, golf, gymnastics, rifle, swimming & diving, skiing, tennis, track & field, fencing, and badminton

**Athletic Competition Levels:**
- Modified
- Freshman
- Junior Varsity
- Varsity

The main body of this document is organized to assist the medical director and the physical education director and/or athletic director in administering all aspects of the APP.

There is great diversity among student athletes throughout New York State. The APP was revised to assess a student’s physical and emotional maturation, physical fitness, and sport skill, so that a student may be placed at a level of competition that should result in increased opportunity, a fairer competitive environment, minimized risk, and greater personal satisfaction. In districts that allow the program, safety must be of paramount importance.

The APP is to be used only when an individual athlete’s athletic skills warrant moving to the commencement or intermediate sport competition level, and therefore, ideally, it should be initiated by the district’s physical education director and/or athletic director and physical education staff, who recognize the student’s skill. The APP may be used either prior to the beginning of the season, so that the student athlete can participate in the try-out period, or within the timelines specified by the NYSPHSAA Promotion Rule.
GENERAL INFORMATION

Physical education teachers, coaches, students, or parents/guardians may ask the physical education director and/or athletic director to evaluate a student, using the APP. Students will not be processed through the evaluation procedures without a request from the physical education director and/or athletic director and parent/guardian written permission. It is not the intent to evaluate all modified students, and evaluation should be considered only for those students with the appropriate physical and emotional readiness, and whose athletic abilities are outside of those of their age-related peers.

Transition from Selection Classification to Athletic Placement Process for 2014-2015

- Beginning in the fall season of 2015, the APP will be used to advance students to the high school athletic program.
- Students in 7th grade will be evaluated through the APP.
- Students in 8th grade who have not been Selectively Classified for a sport in the previous year will be processed through the APP.
- Students in 8th grade who had been advanced to a higher level through the Selection Classification process in the previous year will not need to be re-evaluated if they remain at the same level of athletic competition in the same sport. If a student changes levels of the sport, the APP will be followed.

After the fall season of 2015, the following should be implemented:

If a student in grade 7 or 8 has reached the chronological age of 15 years old prior to July 1, he or she is eligible to participate on high school athletics without undergoing the APP; only medical approval by the district medical director is required, as these students are already at an advanced age and would otherwise lose eligibility due to aging out.

A student who has undergone the APP does not need the procedure repeated if he/she achieved the required scores for fitness, maturity, and comparable physical size for the desired sport and level, regardless of the school year in which the testing was completed.

If a student has undergone the APP evaluation procedure and participated in the 7th grade, the process would not have to be repeated in the 8th grade provided they remain at the same level of athletic competition in the same sport. If the student changes levels or sports, the student’s scores should be reviewed to see if they meet the requirements for the desired level and sport. APP evaluation procedures must be repeated only if the scores do not meet the requirements for the desired level and sport.

If a student has attained an appropriate level of physical maturity, and has a height and weight that are comparable to those of the proposed team members as determined by the medical director, they may proceed to the next level of skills assessment by the athletic/physical education director. If the medical director does not clear the student to participate in the desired sport and level, he or she may not proceed any further in the evaluation process. Medical directors should not be pressured to change their decision. If a student is determined to be comparable with the physical size and maturity of the average age and sex of the students against whom they wish to compete, but fails to meet more than one of the physical fitness test standards, or if a student fails to meet an appropriate sport skill level as determined by the coach, he or she may not proceed any further in the evaluation process.
In conclusion, the district medical director and the director of physical education/athletics and ultimately the board of education ensure compliance with the APP. It is intended only for the student who is truly at a level of physical and emotional maturity, comparable physical size, fitness, and sport skill that is commensurate with the level of competition that they wish to pursue.

An athlete may not be approved to participate by the medical director due to health impairment and/or the student's physical maturation level. Whenever there is disagreement between a private health care provider and the district medical director, efforts should be made by both parties to come to agreement for the health and safety of the student athlete. In these cases, the primary concern should be allowing an athlete to participate to the fullest level of his or her potential safely, and neither the demands of parents, athletes, or coaches should confound that concern. However, Education Law, Section 3208(a) provides a due process procedure to students or their parents/guardians to petition the courts for relief from a school district's exclusion of the student from participation in an athletic program. In the event of such disqualification, school authorities should advise the parents and the student of the availability of this process. The court may then grant such a petition, if it is satisfied that it is in the best interest of the student and that it is reasonably safe for the student to participate in the athletic program.
ATHLETIC PLACEMENT PROCESS

PHYSICAL EDUCATION DIRECTOR AND/OR ATHLETIC DIRECTOR
PROCEDURES FOR THE DIRECTOR OF PHYSICAL EDUCATION AND ATHLETICS

The director of physical education/athletics has the responsibility of ensuring that the APP is followed by all parties involved; that the medical director is included at appropriate times; and that the final determinations are sent to the parents, competing school districts, and section executives. Students who pass all parts of the APP are permitted to try out. There are no waivers. A student must meet the appropriate standards of physical and emotional maturity, size, fitness, and skill, in order to qualify.

IMPLEMENTATION STEPS
ALL STEPS MUST BE FOLLOWED, IN ORDER, FOR EACH APP REQUEST.

Step 1 District Policy: Confirm that the school district has approved a resolution to allow students to participate in the APP (and/or revise the language in existing “Selection/Classification” policies to include the new process). If no such resolution exists, proper steps should be taken to ensure that this first requirement is met. (see Appendix A–Sample Resolution).

Step 2 Parent/Guardian Permission: All students who are to be evaluated must first obtain written parent/guardian permission before any evaluation may begin (see Appendix B).

Step 3 Administrative Approval: The athletic administrator should confirm that the student is suitable for consideration, which includes the likelihood that the student would play in at least 50% of the games. Additionally, because of the increased time demands of participation at the high school level, the student’s academic performance (as determined at the local level) should be at or above grade level. Furthermore, administration should assess the student’s emotional readiness to socialize with high school-aged students. If the student is not academically or socially ready, the student should not proceed through the APP.

Step 4 Medical Clearance: (Must be completed BEFORE the physical fitness portion of the process) The district medical director will determine a student’s physical maturity level, and compare the physical size of the student in relation to that of the students against whom the student wishes to compete. If the student is determined to have attained the appropriate physical maturity level and comparable physical size for the desired sport and level (see Appendix C and H), the student may proceed with step 5. If the student is determined to not have attained an appropriate physical maturity level for the desired sport and level, the process stops.

Important Note on the Physical Maturity Examination: For the medical director, determining the physical maturity level of the student is an important step in the APP process. This is done to ensure that the student has attained a level of physical development at which the chances of growth plate or overuse injury is minimized. Since the growth plate is the weakest area of the growing skeleton, weaker than the nearby ligaments and tendons that connect bones to other bones and muscles, injury to a growth plate can lead to a serious and potentially permanent injury to a joint or long bone. While growth plate injuries are usually caused by an acute event such as a fall or a blow to a limb, they can also result from overuse, such as when a gymnast practices for hours on the uneven bars, a runner runs long distances, or a baseball pitcher spends hours perfecting a curve ball. Growth plate trauma and other overuse injuries may
occur in competitive sports such as football, basketball, softball, track & field, and gymnastics. The likelihood increases when students are doing a single sport year round without substantial rest; therefore, caution must be exercised in determining the physical maturity of students at this age level. Developmental staging reduces, but does not eliminate, the risks of injury to a younger student moving up to sport activities involving more developmentally mature students. Since all growth plates might not be fully matured by the time a student reaches Tanner 5, care must be exercised in determining the physical maturity of athletes. The size of the student in relation to the other athletes is also a critical component in determining the risk of injury.

It is always best to err on the side of caution and keep a student at the age-appropriate level of play in order to safeguard the student. There will be many more years for the student to advance in athletics, and success is more likely if he or she does not suffer from permanent injuries.

**Step 5 Sport Skill Evaluation:** The sport coach will rely on past personal observations and may consider input from the student's former coaches to complete the evaluation. If the coach is unfamiliar with the student, the sport coach may wish to observe the student in a physical education class (see Appendix D).

**Step 6 Physical Fitness Testing:** This must be done by a certified physical education teacher who is not a coach of the sport for which the student will be trying out. The President’s Physical Fitness Test has been selected as the test for this process, and the student must meet the 85th percentile level for their age in 4 out of 5 test components (see Appendix E, I, and J). For students trying out for swimming, see Appendix J for an alternate fitness test to the 1 mile walk/run- students trying out for swimming may choose to either do the 1 mile walk/run or the 500 yard swim.

*Exception to the physical fitness test requirement: Students who desire to try out for bowling or golf teams are not required to complete the physical fitness testing.*

**Step 7 Qualification Determination:** The results of the three evaluations will be sent to the director of physical education/athletics. Only students who pass all parts of the APP are permitted to try out.

**Step 8 Try Outs:** The student is allowed to try out for the sport and level requested or the student must return to the modified level of competition. For students trying out for bowling or golf, see instructions for try outs for these sports in Appendix G.

**Step 9 Records:** The physical education director and/or athletic director must maintain all records of students who have successfully completed the APP. Items to be kept in the student’s file are: Parent/Guardian Permission and Result letters; Maturity Evaluation and Medical Director Form; Physical Fitness results; Coach’s Sport Skill Evaluation.

**Step 10 Notifications:** A Notification List (see Appendix F) of the scores of all athletes who have successfully completed the process and have been approved through the APP after the try-out period has been completed must be sent to:

- The physical education director and/or athletic director of competitor schools
- Athletic governing board or section office

ATHLETIC PLACEMENT PROCESS

DISTRICT MEDICAL DIRECTOR
PROCEDURES FOR THE DISTRICT MEDICAL DIRECTOR

The director of school health services, commonly referred to as the medical director, (also known as the medical officer, or the school or district medical director) must approve a student’s participation in interscholastic athletics [8NYCRR 135.1(7)(i)]. The medical director, who is a physician, or a nurse practitioner employed by the district has the responsibility of ensuring that all students who enter into the school’s interscholastic sport program are physically able to participate in the sport of their choosing. Special attention must be given to students in grades 7 and 8 who wish to move up to a higher level of competition. Students in grades 9-12 may qualify to move to a lower level of competition. This section will provide guidance for making the decision to allow younger students the opportunity to play at a higher level, or older students to play at a lower level, provided that they have the physical maturity, comparable physical size, fitness levels, and sport skill to do so safely and with success. Prior to being sent to the medical director, students are required to have written parent/guardian permission to participate in the APP, approval by administration to move to the desired level, and a recommendation from the athletic administrator.

IMPLEMENTATION

The medical director will determine:

- the physical maturity level of the student in relation to the sport and level in and at which they wish to participate (see Appendix C and H), using the Tanner Scale
- the size, in height and weight, of the student in relation to the size of the average age and sex of the students against whom they wish to compete

The medical director should take into consideration the height, weight, muscle mass and Tanner rating as compared to the other athletes he/she would compete with. For physical development and maturity, Tanner staging remains the least invasive tool to gauge a person’s sexual maturity rating as an indicator of physical maturation. Best practice, therefore, would dictate that the medical director use the Tanner Rating Scale and compare the developmental level of the student to the average Tanner level of students playing the sport at the desired level. The medical director may conduct the Tanner Rating examination him/herself with the prior informed consent of the parent/guardian and of the student. The school must make provisions that allow for a private, dignified, chaperoned examination, with a parent/guardian present if he/she and the student so desire. Alternatively, the medical director may decide to use, but is not obligated to use, the Tanner rating provided by a private medical provider. Additionally, for girls giving a history of having gone through menarche, assigning a Tanner rating of five without a physical examination may also be done at the professional judgment and discretion of the medical director, if the history given is consistent with observation of body appearance while clothed. Since a Tanner Rating requires an intimate examination, it is essential that school districts create a sound protocol with simple and clear information for parents/guardians and students to understand what is required during an examination and whether private medical provider assessments, or a student or parent/guardian reported history of menarche are acceptable.

For physical size comparability, the medical director should have access to the current height and weight of the student, and compare that with the size of the average age and sex of the students against whom they wish to compete. Growth charts are the easiest method of accomplishing this. For consistency, it is recommended that the following growth charts from the Centers for Disease Control and Prevention are used. (see the following page)
The medical director will clear the student to continue the APP if:

- the student is at an appropriate physical maturity* level by Tanner Scale for the desired level and sport; and

- the student is physically comparable with the average age and sex of the students against whom the student will compete.

The process stops if a student is not at a comparable physical maturity level or physical size in relation to the average age and sex of the students against whom he or she desires to compete, as determined by the medical director. The medical director does not need to do anything more than return that information to the physical education director and/or athletic director (see Appendix C). In cases where the medical director's determination differs from that of a private medical provider, there should be communication between the two to determine the best decision for the student in question. If there can be no consensus between the medical director and the private provider, the medical director's determination is final. It is advisable that the medical director complete his or her own examination of the student in such cases.

*Important Note on the Physical Maturity Examination: For the medical director, determining the physical maturity level of the student is an important step in the APP. This is done to ensure that the student has attained a level of physical development at which the chances of growth plate or overuse injury are minimized. Since the growth plate is the weakest area of the growing skeleton, weaker than the nearby ligaments and tendons that connect bones to other bones and muscles, injury to a growth plate can lead to a serious and potentially permanent injury to a joint or long bone. While growth plate injuries are usually caused by an acute event, such as a fall or a blow to a limb, they can also result from overuse, such as when a gymnast practices for hours on the uneven bars, a runner runs long distances, or a baseball pitcher spends hours perfecting a curve ball. Growth plate trauma and other overuse injuries may occur in competitive sports such as football, basketball, softball, track & field, and gymnastics. The likelihood increases when students are doing a single sport year round without substantial rest; therefore, caution must be exercised in determining the physical maturity of students at this age level. Developmental staging reduces, but does not eliminate, the risks of injury to a younger student moving up to sport activities involving larger and more developmentally mature students. Since all growth plates might not be fully matured by the time that a student reaches Tanner 5, care must be exercised in determining the physical maturity of athletes. It is always best to err on the side of caution and keep a student at the age-appropriate level of play in order to safeguard the student.

SAMPLE RESOLUTION BY BOARD OF EDUCATION

ATHLETIC PLACEMENT PROCESS POLICY

WHEREAS, Section 135.4(c) (7) (ii) (a) (4) of the Regulations of the Commissioner of Education provides for a board of education to permit pupils in grades no lower than seventh grade to compete on interscholastic athletic teams organized for senior high school pupils, or senior high school pupils to compete on interscholastic athletic teams organized for pupils in the seventh and eighth grades; and

WHEREAS, these pupils are to be allowed to compete at levels that are appropriate to their physical maturity, physical fitness, and sport skills in relationship to other pupils in accordance with the standards established by the Commissioner of Education; and

WHEREAS, the State Education Department issues the competition standards for these pupils to compete under a program called the Athletic Placement Process;

THEREFORE BE IT RESOLVED that the (name of school district) Board of Education shall permit pupils to compete after successfully completing the Athletic Placement Process for the requested sport and level.

1 Districts may be more restrictive than the Commissioner’s Regulation, but not less restrictive. If any limitation is to be placed on the Athletic Placement Process (example: specific sports or specific levels), it shall be specified within the content of the Board of Education resolution.

ATHLETIC PLACEMENT PROCESS

PARENT/GUARDIAN PERMISSION

Dear Parent/Guardian:

There is a New York State Education Department (NYSED) program that permits physically and emotionally appropriate students to try out for an athletic team that is outside of their grade placement. It is called the Athletic Placement Process (APP).

Your child (name): ____________________________ may be eligible to participate in the sport of ____________________________ outside of his or her normal grade level. In order to establish the appropriate eligibility, we must have your permission to begin the APP.

This evaluation is a comprehensive evaluation of your child’s emotional and physical maturity (including height and weight); as well as athletic abilities, physical fitness, and sport-specific athletic skill in relationship to other student athletes at that level.

Physical maturity is determined by the district medical director during a physical exam, using the Tanner Scale. The Tanner Scale requires the inspection of the entire body, including the breasts and genitals. The district does not accept Tanner ratings from private medical providers. The district does accept a history of menarche for girls in place of a physical examination. Upon passing the medical clearance, the student may proceed to the physical fitness and skill assessments. Students must pass all levels in order to meet the requirements of the APP.

If your child successfully meets the requirements of the APP, he/she will be allowed to try out for competitive high school athletics during 7th and/or 8th grade(s), or compete at the modified level if in grades 9-12. Under normal circumstances, a student is eligible for senior high school athletic competition in a sport for only four consecutive seasons, beginning with the student’s entry into the ninth grade. However, by meeting the Athletic Placement Process requirements established by NYSED, your child’s eligibility can be extended to permit:

a) participation during five consecutive seasons in the approved sport after entry into the eighth grade; or
b) participation during six consecutive seasons in the approved sport after entry into the seventh grade.

It is important for you and your child to understand that, once the requirements are met and if he/she is accepted as a member of the team, he/she cannot return to a lower-level team (modified) in that sport in that season. Remember, at the higher level of play your child will be exposed to the social atmosphere that is common among older students in a high school environment. Therefore, it is important to take into account your child’s ability to handle the additional demands.

Please feel free to contact me regarding this program or to discuss any aspect of your child’s athletic placement. If you agree to allow your child’s participation in this program, please sign and return the parental permission form to my office.

Sincerely,

Physical Education Director and/or Athletic Director
PARENT/GUARDIAN STATEMENT

I have read the attached letter and I understand the purpose and eligibility implications of the Athletic Placement Process. My son/daughter (name): ________________________________ has my permission to undergo the evaluation process and to participate in this program. I understand that the determination of physical maturity is a private examination involving inspection of breasts and genitals and will be done by a licensed school health professional, and I give my permission for the examination. Upon passing the medical clearance, he/she may proceed to the physical fitness and skill assessments. I understand that passing the evaluation process does not guarantee my child a position on a team, but only permits them to try out.

The above-named student has requested evaluation through the Athletic Placement Process. As the coach of the team for which they want to try out, your complete assessment of his/her skill level is an important factor in this process. Please complete and return this form as soon as possible to the Director of Physical Education and/or Athletic Director.

NOTE: The number of students who are allowed to compete outside of their grade levels should be few and far between. The program is intended only for the athlete who has the physical maturity, physical fitness, and sport skills to be placed with other athletes outside of his/her grade level. Abuses in the program by decision makers who seek to satisfy the needs of the team, rather than considering the well-being of the student cannot be condoned. There are many potential physical and social/emotional pitfalls that must be avoided, and once a student is elevated, the decision is irreversible. Please keep in mind that, until you are notified by the director of physical education’s office that the student has successfully completed the entire Interscholastic Athletic Placement Process, that student may not attend any practices.

If you are familiar with the candidate, please write an evaluation of his/her skill level on the back of this sheet. Supporting information would be helpful in determining proper placement, so be specific. If you are not familiar with the candidate, you may wish to contact his/her former coaches for further assessment and/or schedule time to observe the student in a physical education class.

PHYSICAL FITNESS TESTING: SCORE FORM

INSTRUCTIONS FOR THE TESTER
The student listed below has been approved to take the Physical Fitness Test. Please proceed with the testing as described in the Physical Fitness Test Descriptions & Directions in Appendix I of this document.

1. Read the instructions for administering the five items carefully. If you are the coach of the sport that the athlete wants to participate in, you may not be the tester. Notify the Director of Physical Education and/or Athletic Director that a new tester must be assigned.

2. The test can be given in any time frame and in any order. Any of the five items may be retested up to the number of times defined by your APP district policy. Only the best scores should be recorded. For Swimming see, Appendix J page 2, for an alternative portion of the fitness test. For bowling and golf, students are not required to complete a physical fitness test.

3. Encourage the student to do his/her best on each test item. Before commencing with the test, inform the student of the minimum qualification requirement for each component. They MUST score in the 85th percentile for their age.

4. Return this score sheet to the Physical Education and/or Athletic Director’s office as soon as the test is completed.

SPECIAL TRY-OUT PROCESSES

BOWLING

Any 7th or 8th grade student may be given the opportunity to try out for a junior varsity or varsity bowling team. At the completion of the try-out sessions, which must include nine games bowled over a three-day period, if the individual's bowling average puts him/her in the top eight of your bowlers, he/she is eligible for the team.

GOLF

Any 7th or 8th grade student may be given the opportunity to try out for a junior varsity or varsity golf team. At the completion of the tryout sessions, which must include 18 holes golfed over a three-day period (the first three days of the individual's tryout when the course is accessible), if the individual's golf average puts him/her in the top 8 of your golfers, he/she is eligible for the team.

ATHLETIC PLACEMENT PROCESS

PHYSICAL FITNESS TEST: INSTRUCTIONS

Curl-ups

This activity measures abdominal strength and endurance.

Curl-ups Testing

Here's what you do:

- Have the student lie on a cushioned, clean surface with knees flexed and feet about 12 inches from buttocks. A partner holds the feet.
- Make sure the arms are crossed with hands placed on opposite shoulders and elbows held close to chest.
- Keeping this arm position, the student raises the trunk, curling up to touch elbows to thighs, and then lowers the back to the floor so that the scapulas (shoulder blades) touch the floor, for one curl-up.
- To start, a timer calls out the signal “Ready? Go!” and begins timing the student for one minute. The student stops on the word “Stop.”

Curl-ups Tip

Instruct helpers to count aloud the number of repetitions.

Curl-ups Scoring

“Bouncing” off the floor is not permitted. The curl-up should be counted only if performed correctly.

Shuttle Run

This activity measures speed and agility.
Testing

Here's what you do:

- Mark two parallel lines 30 feet apart and place two blocks of wood or similar objects behind one of the lines.
- Student starts behind the opposite line. On the signal “Ready? Go!” the student runs to the blocks, picks one up, runs back to the starting line, places the block behind the line, runs back and picks up the second block, and runs back across the starting line.

Tips

Be sure the participants understand the importance of running through the finish line. Participants should perform this activity on a gym floor or other appropriate surface.

Scoring

Blocks should not be thrown across the lines. Scores are recorded to the nearest tenth of a second.

One Mile Run/Walk

This activity measures heart/lung endurance.

Testing

Here's what you do:

- On a safe, one-mile distance, students begin running on the count “Ready? Go!”
- Walking may be interspersed with running. However, the students should be encouraged to cover the distance in as short a time as possible.

Tips
Use a large enough running area so that no more than eight laps are necessary to complete a mile. Help participants learn proper pacing for the mile by having them run at the mile pace for short distances during warm-up time.

Scoring

Always review students’ health status before administering this test. Give students ample instruction on how to pace themselves. Allow them to practice running this distance against time, as well as sufficient time for warming up and cooling down before and after the test. Times are recorded in minutes and seconds.

Pull-ups

This activity measures upper body strength and endurance.

Pull-ups Testing

Here’s what you do:

- The student hangs from a horizontal bar at a height the student can hang from with arms fully extended and feet free from the floor, using either an overhand grip (palms facing away from body) or underhand grip (palms facing toward body). Small students may be lifted to the starting position.
- The student raises his/her body until chin clears the bar and then lowers his/her body to the full-hang starting position. The student performs as many correct pull-ups as possible.

Pull-ups Tips

Spend as little time hanging from the bar beforehand as possible because the extra time on the bar may reduce the number of pull-ups performed. Discourage any leg kicking or body swinging, as this may also decrease the number of repetitions.

Pull-ups Scoring
Pull-ups should be done in a smooth rather than jerky motion. Kicking or bending the legs is not permitted and the body must not swing during the movement.

**Right Angle Push-ups Testing**

Here's what you do:

- The student starts in push-up position, with hands under shoulders, arms straight, fingers pointed forward, and legs straight, parallel, and slightly apart (approximately 2-4 inches) with the toes supporting the feet.
- Keeping the back and knees straight, the student then lowers the body until there is a 90-degree angle formed at the elbows, with upper arms parallel to the floor. A partner holds her/his hands at the point of the 90-degree angle so that the student being tested goes down only until her/his shoulders touch the partner’s hand, then back up.
- The push-ups are done to a metronome (or audio tape, clapping, drums) with one complete push-up every three seconds, and are continued until the student can do no more at the required pace. The student should remain in motion during the entire three second interval.

**Right Angle Push-ups Tip**

As with the pull-up, spend as little time in the starting position beforehand in order to increase the number of repetitions. Any extra movement may also decrease the number of repetitions.

**Right Angle Push-ups Scoring**

Record only those push-ups done with proper form and in rhythm.

**Right Angle Push-ups Rationale**

Right angle push-ups are a good indicator of the range of strength/endurance found in kids, whereas some kids are unable to do any pull-ups. Pull-ups remain an option for those students at higher levels of strength/endurance.

**V-sit Reach**
This activity measures flexibility of the lower back and hamstrings.

V-sit Reach Testing

Here's what you do:

- A straight line two feet long is marked on the floor as the baseline.
- A measuring line four feet long is drawn perpendicular to the midpoint of the baseline, extending two feet on each side and marked off in half-inches. The point where the baseline and measuring line intersect is the “0” point.
- Student removes his/her shoes and sits on floor with measuring line between his/her legs and the soles of his/her feet placed directly behind the baseline, with the heels 8-12 inches apart.
- With hands on top of each other, palms down, the student places them on measuring line.
- With the legs held flat by a partner, the student slowly reaches forward as far as possible, keeping fingers on the measuring line and feet flexed.
- After three practice tries, the student holds the fourth reach for three seconds while that distance is recorded.

V-sit Reach Tip

Participants are most flexible after a warm-up run. Best results may occur immediately after performing the endurance run.

V-sit Reach Rules

Legs must remain straight with soles of feet held perpendicular to the floor (feet flexed). Students should be encouraged to reach slowly rather than “bounce” while stretching. Scores, recorded to the nearest half inch, are read as plus scores for reaches beyond baseline, minus scores for reaches behind baseline.

Sit and Reach Testing

Here's what you do:
• You’ll need a **specially constructed box** with a measuring scale marked in centimeters, with 23 centimeters at the level of the feet.

• The student removes shoes and sits on floor with knees fully extended, feet shoulder-width apart and soles of the feet held flat against the end of the box.

• With hands on top of each other, palms down, and legs held flat, student reaches along the measuring line as far as possible. After three practice reaches, the fourth reach is held while the distance is recorded.

**Sit and Reach Tip**

Participants are most flexible after a warm-up run. Best results may occur immediately after performing the endurance run.

**Sit and Reach Rules**

Legs must remain straight, soles of feet against box, and fingertips of both hands should reach evenly along the measuring line. Scores are recorded to the nearest centimeter.

REGULATIONS OF THE COMMISSIONER OF EDUCATION
ON
MIXED COMPETITION

SECTION 135.4(C) (7)(II)(C)

(c) Male and female pupils on interschool athletic teams.

(1) Equal opportunity to participate in interschool competition, either on separate
teams or in mixed competition on the same team, shall be provided to male and
female students, except as hereinafter provided. In schools that do not provide
separate competition for male and female students in a specific sport, no student
shall be excluded from such competition solely by reason of sex except in
accordance with the provisions of sub clauses (2) and (4) of this clause. For the
purpose of this clause, baseball and softball shall be considered to constitute a single
sport.

(2) In the sports of baseball, basketball, boxing, field hockey, football, ice hockey,
lacrosse, rugby, soccer, softball, speedball, team handball, power volleyball where
the height of the net is set at less than eight feet, and wrestling, the fitness of given
student to participate in mixed competition shall be determined by a review panel
consisting of the school physician, a physical education teacher designated by the
principal of the school, and if requested by the parents of the pupil, a physician
selected by such parents. Such panel shall make its determination by majority vote of
the members, and in accordance with standards and criteria issued by the
department.

(3) Where a school provides separate competition for male and female pupils in
interschool athletic competition in a specific sport, the superintendent of schools, or
in the case of a nonpublic school or school system which elects to be governed by
this clause, the chief executive officer of the school or school system, may permit a
female or females to participate on a team organized for males. However, where
separate competition is provided, males may not participate on teams organized for
females.

(4) Where a school does not provide separate competition for male and female pupils in
interschool athletic competition in a specific sport, the superintendent of school, or
in the case of a nonpublic school or school system which elects to be governed by
this clause, the chief executive officer of the school or school system, or the section
may decline to permit a male or males to participate on a team organized or females
upon a finding that such participation would have a significant adverse effect upon
the opportunity of females to participate successfully in interschool competition in
that sport.
GUIDELINES FOR MIXED COMPETITION
ON
INTERSCHOLASTIC ATHLETIC TEAMS

These guidelines are issued to assist schools in the implementation of Section 135.4(c)(7)(ii)(c) of the Regulations of the Commissioner of Education which govern interscholastic competition involving members of both sexes on a single school team. The following general information should be noted by the school personnel who are responsible for the implementation of the Regulations:

- The **purpose of the regulation** is to preserve the health and safety of students while assuring that students of both sexes have opportunity to participate successfully in interschool competition. Athletic opportunity in mixed competition is allowed under the conditions set forth in the regulations for specific sports identified in subclause (2) of section 135.4(c)(7)(ii)(c), as well as all other sports not so identified.

- The regulation provides for students involved in mixed competition to be placed on teams at appropriate levels of competition based upon the individual's medical history, maturity, physical data, fitness scores and skills. The guidelines are to be used for both junior high school and senior high school programs.

- If a **team is organized primarily for one sex** and members of the opposite sex are also members, the team should continue to be classified as either a male or female.

- If a team was formed **originally for one sex** but is composed of a significant number of pupils of the opposite sex, it is recommended that separate teams be formed for that sport. This would allow for the greatest number of students to participate and not limit opportunities for or have a disproportionate effect on any one sex.

- When there are **separate teams for each sex** in a specific sport, a male may not try out for a females' team. However, the superintendent of schools may permit a female to try out for a male team, except that competition in the sports identified in subclause (2) of the regulation is subject to the review and approval of a panel. Where separate teams are provided, a female who wishes to try out for a male team in these sports must have the approval of the superintendent and the review panel. This type of crossover should be based upon that female’s athletic ability to compete successfully.

- The sport of boxing is identified in the regulation because it appears in the Title IX Federal Regulations. It is not an indication that the State Education Department considers boxing a desirable sport for secondary students.

- Mixed competition in a sport identified in subclause (2) is subject to **review and approval by a panel**. This panel must include the school physician and a physical education teacher appointed by the principal and may include a
physician chosen by the student’s parent(s). This panel is responsible for determining the readiness of the student in terms of medical health, maturity, fitness and skill of the individual in relationship to other members of the team. The intent of the regulation is to match the student’s readiness with an appropriate placement, as well as to provide the pupil with a successful competitive opportunity. When the physical abilities of the individual are deemed by the panel to be short of or exceed the physical abilities of other team members, thereby creating a hazardous condition or unfair advantage for that student or other members of the team, denial of participation would be appropriate.

- These procedures apply only to a student’s eligibility to try out for a team of the opposite sex. The coach must decide if the pupil is to remain on the team or be dropped from the team in the same manner as all other pupils trying out for the team. If a coach has a “no cut” policy, the student of the opposite sex must be allowed to remain on the team the same as other students.

The following chart indicates which regulatory provisions apply to specific sport and program offerings:

**This order of approvals is recommended so as to avoid the unnecessary formation of a review panel in cases where the superintendent or chief school officer does not wish to approve the student for mixed competition.
REVIEW PANEL PROCEDURES

Upon a request to the school authorities for a pupil to participate in mixed competition, as provided in the Regulations of the Commissioner of Education, a review panel shall be formed. The Director of Physical Education should coordinate the activities of the review panel. The information reported on the form, **ATHLETIC PROFILE FOR MIXED COMPETITION**, shall be used by the review panel in making a determination.

COMPLETING THE ATHLETIC PROFILE

Part I: School Information

- Fill in the information as indicated.

Review Panel

- A **school physician** and a **physical education teacher** (designated by the principal) shall serve on the review panel as school representatives. The parent(s) of the pupil shall also be given the option of having a **physician of choice** serve on the panel. If parent(s) elect not to have a physician on the panel and a disagreement on the determination of participation by the pupil develops, the parents should be so advised. If the parents still opt not to select a physician for the panel, it is recommended that the school principal appoint another physician so there are two physicians and a physical education teacher on the panel as intended by the regulation.

- The review panel should convene as soon as feasible in order to give the pupil a reasonable opportunity for an early try out for the team, if approved to do so.

Part II: Pupil Information

- The Director of Physical Education should be responsible for providing the panel with all available information.

Part III: Physical Education and Medical History

- The information on the physical education history of the pupil should be obtained from the physical education teachers who have had the pupil in classes.

- The school nurse should provide the information on the medical history of the pupil by reference to the available health records.
Part IV: Physical Data

- The school physician shall provide the information obtained as part of the normal health examination for participation in athletics.

- The developmental age or maturity level of the pupil can be established by using the Developmental Screening Procedures used in the Athletic Placement Process for Interscholastic programs (APP) (See February 2015 APP: http://www.p12.nysed.gov/ciai/pe/documents/AthleticPlacementProcess2-11-15Revised.pdf). Note: For modified students, please see Appendix B in the Mixed Competition Guidelines for recommended Tanner scores.

- A determination of general body type should be made by the physician during the health examination. Comments on joint structure would also be helpful.

- If the school physician determines during the health examination the pupil has a physical impairment which would make it unsafe for the pupil to participate in the sport, the review panel need not convene.

Part V: Athletic Performance Testing (Fitness)

- The Fitness Test scores used are taken from the President’s Council Fitness test benchmarks at the 50th percentile for the National Physical Fitness Award Qualifying Standards. See: https://www.presidentschallenge.org/challenge/physical/benchmarks.shtml This test should be used as a means of assessing the student’s fitness level.
  ➢ See: Appendix A in the Mixed Competition Guidelines.

- Scores achieved on this test shall be recorded on the profile form where indicated. The test should be administered by a physical education teacher.

- When reviewing the test scores, the panel needs to be made aware that the relative importance of the test item to the demands of the sport.

- When reviewing the test scores, the panel should refer to the standards related to the sex of the team and the level of play at which the pupil wishes to play.

- *Please note that the President’s Council Fitness Test scores are not intended as qualifying or disqualifying scores for mixed competition. The scores that appear in the chart are not absolute requirements for the panel to consider. The scores only provide a reference as to what could normally be found among the members of the team for that sex at that level of play. If the scores of the*
pupil differ from the standards, the panel should assess the significance of that difference for the pupil being considered. The panel should also consider the strengths and abilities of the team in question.
Part VI: Panel Decision

- Once the panel has reached a decision, the pupil and his/her parents shall be so advised.

- A “YES” decision means the pupil may try out for the team. The coach will then apply the same try-out criteria used for all other pupils trying out for the team and determine whether or not the pupil may remain on the team.

- The panel decision applies only to the sport and season for which the application was made. Subsequent seasons or sports will require another review. Therefore, all students that have been previously approved to participate in a mixed competition situation must be re-approved each season for each sport in which he/she wishes to participate.

a. When schools schedule interscholastic contests with schools in other states, each school will observe its own state regulations and standards of eligibility.

b. No member school will engage in athletic competition, scrimmage and/or practice with an out-of-state school which is not a member in good standing of its respective state high school athletic association or has not been approved by the respective state association if the school is ineligible to join. Furthermore, member schools will not compete in any interstate contest which is sponsored solely by an outside agency. For dual contests it is the school's responsibility to determine that these criteria are satisfied.

c. A member school wishing to host a contest involving an out-of-state school must file an application for Sanction for any contest involving four or more schools, or any contest involving three or more states. Timeline, application fee and application form information is available on the NYSPHSAA website, www.nysphsaa.org.

d. A member school planning to participate in an interstate contest involving four or more schools, or any interstate contest which is co-sponsored by an organization other than a member high school, must give notice of entry to the NYSPHSAA, Inc., office so that the school may receive verification that the contest has been sanctioned. NOTE: Failure to comply with the above regulation may cause a team or individuals to be ineligible from that date of participation for the remainder of that sport season.

NOTE: NYSPHSAA will approve events that have non-member schools participating provided there can be no direct competition with a non-member school.
14. MIDDLE OR JUNIOR HIGH SCHOOL: Member schools with students in grades 7, 8, or 9 have agreed to abide by the rules of our Modified Programs. Situations not covered in the Modified Rules will follow the high school standards.

15. MIXED COMPETITION: Regulation of the Commissioner of Education. Male and female pupils on interschool athletic teams. See Commissioner Regulation.
   a. Equal opportunity to participate in interschool competition either on separate teams or in mixed competition on the same team shall be provided to male and female students, except as hereinafter provided. In schools that do not provide separate competition for male and female students in a specific sport, no student shall be excluded from such competition solely by reason of sex except in accordance with the provision of sub clauses (b) and (d) of this clause. For the purpose of this clause, baseball and softball shall be considered to constitute a single sport.
   b. In the sports of baseball, basketball, boxing, field hockey, football, ice hockey, lacrosse, rugby, soccer, softball, speedball, team handball, power volleyball where the height of the net is set at less than eight feet, and wrestling, the fitness of a given student to participate in mixed competition shall be determined by a review panel consisting of the school physician, a physical education teacher designated by the principal of the school and if requested by the parents of the pupil, a physician selected by such parents. Such panel shall make its determination by majority vote of the members, and in accordance with standards and criteria issued by the department.
   c. Where a school provides separate competition for male and female pupils in interschool athletic competition in a specific sport, the superintendent of schools, or in the case of a nonpublic school or school system which elects to be governed by this clause, the chief executive officer of the school or school system, may permit a female or females to participate on a team organized for males. However, where separate competition is provided, males may not participate on teams organized for females. NYSPHSAA NOTE: This clause is to meet the needs of the exceptionally talented girl.
   d. Where a school does not provide separate competition for male and female pupils in interschool athletic competition in a specific sport, the superintendent of schools, or in the case of a nonpublic school or school system which elects to be governed by this clause, the chief executive officer of the school or school system, or the section may decline to permit a male or males to participate on a team organized for females upon a finding that such participation would have a significant adverse effect upon the opportunity of females to participate successfully in interschool competition in that sport.
   The NYSPHSAA requires that the names of girls and boys who participate on a team of the opposite sex be submitted to the league and section before any interschool contest in that sport. Teams with multiple representations of boys and girls must be declared either a girls or a boys’ team by their schools, prior to the first competition.
   NOTE: Teams organized for one sex may only practice and compete against teams of that same sex. Furthermore, once an individual competes on a team for one sex during a season, he/she may not compete for or against a team organized for the other sex during that season. (Representation #25)

16. NATIONAL TEAM/OLYMPIC DEVELOPMENT PROGRAMS: A student may participate as an individual as a member of a National Team or in an Olympic Development Program during the school year. To participate in NYSPHSAA programs in that sport, individuals must meet the sports’ standards.
17. NON-FEDERATION MEMBER SCHOOLS: No scrimmage or game shall be played with other than public and those private and parochial schools that belong to the New York State Federation of Secondary School Athletic Associations. Verification of membership may be secured from the NYSPHSAA website (www.nysphsaa.org).

All other schools which are registered with the State Education Department shall apply for Friends and Neighbors status to be eligible to compete with NYSPHSAA, Inc., member schools. Applications must be processed through the Sectional Athletic Council in which the school is located. The application shall contain the agreement to abide by the NYSPHSAA, Inc., rules and will be signed by the applicant. The application, with an administrative fee of two hundred dollars, shall be forwarded by the Section Secretary to the Executive Director of the State Association with recommendations and substantiating statements for or against approval. The State Executive Committee shall make the final determination. Approval shall only be for a period of two years at which time schools may reapply for Friends and Neighbors status.

NOTE: 1) Friends and Neighbors schools may compete against NYSPHSAA, Inc., member schools only through the league level of play. 2) Friends and Neighbors schools are eligible to compete with NYSPHSAA, Inc., member schools in all Sections excluding post-scheduled contests. 3) The two hundred dollar fee is payable every year.

18. OUTSIDE AGENCIES: Cooperation is permitted with any organization, college, or university, which may offer encouragement and/or the use of facilities for competition. An application form must be submitted to the Section Athletic Council prior to the planning of a contest. Approval may be given if these conditions are satisfied:

1. A school, league, Section or the Association must cosponsor the activity.
2. Secondary school personnel shall be responsible for planning and for conducting the activity.
3. The contest shall be developed with due regard for health and safety standards as set forth by the Commissioner’s Regulations and policies and standards of the NYSPHSAA, Inc.
4. Insurance shall be provided which will protect the participants in case of injury and the organization or institution against liability.
5. The philosophy and standards which are to be followed shall be consistent with those listed in the NYSPHSAA, Inc., HANDBOOK.
6. Financial arrangements are to be clearly specified in the application for approval.

19. PENALTIES:

a. If a school uses an ineligible student in any interscholastic contest, such contest shall be forfeited to the opposing schools. In individual sports, the use of an ineligible player would result in the contest being forfeited, however, the performances and outcomes of the other individuals would stand.

b. Procedures to address forfeitures during post schedule tournaments shall be as follows:

1. Team Sports: Participation by an ineligible player or team in any post schedule tournament game (sectional, intersectional, regional, semifinal or final) shall result in forfeiture of that game. At the time of discovery the school declared ineligible will be disqualified from the tournament immediately and their last opponent will advance in their place. Schools eliminated prior to the last opponent will not reenter tournament competition.
2. Individual Sports: Participation by an ineligible contestant in any post schedule
tournament competition (sectional, intersectional or state championship)
shall result in the forfeiture of that competition. The contestant will be
disqualified from the tournament immediately and his/her last opponent will
advance in their place. Individuals eliminated prior to the last opponent will not
reenter the tournament competition.
c. If an individual or team exceeds the maximum number of contests permitted, the
penalty is team ineligibility from the date of violation for the rest of the season. In the
sports of wrestling, cross country, indoor track and outdoor track, swimming
and diving when an individual exceeds the maximum number of contests, only the
individual would no longer be eligible for that season. When an athlete exceeds the
maximum number of contests the level in which the student-athlete participated as an
ineligible competitor will be affected.
d. For any violation of eligibility or sports standards a school authority may be censured,
placed on probation, or suspended by the Section Athletic Council.
e. Consistent with good ethical standards the prompt reporting of the knowledge of an
infraction shall be made to the proper authorities in writing.
f. School Districts may appeal to the Section to gain relief from the prescribed penalty if the
violation of eligibility standards resulted from circumstances out of the District’s control.
g. If a coach/supervisor violated the NYSPHSAA Code of Conduct the following actions will
be taken:
   1. The school and Section will be notified immediately.
   2. Documentation of the incident will occur.
   3. A recommendation from the Section for disciplinary action will be given.

If a student or team is ineligible according to NYSPHSAA, Inc., Bylaws and Eligibility
Standards or Commissioner’s Regulations but is permitted to participate in interschool
competition contrary to such rules but in accordance with the terms of a court
restraining order or injunction against his/her school and/or the NYSPHSAA Inc., and
side injunction is subsequently voluntarily vacated, stayed, reversed, or finally
determined by the courts that injunction relief is not or was not justified, any one or
more of the following actions may be taken against such school in the interest of
restitution and fairness to competing schools.
   1. Require that individual or team records and performances achieved during
      participation by such ineligible student shall be vacated or stricken.
   2. Require that team victories shall be forfeited to opponent.
   3. Require that team or individual awards earned by such ineligible student be
      returned to the Association.

20. POST-SCHEDULE: No team or individual student may represent its school in any post-
schedule contest other than those conducted by school or State Association authorities in
accordance with approved standards. NOTE: If contests are within the season established
by the Section, within the maximum number allowed and conducted by school authorities, they
are allowed.

21. POST SEASON: No team, or individual student, may represent its school in any post-season
games, meets, or tournaments.
22. PRACTICE SESSIONS: Athletes must meet all Standards of Eligibility to participate in practice.

a. An organized practice in grades 7-12 is a session for the purpose of providing instruction and practice in physical conditioning activities, skills, team play, and game strategy designed expressly for that sport under the supervision of a qualified coach appointed by the Board of Education of the local school district. Such instruction and practice shall be held only during the season designated for that sport. Athletes who switch from a contact/collision or limited contact/impact sport to a strenuous/non-contact or non-strenuous/non-contact sport are permitted to count conditioning practices toward their new sport as follows:

1. Sports with less than ten (10) practices for the individual before the first contest will be allowed to carry over three (3) days.
2. Sports with ten to fifteen (10-15) practices for the individual before the first contest will be allowed to carry over four (4) days. (Contact/collision or limited contact/impact sports include field hockey, football, ice hockey, lacrosse, soccer, wrestling, basketball, baseball, softball, diving, gymnastics, skiing, and volleyball. Strenuous/non-contact or non-strenuous/non-contact sports include cross country, track and field, swimming, tennis, bowling, golf and riflery.)

NOTE: Athletes whose seasons are lengthened due to participation in NYSPIHSAA Regional and Championship contests are allowed to count conditioning practices towards their new sports as follows: 1) sports with less than ten (10) practices for the individual before the first contest will be allowed to carry over three (3) days; 2) sports with ten to fifteen (10-15) practices for the individual before the first contest will be allowed to carry over four (4) days.

b. No student or team may be permitted to participate in school organized practice or play on seven consecutive days during the regular season. Specifically, during the regular season, physical and/or instructional activities related to the sport on seven consecutive days are prohibited. NOTE: Any contests leading up to Sectional play is considered regular season." Only one practice session a day and only six days of a calendar week may be counted toward the total practice sessions required. A practice session conducted on the same day as a game cannot be counted to meet the minimum practice requirement to be eligible for that day's contest. All required practice sessions shall be organized and planned for a reasonable length of time and shall include vigorous activity specific to the sport for the purpose of improving the physical condition of the players. Each of the required number of practices for an individual must include vigorous activity; however, practice sessions required for the team beyond those needed by the individual may be used solely for meetings, film review and similar activities. NOTE: Practice is considered an integral part of the interschool program in that sport. An individual must be eligible according to age and all other Eligibility Standards to participate in practices or competitions with the high school squad in that sport.

c. School sponsored activities conducted out of the sport season such as general conditioning, weight training, weight lifting, intramurals, recreation, open gyms, club activities and camps are permitted: 1) if such programs are not mandated by coaches or school personnel; 2) if such programs are available to all students.

d. Non-school sponsored activities are permitted if such programs are not mandated by coaches or school personnel. It is recommended that no school equipment be used for these programs as per State Comptroller Opinion 85-37.

e. Upon returning from military training, student-athletes shall be eligible for participation in interscholastic athletics once they have completed the required number of practices. Eligibility for participation will also include meeting all eligibility requirements imposed
By the Commissioner of Education and NYSPHSAA such as, but not limited to, health examination, age, grade, etc.

f. Schools that have made arrangements with another member school to share the use of a practice facility may do so without violating the Scrimmage Regulation as long as the athletes/teams do not scrimmages before the required number of practices has been completed.

23. PROFESSIONAL TRYOUTS: No tryouts for, or practice, with a specific professional team and their affiliates, are approved except during the summer vacation. A student who participates in such a tryout is ineligible to represent the school in that sport. (See Amateur Rule.) A school may apply on behalf of the student to their section for reinstatement one year from the date of the latest violation.

24. RECRUITMENT AND UNDUE INFLUENCE: Recruiting and Undue Influence is defined as the use of influence by any person connected directly or indirectly with a NYSPHSAA school to induce a student to transfer from one school to another, or to enter the ninth grade at a member school for athletic purposes - whether or not the school presently attended by the student is a member of NYSPHSAA.

   a. The use of undue influence to secure a student for competitive purposes in a sport is prohibited. An infraction shall cause the student to forfeit eligibility in that sport for one year from the date of enrollment. The offending school shall be subject to provisions of Bylaw #19 (D).

   b. Evidence of undue influence includes, but is not limited to, personal contact by coaches and sponsors in an attempt to persuade transfer, gifts of money, jobs, supplies, clothing, free transportation, admission to contests, invitation to attend practices and/or games, or free and/or reduced tuition.

25. REPRESENTATION:

   a. A contestant or athletic team shall not represent a school except in conformance with all rules and regulations. It shall be the duty of trustees and boards of education to require that athletic activities be limited to competition between secondary school students.

   To be eligible for sectional, intersectional or state competition, a team must have competed in six (6) school scheduled contests which occurred on six (6) different dates during the season.

   Team Sports: For the sports of baseball, basketball, field hockey, ice hockey, lacrosse, soccer, softball and volleyball an individual is eligible for the team if he/she has been an eligible participant on a team in that sport in that school for a minimum of six (6) scheduled contests during the regular season. For football, a student must be an eligible participant for a minimum of three (3) contests. For Competitive Cheerleading, a student must be an eligible participant for a minimum of two (2) competitions.

   Team/Individual and Individual Sports: For the sports of archery, badminton, bowling, cross country, fencing, golf, gymnastics, rifle, skiing, swimming, tennis, outdoor track, winter track and wrestling an individual must also have represented their school in six (6) scheduled contests during the season to be eligible. These required contests must occur on six (6) different dates and must be conducted prior to the conclusion of the team's regular schedule.

   Section Athletic Councils may request in writing approval of the State Executive Committee to adjust the number of school scheduled contests required on an annual basis.
The request is to be submitted prior to the governing board meeting. School districts may submit a written request to the Section for adjustment of contests for individual participant based on medical documentation that confirms the individual was not able to participate in the required number of contests. NOTE: For the sports of golf and girls gymnastics, a waiver of the Representation Standard may be granted by the NYSPHSAA Executive Director when a student has qualified for participation in the current school year’s NYSPHSAA Championship event and has subsequently transferred to a NYSPHSAA member school. The athlete must meet all other eligibility standards, including transfer, to receive the waiver.

b. All games, meets, and tournaments must be conducted by appropriate secondary school authority.

c. Participation by a student in more than one sport in the same time division shall be determined by the Section Athletic Council.

d. Games and practice between students and adults (alumni or faculty) are not approved.

e. To avoid unfair advantage a student who elects to participate in an interschool sport may not represent a school in that sport in a subsequent season in that school year.

26. SENIOR ALL-STAR CONTEST: A senior all-star contest shall be any athletic contest for which admission is charged or donations accepted in which one or more of the competing teams is composed of one or more players who during the school year was a member of the high school team in the same sport, and whose participation in the senior all-star contest is based on outstanding performance as a member of the high school team.

a. The only senior all-star contests approved by the NYSPHSAA, Inc., are those approved by a section. These contests must be approved first by the Section in which the contest is to be held, by the NYSPHSAA, Inc. Executive Director, and reported to the Executive Committee.

b. Only seniors who have completed their secondary school eligibility in that sport may compete in these contests. Special circumstances may be appealed to the Section Executive Director.

c. A contestant may participate in any approved senior all-star contest in the same sport during the school year.

d. All approved senior all-star athlete contests must be conducted within the approved sport season.

e. All application criteria established for the Senior All-Star Contest must be followed. The criteria and contest application shall be obtained from the Section Secretary or Association office.

27. SPORTSMANSHIP: The Association recognizes and appreciates that the influence and responsibility of the school administration with regard to good sportsmanship extends to all levels of competition. However, it must also be seen that the NYSPHSAA has been vested with the responsibility to ensure that all contests under its jurisdiction are conducted satisfactorily. This standard applies to all regular season and post-schedule play.

As of July 1, 2013, the Dignity for All Students Act (Dignity Act-Section 52.2, Part 80 and 57-4) is to provide all public school students with an environment free from harassment, bullying (including cyber bullying) and discrimination, as well as to foster civility in public schools. The Dignity Act focuses on the prevention of discrimination behaviors, including harassment/bullying through the promotion of educational measures meant to positively impact school culture and climate, which includes the interscholastic programs.
a. **Coach**

1. Any coach excluded by a certified official from an interschool competition for unsportsmanlike conduct, including taunting, is ineligible to coach any interschool competition in that sport until after the next previously scheduled contest at the same level (e.g. junior varsity, varsity, etc.) has been completed. In individual sports a multi-day contest is considered to be a contest. Disqualification from one season carries over to the next season of participation. The coach may not be present at the game site nor communicate in any manner during the contest with any person present at the site.

**NOTE:** "Not being physically present at the site" means a disqualified coach is not to be present in the locker room, on the sidelines, in the stands or site area before, during or after the game/meet. (See definitions section of the handbook)

Any coach that does not serve the penalty for violating the Sportsmanship Standard will be ineligible to participate in the next two regularly scheduled contests. If the coach continues to not serve the penalty, the matter will be referred to the Section for further action. If the coach is involved in the NYSPHSAA play-offs, the matter will be referred to the Executive Director of the NYSPHSAA.

Any coach:

1. Who receives a disqualification penalty in a sport shall not participate in the next regularly scheduled contest;
2. Who receives a second disqualification penalty in the same sport in the same season shall not participate in the next two regularly scheduled contests; and
3. Who receives a third disqualification penalty in the same sport in the same season will not be allowed to participate for the rest of the season (regular season or post schedule play), the Section Athletic Council will assess the penalty carrying over into the next season of participation.

4. The Section Athletic Council will have the authority to extend the period of ineligibility in those cases where the actions of the individual that was disqualified from a contest or scrimmage are warranted. The period of ineligibility cannot exceed one year from the date of the disqualification.

2. A coach who strikes, shoves, kick or makes other physical contact with the intent to annoy, harass or intimidate another person (e.g. official, another coach, player, fan) shall be expelled immediately and banned from further participation or coaching in all sports for a period of time to be determined by the section not to exceed one year from the date of the offense.

b. **Player**

1. Any member of a squad disqualified by a sport official for unsportsmanlike conduct, including taunting or for a flagrant foul shall not participate in that sport in the next previously scheduled contest with a member school or in NYSPHSAA tournament play. In individual sports a multi-day contest is considered to be a contest. The contest in which the athlete was disqualified must count in the total maximum number of contests permitted. Disqualifications from one season carry over to the next season of participation. (See definitions section in the handbook)

Any Player:

1. Who receives a disqualification penalty in a sport shall not participate in the next regularly scheduled contest;
2. Who receives a second disqualification penalty in the same sport in the same season shall not participate in the next two regularly scheduled contests; and

4. The Section Athletic Council will have the authority to extend the period of ineligibility in those cases where the actions of the individual that was disqualified from a contest or scrimmage are warranted. The period of ineligibility cannot exceed one year from the date of the disqualification.
2. Any member of the squad who strikes, shoves, kicks or makes other physical contact with the intent to annoy, harass or intimidate an official shall be expelled from the game immediately and banned from further participation in all sports for a period of time to be determined by the section not to exceed one year from the date of the offense. NOTE: Members of the squad includes player, manager, scorekeepers, timers, and statisticians.

c. Official:
1. Unprofessional conduct on the part of the official such as, but not limited to, taunting, baiting, use of profanity, shall be reported by a school administrator from the aggrieved school to the Section Executive Director. A request will be made to the appropriate sport official's chapter to investigate the incidence and to report their action to the section in a timely manner.

28. SPORTS SEASONS: Section Athletic Councils, with the approval of the NYSPHSAA, Inc. Executive Committee, shall determine all sports seasons within the limits of the Commissioner's Regulations. NOTE: If a team competes in the same season in which a state championship (regional competition and beyond) is conducted as designated by the NYSPHSAA, Inc. Executive Committee, then the team and its players are ineligible to compete in any other season in that sport in that school year.

29. STATE CHAMPIONSHIP CONTESTS:

All participating teams and athletes must be approved by their section to be eligible to compete in NYSPHSAA Regional and State Championships. NOTE: Any student-athlete who has tested positive for the use of anabolic/androgenic steroids within the preceding six (6) months of a regional or state championship event may be required by the NYSPHSAA Executive Director to provide evidence of a negative test result for anabolic/androgenic steroids prior to participating in the event involved.
   b. Plans for all state championship contests are to be submitted for approval to the NYSPHSAA, Inc. Executive Committee (Constitution, Article V, (5)).
   c. Policies or procedures for state championship contests shall be determined by the NYSPHSAA, Inc. Executive Committee or Central Committee upon the recommendation of the State Championship Committee. Any awards or items presented to participants not provided by the Association, must receive prior approval. NOTE: No NYSPHSAA student athlete will be allowed to participate in any post schedule contests (regional, state, Federation) without completed Code of Conduct document.
   d. No raffles (50/50), and other games of chance, will be permitted at any post sectional competition sponsored by the NYSPHSAA. Promotional activities may be permitted with the approval of the NYSPHSAA Executive Director.
   e. If a physician is assigned and/or designated by the New York State Public High School Athletic Association or any of its subdivisions for post-schedule competition, that physician shall have the final decision-making authority concerning the entry/reentry of an athlete to competition at the particular contest; however a participating school may use its own physician for final decision-making if it provides a statement by the chief school officer stating the school agrees to indemnify and hold harmless the NYSPHSAA or any of its subdivisions from any claims or lawsuits brought against the NYSPHSAA or any of its subdivisions based on the decision made or advice given by the school district provided physician.
   f. Each section shall determine and be responsible for the selection, methods of financing, travel, and supervision of its contestants in a state championship contest.
   g. The State Sports Committee Coordinator shall submit complete plans and budget to the State Championship Committee. Financial reports, results, and requests for changes and improvements shall be submitted within 60 days after the event.
The State Sports Coordinators shall be responsible for:

3. Reporting the results of each contest and submitting a financial report to the NYSPHSAA, Inc. Executive Director, prior to the next meeting of the Executive Committee.

h. Dual Seasons: Approved state championship contests are to be held before the end of the season established for that sport. Only those sections conducting the specific sport during the season of, or prior to, the state championship are eligible to send representatives. A Section Athletic Council which votes to conduct a sport in a season other than that specified for the state championship may conduct a qualifying tournament for state championship competition in a subsequent season shall be limited to those individuals who qualified during the selected season of competition and the number of organized practice sessions shall be no more than or less than the number required before a first contest in that sport.

30. TRANSFER: (Foreign Exchange/International # 9)

NOTE: The Transfer Rule will be enforced as written with no variations permitted.

a. A student in grades 9-12 who transfers, with a corresponding change in residence of his/her parents (or other persons with whom the student has resided for at least six months) shall become eligible after starting regular attendance in the second school. A residence change must involve a move from one school district to another. Furthermore, when a student moves from public school district to another public school district for athletic eligibility the student must enroll in the public school district or in a private school within that district’s boundaries of his/her parent’s residency. For athletic eligibility, a residency is changed when one is abandoned by the immediate family and another residency is established through action and intent. Residency requires one’s physical presence as an inhabitant and the intent to remain indefinitely. The Superintendent, or designee, will determine if the student has met district residency requirements.

b. A student who transfers without a corresponding change in residence of his/her parents (or other persons with whom the student has resided for at least six months prior) is ineligible to participate in any interscholastic athletic contest in a particular sport for a period of one (1) year if as a 9-12 student participated in that sport during the one (1) year period immediately preceding his/her transfer. Students who transfer from any school to the public school district of the residence of his/her parents (or other persons whom the student has resided for at least six months) or a private school within that district’s boundaries shall receive a waiver from the Transfer Rule. Such a transfer without penalty will only be permitted once in a high school career.

Schools must submit the required transfer form to the Section office. Athletes are not permitted to practice before the form has been submitted. Athletes are not permitted to compete without approval. NOTE: A student in a foreign exchange program listed by CSJET has a one-year waiver of the Transfer Rule. If such a student elects to stay a second year he/she becomes a foreign student at the start of the school year with item (b) in effect.

Exemptions to (b): For athletic eligibility a student must enroll in the public school district or in a nonpublic school within that district’s boundaries of his/her parent’s residency.

Note: Multiple High School Districts - The policies/boundaries of the school district will be followed. If the district has an open enrollment policy, the interpretation to be used
Will be the same as used for students of K-8 school districts. When a student enrolls in 9th grade, that is the district (building) of their residence. Any subsequent transfer would be subject to the Transfer Rule.

1. The student reaches the age of majority and established residency in a district and can substantiate that they are independent and self-supporting.
2. If a private or parochial school ceases to operate a student may transfer to another private or parochial school of his/her choice. Otherwise, a student must enroll in the public school district of his/her parents’ residency.
3. A student who is a ward of the court or state and is placed in a district by court order. Guardianship does not fulfill this requirement.
4. A student from divorced or “legally” separated parents who moves into a new school district with one of the aforementioned parents. Such a transfer is allowed once every six months. The legal separation agreement must address custody, child support, spouses support and distribution of assets and be filed with the County Clerk or issued by a Judge.
5. A student who is declared homeless by the superintendent pursuant to Commissioner’s Regulation 100.2.
6. A student of a military employee who is transferred to an active military base may enroll in the non-public school closest to their residence and maintain eligibility if the student enrolls in a non-public school immediately following the change in residence.

**NOTE:** It is provided, however, that each school shall have the opportunity to petition the section involved to approve transfer without penalty based on an undue hardship for the student. Educational Waivers will not be considered as an undue hardship effective for the 2015-2016 schoolyears.

c. Transfer students trying out for sports before school opens in the fall shall register and be accepted by the principal of that school before the medical examination and the first practice. This shall constitute the start of the regular attendance for falls sports.

**NOTE:** After approval by the school medical officer a student may practice immediately and must satisfy the specific sports standard according to the number of practice sessions.

d. Practices at the previous school may be counted toward the minimum number of practices required provided the principal or athletic director of the previous school submits, in writing, the number and dates of such practices to the principal or athletic director of the new school.

e. 7th and 8th graders that compete at the HS level will be subject to the transfer rule, effective with the 2017-2018 school year.

31. **Proxies:** In addition to the individuals designed to act as proxies in Article III Section (1)(g) and Article V Section (1) of the NYSPHSAA Constitution a member who is not able to attend a Central or Executive Committee meeting may designate the Section Executive Director of that Section to act as a proxy.
Transfer Appeal Guidelines:

**Financial** – Appeals require documented proof of a significant loss of income or a significant increase in expenses.

- Written description outlining the circumstances that led to the financial hardship
- Appropriate documentation may include:
  - Evidence of loss income or change in financial obligation that are not self-imposed.
  - Family W2 forms – pay stubs
  - Notarized statement from parent
  - Statement from employer or professional with knowledge of circumstances
  - Most recent tax returns – two years

**Health and Safety** – Appeals are considered for safety, mental health, personal relationships and other similar circumstances.

- Written documentation is required from Superintendent of Schools or HS Principal of the sending school indicating the specific circumstances which necessitated the transfer.
- Supporting documentation from a third party outside of the school may be submitted (ex. police report)
New York State Public High School Athletic Association Transgender Guidelines

The NYSPHSSAA recognizes the value of participation in interscholastic sports for all student athletes. The NYSPHSAA is committed to providing all students with the opportunity to participate in NYSPHSAA activities in a manner consistent with their gender identity and the New York State Commissioner of Education's Regulations.

The Dignity for All Students Act (DASA) prohibits discrimination and/or harassment of students on school property or at school functions by students or employees. The prohibition against discrimination includes discrimination based on a student’s actual or perceived sex and gender. Gender includes a person’s actual or perceived sex as well as gender identity and expression.

Definitions:
For purposes of these guidelines the following definitions will apply:

Assigned Sex at Birth: the sex designation, usually male or female, assigned to a person when they are born.

Gender Expression: the manner in which a person represents or expresses gender to others, often through behavior, clothing, hairstyles, activities, voice or mannerisms.

Gender Identity: a person's gender-related identity, appearance or behavior, whether or not that gender-related identity, appearance or behavior is different from that traditionally associated with the person’s physiology or behavior assigned sex at birth.

Gender non-conforming (GNC): a term used to describe people whose gender expression differs from stereotypic expectations. The term “gender variant” or “gender atypical” are also used. Gender nonconforming individuals may identify as male, female, some combination of both, or neither.

Sexual Orientation: a person’s sexual orientation and sexual attraction to other people based on the gender of the other person. Sexual orientation is not the same as gender identity. Not all transgender youth identify as gay, lesbian or bisexual, and not all gay, lesbian and bisexual youth display gender-nonconforming characteristics.
Transgender: an adjective describing a person whose sex assigned to him or her at birth does not correspond to their gender identity.

Transition: the process in which a person goes from living and identifying as one gender to living and identifying as another.

Privacy Policy:
All discussions and documentation shall be kept confidential to the extent permitted by law unless the student and the family make a specific request in writing.

Procedure:
1. The student and the parent(s)/guardian shall notify the Superintendent (or designee) that the student would like the opportunity to participate in interscholastic athletics consistent with the gender he/she identifies as.

2. The student’s home school will determine the eligibility of a student seeking to participate in interscholastic athletics in a manner consistent with his/her gender identity where the student’s gender identity does not correspond to his/her sex assigned at birth.

3. The Superintendent (or designee) will confirm the gender identity asserted for purposes of trying out for an interscholastic sports team through documentation from the parent, guardian, guidance counselor, or from a doctor, psychologist or other medical professional.

4. Once a member school has rendered a determination of eligibility to try out for an interscholastic sports team or teams which corresponds to the student’s gender identity the eligibility is granted for the duration of the student’s participation in interscholastic athletics. The student must meet all NYSPHSAA standards for eligibility for practice and competition.

5. The Athletic Director should notify the NYSPHSAA if any accommodations are needed.

Appeals:
All appeals with respect to a District’s determination as to eligibility of a transgender student to participate in interscholastic sports will go directly to the Commissioner of Education.

1. Five Yellow Cards accumulated by a single player or coach in the regular season will result in a one game suspension. Disqualifications due to an accumulation of five (5) Yellow Cards occurring in the last game of the season will carry over into the next season of participation, if the team does not enter post season play.

2. The continued accumulation of Yellow Cards by the same individual or coach will result in a one game suspension per additional Yellow Card.

3. In the event that the player or coach receives two Yellow Cards in the same game, resulting in a Red Card, the two (2) Yellow Cards will not count towards the season total, since the player or coach will receive a one game suspension as a result of the misconduct and ejection.

4. The accumulation card total is for regular season play only and the process will start over again for post season play. However, any penalties awarded as a result of the last regular season game will carry over into the post season.

5. The post season policy will provide a one game suspension after three (3) Yellow Cards and a one game suspension for each additional card received through the State Final. A one game suspension resulting from a yellow card in a team’s last post season game will carry over into the next season of participation.

6. The coaches of both schools are to report all Yellow Cards to their League and Section by means of mail, email or fax for tabulation. The officials should report to their boards concerning games in which cards are given and the reasons for issuance of the card. Board policy will determine the method of notification to the League and Section. A final end of the year report including data on disqualifications shall be sent to the NYSPHSAA Sportsmanship Coordinator.

7. Refusing to report, or failing to report infractions and allowing players to continue play under these circumstances will result in the forfeiture of all games in which the individual in question participated.

**Scrimmages:** A soccer scrimmage may not exceed a total of 100 minutes and unlimited substitutions are permitted. The length of time for the periods of play is to be determined by the coaches, not to exceed 40-minutes in any one period: halves, three-quarters or quarters. Scoreboards may be used for timekeeping only. The clock will begin with the goal keeper in possession of the ball. When a goal is scored, play will be restarted with goalie possession. The goalie can restart play with a goal kick, goalie throw or goalie punt.

**47. SOFTBALL** – A contestant may participate in two (2) regulation games per day with at least a 15-minute rest between games. By Section adoption five (5) inning double headers may be played. Varsity softball teams can play three (3) contests in one day only for invitational touraments during the regular season. Tie breaker rule in effect at top of the tenth (10th) inning. An unannounced substitution during a contest will not be penalized.
Waivers/Modifications:

2. The NFHS Metric Conversion Chart will be used when applicable. (Jan. 2012)
3. Approved to use the track style blocks in practice but not in competition in both boys and Girls swimming for 2013-2014 season.

Scrimmages: In swimming scrimmage no official times or scores will be kept. Times may not be used to meet the qualifying standard. More than one heat per event is permitted.

49. TENNIS – A player may compete in either a singles or doubles competition on the same day. Only two (2) matches are allowed per day and both matches must use a modified scoring system that conforms to one of the following formats: best 2 of 3 sets, using no-add scoring, with a 12-point tie breaker at 6-all; or, ten-game pro-set, using regular scoring with a 12-point tie breaker at 9-all (May 2011). In tournament play, the maximum number of matches shall be three in one day. Participation in a two-day invitational tennis tournament shall count as one of the 20 contests permitted and only three (3) such tournaments shall be allowed within the 20 meet limitation. In league and sectional competition, sections would have the option to increase the number of matches to four (4) in one day using modified scoring with rest periods being 30-minutes for the quarter final and below, 45-minutes for the semi-finals and 60-minutes for the finals. (May 2010) The Commitment to Compete form must be completed to be eligible to compete in the NYSPHSAA tournament (Boys-May 2003; Girls-May 2006). Failure to honor your commitment to compete the tournament for reasons other than injury or illness will result in forfeiture from the tournament and ineligibility from next year’s NYSPHSAA State Tennis Tournament. This incident will also be reported to the student’s school administration (May 2011). At the NYSPHSAA Championship coaching on the court is permitted, however cheering remains prohibited (Jan. 2009).
**Scrimmages:** A tennis scrimmage must alter format so it does not follow the regular competition format for league/sectional play. Suggested formats include but are not limited to:
Teams use tie breaks only
Five (5) game pro-set – first (1st) one to three (3) points
Modified eight (8) game pro-set – first (1st) players to three (3) points completes the scrimmage
Teams compete using an eight (8) game pro-set rather than two (2) out of three (3) sets with tie breakers at six-six (6-6).

The total number of tournament games played in one day shall not exceed fifteen (15) games. An additional 15-point game is permitted only to break ties in pool play to advance to finals as per tie-breaking procedures. In tournament play, volleyball teams shall have at least ten-minutes of rest between matches. All games will be played according to NCAA Rules with all games played to 25-points. If warm-up activities or play must be interrupted because player wearing an illegal uniform, jewelry or equipment, that team is assessed a delay sanction. The jewelry must be removed before the player can participate further. If, during the warm-up period, a player responds promptly to a referee’s request to remove jewelry or illegal equipment, a delay sanction is not assessed. (May 2010)
   7. Officials may not issue a yellow card to a coach for un-sportsmanship like behavior. (August 2012)
   8. Waiver of rule 1.5.4 – referee stand in Boys and Girls Volleyball.

Losing teams may compete in a consolation bracket to determine team placement. Pool Tournament: Teams are placed in pools. Teams from each pool wrestle against the same-ranked team(s) from the other pool(s) to determine team placement. If a wrestler exceeds the six (6) permitted tournaments allowed within the twenty (20) point limitation, said wrestler shall be ineligible for the remainder of the season, the coach will be suspended from the next regularly scheduled contest. Any additional penalty will be determined by the Section Athletic Council. Of the six (6) permitted tournaments, a maximum of two (2) two-day dual meet tournaments will be allowed during the season. A contestant may compete in a maximum of five (5) bouts in one day in tournament competition only. A wrestler

b. The minimum weight class in which a contestant may compete will be determined by a NYSPHSAA approved assessor, following guidelines of the Minimum Weight Certification Program. NYSPHSAA, INC.
WRESTLING WEIGHT CONTROL PLAN

On the recommendation of the State Wrestling Committee and with the approval of the State Executive Committee the following weight classes are in effect: 99, 106, 113, 120, 126, 132, 138, 145, 152, 160, 170, 182, 195, 220 and 285 for dual meets and tournaments. (August 2011)

1. The NYSPHSAA Wrestling Minimum Weight Certification Program is to be followed by all high schools sponsoring wrestling. Based on 7% body fat for males/14% for females, the minimum wrestling weight is the lowest weight at which an athlete will be allowed to compete. Certification must be conducted by a NYSPHSAA Approved Assessor and must occur within 14 days, exclusive of Sundays and school closing for holidays or emergencies, from the first day of the season. Wrestlers will be certified at a minimum weight (May 2010 and May 2012). A wrestler cannot begin practice until the waiver is approved. The approved date of the waiver starts the 14-day clock for certification (Aug. 2011). Centralized Assessment Sites will be mandated for the minimum weight assessment of all wrestlers. Only the refractometer will be used to test hydration.

Option 2: Wrestlers that are involved in the Fall NYSPHSAA Championships may apply for a waiver of the 14-day rule. Wrestlers that chose this option may not begin practice until the waiver has been approved by the section coordinator.

2. The use of sweat boxes; hot showers; whirlpools; rubber, vinyl and plastic type suits; or similar artificial heating devices; diuretics or other methods for quick weight reduction purposes is prohibited and shall disqualify an individual from competition. See NFHS Rule 4-4-4.

3. A profile form from a NYSPHSAA Approved Assessor must be filed in the home school prior to competition. Sectional wrestling forms must be received by the Section Wrestling Chairman before competition.

4. Dual meets scheduled on a school day shall use the honor weigh-in procedure. A certified list of recorded weights signed by the Principal or Athletic Director shall be submitted at the official weigh-in before the meet. Honor Weigh-Ins for a school day, dual meet wrestling matches are allowed; Honor Weigh-Ins for non-school day, dual meet wrestling matches are not allowed and if one team has school and the opponent does not have school on the day of a dual meet, Honor Weigh-Ins are allowed. Each wrestler shall make the scratch weight at the weigh-in to be conducted prior to the school’s first scheduled academic instruction period on the day of the match and may be permitted an allowance of 3 pounds at the mat side weigh-in. One not making the scratch weight at the early weigh-in will not be permitted the 3 pounds allowable and must make scratch weight at the mat side in order to compete. In the event that a competition is postponed or cancelled, the honor weigh-ins is not an official weigh-in, and therefore does not count towards the 50% rule.
5. Restrictions for Competition: A minimum weight is required for selectively classified athletes. Students in grades 9-12 do not have to make minimum weight (Aug, 2011). The minimum required weight for all weights as listed MUST be met and RECORDED at both the honor weigh-in and the mat side weigh-in.
   a. To compete at the 99 lb. class a wrestler MUST weigh in excess of 91 lbs. to be eligible.
   b. To compete at the 106 lb. class a wrestler MUST weigh in excess of 96 lbs. to be eligible.
   c. To compete at the 220 lb. class a wrestler MUST weigh in excess of 185 lbs. to be eligible.
   d. To compete at the 285 lb. class a wrestler MUST weigh in excess of 210 lbs. to be eligible.

6. The minimum required weight for the 99 lb., 106 lb., 220 lb., and 285 lb., weight class MUST be met and RECORDED at both the honor weigh-in and the mat side weigh-in.

7. A wrestler found to have cheated on the hydration test can no longer participate in wrestling from that point for the remainder of the season.

8. There shall be an allowance of one (1) pound granted each day over the weight limit of the previous day in tournament competition. There is a one (1) pound allowance for all involved teams the second day of a dual meet or tournament competition conducted on consecutive days. The maximum allowance for consecutive dual meets or the first day of a tournament following a dual meet is two (2) pounds. NOTE: A minimum of 48 hours notification to your opponent is required in order to be granted this one-pound allowance. This rule is voided at post-season wrestling tournaments, namely Class and Sectional competitions that are involved in the process of selection of competitors for championship competition. NYSPHSAA will grant a two (2) pound growth allowance for each weight class on December 25. This two (2) pound growth allowance does not apply to the minimum weight requirements for the weights of 99 lbs., 106 lbs., 220 lbs., and 285 lbs.

9. Weigh-in for the second day of a tournament must be on the morning of the second day, with a 1 lb. allowance.

10. Effective in 2006-2007 and after, 50% of the weigh-ins during the season must be at the minimum weight he/she will wrestle during the state tournament series.
   a. An official weigh-in counts towards this 50% rule whether an athlete competes or not, as long as he/she is eligible to compete and has made weight at both the honor weigh-in (a.m.) and the mat side weigh-in (p.m.)

11. Section sponsored tournaments are not considered part of the regular season; therefore, do not count toward the 50% rule, 20 point rule, or the Representation Standard.

THE MODIFIED INTERSCHOLASTIC SPORTS PROGRAM

Interscholastic competition in sports for pupils below the tenth grade level has been modified by the NYSPHSAA, Inc., and adapted to students in grades 7-8-9. School administrators need to realize that the NYSPHSAA, Inc., Modified Sports Program has been approved by its member schools and is based on twenty years of experimentation and implementation with SAFETY as the major concern.

MEDICAL APPROVAL

The Medical Society of the State of New York and the American Medical Association has officially approved the NYSPHSAA, Inc., Modified Program as a sound, safe program. It is most important that all school administrators, directors, and coaches note this approval. The safety of the pupil has been the dominant factor in the establishment of the policies, rules, game conditions, and modified rules under which participants in this program compete.

INDIVIDUAL SCHOOLS, ATHLETIC LEAGUES, AND SECTIONAL ATHLETIC COUNCILS have definite responsibilities to assure proper administration of the program:

THE SCHOOL

1. Abides by the rules by providing proper administration of the program.
2. Informs all essential personnel of program rules, regulations, and program philosophy.
3. Participates actively in the organized group of schools to properly administer the interscholastic athletic competition within the rules of the Modified Program.
4. Becomes involved in sectionally sponsored modified sports administrative committee or council, participating in rules and games clarification programs and clinics.

THE LEAGUE

1. Abides by the rules by providing proper league administration of the modified program through chairmen and committee members.
2. Gives consideration to more restrictive program policies if desired.
3. Expects league sports chairmen to participate actively on sectional sports committees.
4. Provides official, active representation on sectional council.

THE SECTION-COUNCIL FOR MODIFIED ATHLETICS

1. Establishes essential administrative units and sports chairmen to provide the leadership necessary for the Modified Sports Programs in the schools of the section. Official league representatives and sports chairmen shall comprise the Section's Council for Modified Athletics.
   a) Shall establish the dates for the opening of all sports seasons.

   Fall – With Section/League approval the modified program Fall season starting date will be week #8 in the NYSPHSAA Standard Calendar.
**Winter** – Week #18 is the earliest possible date for the winter sports season. Later dates may be set.

**Spring** – Week #35 is the earliest possible date for the spring sports season. Later dates may be set.

Four sports seasons may be set by sectional action and approval. The established fall starting date may not be changed without approval of both the NYSPHSAA Modified Committee and the NYSPHSAA Executive Committee. Earlier winter and spring starting dates may be established by sectional action. These dates must be reported to the Modified Committee.

b) Conducts all organized team practice and competition during one season.

c) Cooperates with officials’ organizations – to provide officials with the essential information relating to the modified program and to secure competent officiating for the Modified Sports Program.

d) Administers all policies essential for proper functioning of the modified program of sports.
   --No sectional championships or tournaments shall be conducted.
   --Clarifies sectional participation in innovative programs to assist in experimentation to meet obvious needs for program improvement.

2. Participates actively in the functioning of the NYSPHSAA, Inc., State Committees on Modified Athletics by:
   a) Having official, active representation on the State Committee.
   b) The officially selected sectional sports chairmen shall provide the leadership for the sports conducted in the schools of the section and cooperate with the State Sports Chairmen in their continuing efforts to improve the sports programs and the safety of the participants.

3. Establishes a relationship with the Sectional H.S. Athletic Council and Central Committee members to clarify section's final approval of policies, programs, and with representatives involved in the Modified Sports Program of the schools of the section.
   a) More restrictive policies may be adopted for sectionally approved programs if desired.
   b) Recommendations for additional programs that may be desirable to meet particular needs in the section may be inaugurated.
   c) Participation in innovative programs may be clarified and approved.
   d) With sectional approval, variations of modified athletic game rules and conditions may be adopted selectively for use by specified conferences or leagues.
   e) Essential communications should be established so that all schools are informed as to programs, policies, and administrative procedures necessary for the proper functioning of the Modified Sports Program.
   f) Definite understanding needs to exist between the Section Council for Modified Athletics and the Senior H.S. Sectional Athletic Council relative to the responsibilities and authority of each.

The elected Central Committee members are the section's official representatives to the NYSPHSAA, Inc., governing bodies – the Central and Executive Committees. The Modified Sports Program for Grades 7-8-9 is their responsibility and complete understanding of the actions and activities of the Modified Athletics Council needs to exist.
INNOVATIVE PROGRAMS

The establishment of essentially sound, safe, and modified sports programs to meet the needs of varying sized schools has always been a challenge for the State Committee. When new programs have been presented to meet specific needs the committee has requested sections to experiment with the new program to determine its value before recommending the program for official approval and referenda. Equitable competition is the constant aim.

Innovative programs may be participated in only after being officially requested by Sectional Representatives on the Committee and the approval of the State Committee. This procedure has been of real value in presenting practical programs for referenda.

GIRLS may participate on boys’ teams according to Eligibility Standard #15.

LIFETIME SPORTS competition is a part of the athletic program in some schools involving grades 7-8-9. The Committee coordinators welcome suggestions from any schools involved in these sports and who feel standards need to be established. There definitely needs to be a very close correlation of intramurals, extramurals, and interscholastic activities to provide a broad program for all interested students of all levels of ability.

If a student or school participates in the Modified Program on an interschool level in the lifetime sports, then all General Eligibility Rules must be observed.

PROGRAM CONTROLS

SPECTATORS: Parents and interested students are usually the great majority of spectators at Modified Program games. Spectator buses to away games are most questionable and never should be permitted without the approval of the host school. When spectators visit another school, adequate and appropriate staff members should be available to supervise their spectators.

SCHOOL BANDS: Bands at Modified Program games are not desirable, since they tend to develop an overemphasized atmosphere for the competitors.

COACHES: The most important factor in the program is the coach. One must adapt coaching to the age level and the abilities of the junior high school youngsters and must teach the basic fundamentals of the games and avoid the intricacies of more advanced programs. Real patience and knowledge of the youngsters at this particular age level is necessary. An understanding of all program policies and game rules and conditions is essential. Relations with opposing coaches should be one of cooperativeness and good sportsmanship, yet teaching and coaching the team to be the best of one’s ability, realizing that the chief obligations are to the pupils and their proper sports education.

SCOUTING: There is no need for scouting of opponents’ games at this level of completion.
GENERAL ELIGIBILITY RULES FOR THE
MODIFIED PROGRAM

Situations not covered by the following specified modified rules shall be governed by the Eligibility Standards of the New York State Public High School Athletic Association, Inc.

1. **AGE:** Upon entry into the 7th grade, a student is eligible for modified program competition. One is ineligible when the sixteenth birthday is attained; however, if a student attains the sixteenth birthday during a sport season he/she may complete that sport season. **NOTE:** Schools, leagues and sections may organize Modified Program competition by age, grade, geography and/or ability levels within the limitations of the NYSPPSAA Eligibility Rules to ensure safe and equitable competition. Teams shall practice and compete only against other teams that use the same criteria for organization (i.e. age, grade, performance).

2. **BONA FIDE STUDENTS:** A contestant must be a bona fide student of grades 7, 8, 9 of the school represented. **NOTE:** If it becomes necessary to combine member schools to maintain a team or sport, a written request must be submitted and approval obtained from the league and section involved. Schools which have combined must submit a report to the Modified Committee and this will be submitted to the Executive Committee.

3. **CHAMPIONSHIPS-TOURNAMENTS:** Tournament competition is not permitted in the Modified Program. No sectional team or individual championships are to be conducted, nor are there to be championship playoffs on a team or individual basis.

4. **DURATION OF COMPETITION:** High School Eligibility Standard #8 becomes effective on the date of entry in ninth grade.

5. **EMERGENCY PROCEDURES:** It is recommended that all schools develop emergency procedures to be followed by coaches.

6. **EXTENDED PLAYING TIME:** Eligibility for play in an extended playing time should be determined on the basis of the following participation standards:
   a) Players with no participation in the regular game/contest should be eligible for play in an extended playing time.
   b) Players whose participation in the regular contest is limited, i.e., their total participation was no more than one-half of the regular playing periods/quarters shall also be eligible for play in an extended playing time.
   c) Limited participation shall be further defined to mean that entry into a playing period rather than actual playing time shall constitute “participation” in the regulation contest.

Optional Plan for use at the league or Section level: If a team has fewer than the minimum number of players to play the five (5) period concept the following game rules will apply.

A four (4) quarter game will be played with the number of minutes being increased for each quarter (see chart); however no player may play more than three (3) quarters (*see exception). This will apply provided the team has a sufficient number of players so as not to exceed the NYSPPSAA regulated playing time allocation for each sport (see following chart).
In boys' and girls' lacrosse and in girls' field hockey, if a team has only one goal keeper that goal keeper may play in all periods of 4 Quarter Extended Play or in all periods of 5 Period Play. Except for the goal keeper, the “time” allocated for the game will not be extended. All players except for the goal keeper will follow the 4 quarter or 5 periods extended playing time format and are therefore only eligible to play 3 periods.

7. **HEALTH EXAMINATION:** A student who may engage in interschool competition shall receive an adequate health examination and may not practice or participate without the approval of the school medical officer. **NOTE:** Physicals for participation in school sports may be scheduled at any time during the calendar year. The results of the physical shall be valid for a period of 12 months after the last day of the month in which the physical was conducted. Unless the medical examination is conducted within 30 days of the start of a season, a health history update is required. Any pupil whose safe participation is in question as a result of the health history interview, or injury, or prolonged absence must be re-qualified by the school physician prior to participation. If the 12 month period for the physical expires during a sports season, participants may complete the season as long as a health history was conducted prior to the season. For example, a physical conducted on August 1 would be valid through August 31. If a student plays beyond August (ex, football), the student may complete that sports season as long as an interval health history was conducted before the start of the season. Immediately following the last sanctioned tournament competition for that season, a new physical is required if the student is going to play another sport. Sport season includes tryouts.

NOTE: The Handbook Committee recommends that each incidence of prolonged absence should be reviewed individually by the coach and the athletic director, consulting with the school physician when necessary and a reasonable amount of practice time and playing time be established based on the athlete’s readiness for safe return to competition.

8. INTERSCHOOL PRACTICE SESSIONS/SCRIMMAGES: A school is limited to three (3) interschool practice sessions/scrims which, if conducted, may be held at any time after minimum practice requirements and previous to the last scheduled contest. By sectional approval, in cases where officials are not available for contests and all avenues of obtaining certified official have been exhausted, additional scrims are permissible as replacements to the scheduled contests. Interschool practice sessions/scrims are governed by the same hours to elapse between such sessions/scrims as for regularly scheduled contests with the exception of football.

NOTE: With Section/League approval, up to 50% of the maximum number of games permitted for each modified level sport may be designated as scrims. (Example: Basketball – 14 games scheduled, 50% (7) could be scrimms plus 7 games for a total of 14. Under this option, if a contest is converted to a scrimmage, the scrimmage would count toward the 50% as outlined in the Promotion Rule. NOTE: In practice sessions/scrims:

- a) Both squads use the same field simultaneously with both coaches making corrections and giving instruction to players as they would do during their own practice,
- b) No officials score is kept
- c) No admission is charged,
- d) No spectators are permitted unless such is the usual plan whenever the squad has a practice.

9. MIXED COMPETITION: see Eligibility Standard #15.

10. MULTI-SCHOOL CONTESTS/TOURNAMENT COMPETITION/CHAMPIONSHIP/FINALS AND AWARDS: Tournament competition is not permitted in the modified program. No sectional team or individual championships are to be conducted. With sectional/league approval in multi-school contest and invitational, may award place ribbons to the top competitors. Championship playoffs on a team or individual basis are prohibited. Sections, leagues, devices or groupings should not host an end-of-season final multi-school contest that can be construed as a jamboree, carnival, or invitational tournament. Multiple school contests can be conducted at the end of the season only if it is in a sport in which multiple team contests are regularly scheduled throughout the season and the final contest mirrors that of the rest of the schedule, thus the contest is not larger than all the others. This may be true for individual dual sports (i.e. squad meets for wrestling, cross country or track). Team sport multiple school contests prior to the end of the season are permitted provided:

- a. No participant shall compete in more events, matches or games than permitted in any other regularly scheduled contest in that sport, on that day
- b. All handbook rules are applicable.

Coaches and directors are encouraged to design ideas that follow the spirit of, and guidelines for, modified athletics.
11. PENALTIES:
a) If a school uses an ineligible student in any interschool contest, the penalties shall be as follows:
   1. In all team sports-forfeiture of the contest. In individual sports, the use of an ineligible player would result in the contest being forfeited. However, the performances and outcomes of the other individuals would stand.
   2. In the individual sports-bowling, cross country, fencing, golf, gymnastics, rifle, skiing, swimming, tennis, t rack, wrestling – all points scored by the individual shall be forfeited and places moved up accordingly.
b) For any violation of eligibility or sports standards a school or a school authority may be censured, placed on probation, or suspended.
c) Consistent with good ethical standards the prompt reporting of the knowledge of an infraction shall be made to the proper authorities in writing.
d) School Districts may appeal to the Section to gain relief from the prescribed penalty if the violation of eligibility standards resulted from circumstances out of the District’s control.

12. PRACTICE SESSIONS: Each student may participate in only one practice session a day on only six days of a calendar week. Practice sessions shall be limited to two hours and be at least 45 minutes in length. No student may be permitted to participate in school organized practice or play on seven consecutive days.
   All required practice sessions shall include vigorous activity related to the specific sport.
   A tryout session may be used toward the required number of practices needed prior to the first scrimmage or contest when the high school and modified seasons start simultaneously or when the high school tryout periods are contiguous to the beginning of the modified sports season.

13. PROMOTION: A contestant in grades 7, 8, and 9 who practices or competes with or against a freshman, junior varsity or varsity performer shall not return to the modified athletic program in that same season in that same sport. Contestants shall not be promoted to a higher classification within the modified program or to a junior varsity or varsity team after completion of fifty percent of their modified schedule.
   NOTE: EXCEPTIONS:
   a) General Eligibility Rule #17 “TRYOUTS”.
   b) In school where no junior varsity program is provided in a specific sport, a ninth grade modified contestant may be promoted to the varsity team at any point in the season if he/she displays the skills and maturity to compete at the varsity level. A promoted 9th grade contestant is eligible to participate immediately upon promotion providing that he/she has completed the necessary number of required practices for that specific sport. The contestant may not exceed the total number of contests as outlined in the HS Sport Standards Chart.
   c) In a section whose “early winter” season ends in mid-winter, followed by the “late winter” season, the modified ninth grader could not be elevated to the varsity for post schedule contests in a sport played in the “early winter” modified season.
   d) Promotion Regulation shall be waived for Boys’ and Girls’ Swimming & Diving and Boys’ and Girls’ Outdoor Track and Field permitting schools with section approval the option of running combined modified and varsity swimming and diving meets, alternating events.
   e) The NYSPHSAA Executive Director may grant a waiver of the promotion rule if a High School team is dropped by the school district.

14. SPORTS SEASONS: All competition shall be completed within the sport season indicated by each individual section.
15. **TIME INTERVAL:** Unless extenuating circumstances arise, it is recommended that no more than two contest should be scheduled per week. Except in football and cross country, contests may be played with only one night of rest three times per season for rescheduling purposes only. A team may never play three days in a row. There shall not be more than three contests played per calendar week. Baseball and softball shall be permitted to play two games a day twice during the season. (See Baseball and Softball – Game Conditions.)

16. **TRANSFER:** A student who is enrolled in one school may subsequently transfer no more than once during a school year without a corresponding change in the residence of his parents or guardians, or having reached the age of majority establishes a residency.
   a) A student who transfers from one school to another becomes eligible after starting regular attendance.
   b) Transfer students trying out for sports before school opens in the fall shall register and be accepted by the principal of that school before the medical examination and the first practice. This shall constitute the start of regular attendance for fall sports.
      **NOTE:** After approval by the school medical officer a student may practice immediately and must satisfy the specific Sports Standard according to the number of practice sessions required.
   c) Practices at the previous school district may be counted toward the minimum number of practices required provided the principal or athletic director of the previous school submits, in writing, the number and dates of such practices to the principal or athletic director of the new school.

17. **TRYOUTS:**
   a) A section may establish tryout periods to allow EXCEPTIONAL ATHLETES who have completed and passed the NYS Education Department Selection/Classification (S/C) Procedures and Standards the opportunity to be selected for a high school team.
   b) Seventh and eighth grade students must pass the S/C qualifications prior to the tryout period.
   c) Ninth grade students do not have to pass the S/C qualification to participate in the tryout.
   d) The tryout period for a modified athlete shall be defined as participation in three (3) of the first five (5) practice days of the high school season. During the tryout period, the modified athlete may not return to modified program until the athlete's tryout is complete.
   e) Tryout periods for wrestling, boys lacrosse and ice hockey shall be a maximum of five (5) of the first seven (7) practice days of the high school season.
   f) The tryout period for football shall be a maximum of eight (8) of the first ten (10) days of the high school season.
   g) Student athletes participating in sectionally approved tryout sessions are not subject to the Promotion rule.
   h) In cases involving new transfer students, overlapping season, and/or medical conditions the student's try-out period will be 3 out of 5 days, 5 out of 7 days, or 8 out of 10 days of the high school season depending on the sport.
PROGRAM SAFETY

PHYSICIANS: It is recommended that a physician be present at all football games and to be readily available during practice sessions. If an injury occurs during a game in any sport, the physician in attendance will determine the athlete's fitness to continue play. During practice sessions, in the event of potentially serious injury to head, neck or spine of a player, a physician should see the injured as soon as possible. Any pupil whose safe participation is in question as a result of the health history review interview, or injury, or prolonged absence must be re-qualified by the school physician prior to participation.

OFFICIATING: Proper officiating is a most important safety factor. The following policies should be in effect:

1. The use of the “fast whistle” is mandatory when participant safety is questionable.
2. Strict enforcement of all rules violations will inculcate the proper playing habits and attitudes.
3. Special attention should be made to determine “potentially dangerous” holds in wrestling and to eliminate them.
4. It is required that certified officials should be used in contact sports to provide the safest possible game supervision. Three (3) officials are preferred for football.

EQUIPMENT: Only sneakers or shoes with molded soles and molded cleats are permitted in the modified program. Shoes with metal posts or spikes are not permitted in any modified sport. Protective equipment which is properly fitted should be provided for sports of a contact nature. Supporter cups should be worn in those sports where this protection is logical. Protective headgear may be worn by soccer goalies for protective purposes. Shin guards must be worn at all times by all soccer players and field hockey players.

COACH ON THE FIELD: The coach is permitted to be on the field during timeout periods to check such matters as seem desirable to control the safety of the games and to use the existing situation as a teaching opportunity. It is realized that this rule is subject to abuse by overzealous coaches. Any coach violating the spirit of this rule should be removed from the program.

RULES OF THE GAME: The approved game rules for all sports are listed in the Modified Sports Standards. All adopted modifications indicated for each sport take precedence.
IT IS THE DUTY OF ALL CONCERNED WITH THE MODIFIED PROGRAM OF ATHLETICS:

1. To provide as broad and varied an athletic program as is possible with an opportunity for competition on an equal basis for all students. A desirable modified interscholastic program will encourage participation at several achievement levels. Interschool competition in a modified sports program should encourage participation for as many children as possible.

2. To realize that the individual schools have the final responsibility to equalize competition and must administer the program so that no overmatching of teams or individuals shall be permitted.

3. To conduct the athletic program so that educational objectives shall be achieved; so that the highest ideals of sportsmanship are upheld; so that no single phase of the educational program is promoted at the expense of other equally important programs.

4. To realize that the athletic program should be balanced with all other activities essential to youth, including those which may be conducted by out-of-school groups, to avoid an excessive load for any student.

5. To administer the program in such a manner that participants are properly examined, approved, equipped, insured, selected, classified, instructed, and supervised so that as safe a program as is possible is conducted.

6. To administer the educationally based athletic program in its proper perspective, with minimal loss of school time, limited publicity, competent officiating, and limited awards focused on participation.

7. To provide qualified leadership that understands the teaching of sports to the age group, the objectives of this modified sports program, and the emphasis on safety procedures.

8. To cooperate with schools in the area in providing an interscholastic athletics administrative organization within your section that will achieve the objectives and will aid in the development of the highest type of cordial interschool relationships.

9. To conduct the program so that proper respect for authority is achieved. All participants, coaches, parents, spectators and interested individuals will demonstrate appropriate conduct at all times.

10. To promote sportsmanship by competing within the spirit of the rules, to give every opponent due credit and respect, and to win honorably and to lose graciously.

11. To finance the program through Board of Education approved funds.

12. To cooperate with the Sectional Athletic Council, League or Conference in its efforts to provide sound leadership for all in modified athletics program. No sectional team or individual championships are to be conducted in modified interscholastic athletics.

NYSPHSAA, Inc.
MODIFIED GAME RULES AND GAME CONDITIONS

Situations not covered by the following specified modified rules shall be governed by the Eligibility Standards of the New York State Public High School Athletic Association, Inc.

With Sectional approval, variations of modified athletic game rules and conditions may be adopted selectively for use by specified conferences or leagues.

1. Badminton
   **Game Conditions:** See MS chart
   **Games Rules:**
   1. NAGWS Rules
   2. Contests should consist of 4 singles and 4 doubles matches, unless agreed upon prior to the contest.
   3. For the purpose of ensuring that every eligible badminton player has the opportunity to play in a match, each may play one (1) additional singles or doubles match per day. The individual limitations/day for badminton (References; Modified Sports Standards Chart, NYSPHSAA Handbook) shall be increased to two (2) matches per day, provided that every individual eligible player plays once before any player plays twice.

2. BASEBALL
   **Game Conditions:** See MS Chart
   1. Pitchers must participate in at least 15 practices before an interschool game.
   2. Doubleheaders: A team may play two (2) games in one day twice during a season, either a doubleheader against a single opponent, or two successive games against two different opponents. The following doubleheader restrictions must be followed:
      a) The maximum number of doubleheaders allowed is two (2).
      b) A team may not play three (3) games in two (2) consecutive days. No more than three (3) games a week may be played.
      c) Pitching limitations remain the same.
      d) Each game of the doubleheader is to be six (6) innings. No team may play more than 14 innings in one day. This allows a total maximum of two (2) extra innings in the event of a tie game(s).
   3. Equipment–
      a) Catchers shall wear the full protective equipment of helmet, mask with throat protector, chest protector, shin guards and cup.
      b) Batters and base runners shall wear protective headgear.
      c) Any player warming up a pitcher, on or off the diamond, shall wear a mask.
      d) Only sneakers or shoes with molded soles and molded cleats are permitted in the modified program. Shoe with metal posts or spikes are not permitted in any modified sport.
   **Game Rules:**
   1. Regulation game shall be 7 innings. With Section/League approval, a "Mercy Rule" will be permitted; allowing a game to end after a team at the short end of the 15 run rule has completed their fifth at bat (Dec. 2010)
   2. A pitcher may pitch no more than 12 full innings in any one calendar week and no more than 7 innings in any one game. After pitching 4 or more full innings in any one game
there must be at least 2 nights of rest before pitching again. When removed, the contestants may play any other position.

3. Designated hitter will not be allowed.

4. An extra player, referred to as EP is optional (on a game-by-game basis), but if one is used, it must be known prior to the start of the game (official lineup card) and be listed on the scoring sheet in the regular batting order. If the EP is used, he must be used for the entire game. Failure to complete the game with the EP results in the forfeiture of the game (except in case of injury or ejection from game with no eligible players left to enter, the rules permit play with eight men). If an EP is used, all 10 players bat, but only 9 can play defense each inning. The person designated as the EP (not a defensive player at the start of the game) may at a later time play a defensive position; the defensive player now is only a batter for that inning and not a fielder. There will always be one player in the lineup not on the field defensively. The EP may be substituted for at any time, either by a pinch-hitter who then becomes the EP. The substitute must be a player who has not yet been in the game. Substitutes and re-entry will be treated as in the past. A starter may re-enter the game into his same batting order position.

5. The re-entry rule may be waived only if an injured player must be replaced and all eligible substitutions were used during the game.

6. With Section/League approval, when the team at bat has two outs with the catcher on base, a pinch runner may be used to allow the catcher to get his/her gear on prior to the third out. (The pinch runner is a player who is a substitute, or in the case that all substitutes have been used, a player off the bench who is not currently in the lineup. This rule does not change the normal substitution rules and does not overshadow the need to get all players in the lineup; it allows for cutting time off the transition between innings).

7. With Section/League approval, a new substitution game rule may be used to maximize modified players’ participation in their baseball/softball games. The official lineup card will list all players on the team in a designated batting order, allowing any of the players listed in a slot to bat when that slot occurs.

20. BOYSBASKETBALL

*Game Conditions:* See MSchart

*Game Rules:*

1. The maximum length of the quarters shall be seven (7) minutes.

2. If a game is tied at the end of regulation play, there will be an overtime period of four (4) minutes duration. If it is still tied, the game will end in a tie.

3. Free substitution is facilitated by permittingsubstitutions on:
   a) Any dead ball
   b) Any violation

4. Sections may adopt the use of a small ball. The section shall determine the actual size of the ball.

5. The three (3) point shot is not allowed.

21. GIRLSBASKETBALL

*Game Conditions:* See MSchart

*Game Rules:*

1. NCAA Women’s Rules. The thirty-second clock rule shall be optional.

2. The maximum length of the quarter shall be seven (7) minutes.
3. If a game is tied at the end of regulation play, there will be an overtime period of four (4) minutes duration. If it is still tied, the game will end in a tie.
4. The three (3) point shot is not allowed. Ten (10) second rule waived 2013-2014 season.

With section/league approval, other sections may participate in this pilot program. Each section/league participating will be required to provide injury data after the 2015 and 2016 modified cross country season.

Game Rules:
1. NFHS Rules

Every effort should be made during practice and game situations to pair contestants of as nearly equal ability as is possible. Factors to be considered in the selection of squad members are age, weight, physiological maturity, skills, coordination and desire.
**Tests:**
Each pupil should be carefully checked to determine readiness before being allowed to participate in interschool contests as follows:

1. **Physical - Medical examination** which shall include a thorough review of health history before, and as needed, during the season. Tetanus shots as recommended.
2. **Maturity – Careful evaluation** of the individual's age, weight, height, physiological maturity and degree of coordination with relation to all of the others, especially one above or below average of others in height, weight, physiological maturity as related to age, should be made.
3. **Individual Skills – A thorough program** of screening for a period of two weeks shall be conducted. Basic conditioning, running, cutting, falling, rolling, catching, line, and backfield fundamentals, blocking and tackling techniques, ball handling drills should be participated in. Dummies and sleds should be used and no one should be permitted in live contact drills until ability has been proven to partake in them. 5. **Desire – Observation** of the individual's alertness and general desire to participate must be noted. (The above mentioned types of testing and teaching, with complete cataloging of the individual’s ability, should enable the coach to screen all candidates and determine their readiness for competition.)

**THE MODIFIED PROGRAM OF FOOTBALL FOR BOYS IN GRADES 7-8-9.**

   a. Properly fitted equipment of good quality is mandatory for safe participation in football.
   b. All essential protective devices are to be used.
   c. In addition to the normal pads and helmets, dental and face protection guards should be provided.

The first three (3) days of practice sessions must be non-contact exercises and equipment shall be limited to the helmet, face mask, dental protection device, T-shirt, supporter, shoes, ankle supports, socks, shoes, protective pads for elbow and/or knee areas. During the next five (5) days the addition of shoulder pads, along with the use of blocking dummies, sleds, and other similar teaching and training devices is permissible. No scrimmages or live contact drills are allowed. The next five (5) days shall consist of contact with full protective equipment and the use of training devices. Scrimmages are permitted on the fourteenth (14th) day. Four (4) additional practice days must be held prior to the first contest.
2. No school team, or individual player, may participate in more than seven (7) games. These games shall be scheduled with no more than one game per week. In extreme cases, games may be rescheduled if approved by the Sectional Athletic Council. A minimum of four (4) nights of rest must elapse between any games. 3. At least sixteen (16) players must be dressed and available to play on an 11-man team; at least sixteen (16) players for an 8-man team for all interschool contacts, both scrimmages and contests.

Game Rules for 11-Man Football:
1. Time periods shall be 10 minute quarters.
2. Team offensive formations are limited to standard formations. There may be a maximum split of 1 yard between linemen. If a wide receiver is employed, the maximum split from the tackle cannot be more than 10 yards. On the snap of the ball, there may be only two (2) players outside of the normal tackle alignment on either or both sides of the field. Motion is allowed toward the two (2) receiver side of the formation provided the ball is snapped before the player crosses the middle of the formation. If the ends split on punt formation, the team must punt. There are no "walkaway" ends when receiving the punt from this formation. Definition of side of formation – the half of the formation from midline of the center that has a set back to that side and two (2) players outside the tackle. All downfield blocking must be done above the waist. Until the snap the defense shall be 6-2-2-1 or 6-2-3 with six (6) players in an imaginary straight line within 2 yards of the ball; two (2) linebackers must be at least 1 yard behind the deepest lineman; three (3) defensive backs must be at least 3 yards behind the deepest linebacker, inside the 10 yard line defensive backs may be 2 yards behind the deepest linebacker. Penalties: improper formation – 5 yards; downfield blocking – 15 yards.

3. No kick-off – start play from own 35 yard line.
4. Two (2) points shall be allowed for a kick extra point and one (1) point for a run or pass. (Optional for section wide use with approval of the section)
5. Safety – scoring team put ball in play on 50 yard line.
6. All downfield blocking must be done above the waist. Downfield blocking is interpreted as any blocking of an opponent taking place downfield from the free blocking zone, which for this rule is extended from sideline to sideline. The downfield blocking rule is also in effect whenever a defensive team becomes an offensive team as the result of receiving a punt, pass interception, or the recovery of certain types of fumbles. The point that offensive play begins extending from sideline to sideline, would be interpreted as the inception of that play and thus, for rule clarification purposes, would be the scrimmage line for that play (i.e. the point the punt or interception was received). The penalty for a violation of this rule will be 15 yards as spelled out in Rule 9, Section 1 of National Federation Football Rules.

7. Sections may adopt the use of a small ball.
8. Coaches shall be permitted on the field in the experimental five quarter football program. (Optional for section wide use with approval of the section)
9. When an offensive team employs a wide receiver (split end or flanker), the defensive end to the side of the formation may assume a “walkaway” position. The end may align at a maximum depth even with the two (2) inside linebackers and no wider than half the distance between the wide receiver and the next lineman.
10. With Section approval, schools will be allowed to use two (2) wide receivers on opposite sides of the formation.
**Game Rules For 8-Man Football:**

1. 11-man rules are used for 8-man football with modifications.
2. The field size shall be 80 yards between the goal lines and 40 yards wide with 15 yard side zones and team box boundaries being between the 25 yard lines.
3. At least Five (5) offensive players shall be on their line at the snap with three (3) players assigned in the backfield. Note: Line splits, formations, motion, etc. as per existing modified rules.
4. Until the snap, the defense shall be 4-2-2 with four (4) players in an imaginary, straight line 2 yards off the ball. Two (2) linebackers must be at least 1 yard behind the deepest lineman; two (2) defensive backs must be at least 3 yards behind the deepest linebacker.
5. No kick-off. Start play from own 30 yard line.

**Football Contact Limitations:** Contact in the sport of football for High school and modified football teams shall have no more than two "Full-Contact practices" per week during the season; with no Full-Contact session to exceed 90 minutes. “Full-contact” means a practice where drills or live action is conducted that involves collisions at game speed, where players execute tackles and other activity that is typical of an actual tackle football game. *Limitation of “Full-Contact practices” will begin with the 13th day (high school and the 14th day (modified).*

Through our special partnership with Special Olympics New York, we are pleased to offer Unified Sports Programs to our membership. Unified Sports is an inclusive sports program that combines an approximately equal number of athletes (students with intellectual disabilities) and partners (students without intellectual disabilities) on teams for training and competitions.

Currently, the NYSPhSAA and Special Olympics have just completed a pilot program in Section 2 and are starting a pilot program in Section 5. All pilot programs are for a Spring Unified Basketball season. A key component of the pilot program is the Youth Activation Committee (YAC). The YAC is responsible to help increase awareness and acceptance of students with disabilities within the school district by supporting the Unified Basketball team.

A Unified Sport Committee will be formed in the Fall of 2014 with representatives from all 11 sections. The objective of the committee will be to establish pilot programs in all 11 sections on a voluntary basis and to recommend rules and regulations that will be followed for all Unified Sport Programs within the Association.

**Project Objective:** Unified Sports participation is rooted in the principle of meaningful involvement which ensures that every player is given an opportunity to contribute to the success of his or her team through their unique skills and qualities. This means that every team member: (a) demonstrates sufficient sport-specific skills and game understanding; (b) plays a valued role on the team that emphasizes his or her personal talents; and (c) has an opportunity to play without a heightened risk of injury.

**Basketball:**

**NFHS Playing Rules:**

1. All NFHS Basketball rules will be followed unless a NYSPhSAA or Special Olympics Rule Adaptation is in place.

2. There will not be a shot clock (NFHS rule).

3. The ball used for game play will be a 29.5 inch basketball. (NFHS Rule)

4. If extra time is needed, overtime periods will be 4 minutes. (NFHS Rule)

5. Each team is allowed three Full and two 30 second timeouts per half. Each team is allowed
1 additional Full timeout in Overtime. (NFHS Rule)

6. Three point shots are in effect.

7. Team bonus will be reached at 7 team fouls and double bonus will be reached at 10 team fouls in each half.

**NYSPHSAA and Special Olympics Modifications:**

1. The objective of Unified Basketball is to have 3 Athletes and 2 Partners on the court.

2. Traveling will be called if a player scores or has a clear advantage because of the traveling.

3. A game may consist of either four 8 minute quarters or two 16 minute halves.

**Points of Emphasis:**

1. Double dribbles will be strictly enforced.

2. Any defense is allowed.

3. Free throw lane and 3 second lane violations will be enforced.

**Note:**

*It is our belief that sports and other co-curricular student activities are of the greatest benefit to all students when done in the least restrictive environment.*
1. Philosophy - The NYSPHSAA, Inc. recognizes the use of mind-altering/performance enhancing chemicals as a significant health problem for many adolescents, resulting in negative effects on behavior, learning and the total development of each individual. The use of mind-altering/performance enhancing chemicals for some adolescents affects curricular participation and development of related skills. The lives of other adolescents are affected when family members, team members and other significant persons use these chemicals.

2. Position Statements - It is the position of the NYSPHSAA, Inc. that:
   1. Scholastic athletes and other students should abstain from the use of alcohol and controlled substances as well as refrain from using tobacco and smokeless tobacco.
   2. Coaches and other adult school personnel should demonstrate responsible use of alcohol and tobacco in an appropriate setting and abstain from the use of controlled substances.
   3. No coach should use alcohol, tobacco, or other drugs before, during or immediately after or until his/her supervisory duties are completed.
   4. Adults should abstain from the use of 1) alcohol before and during and 2) tobacco during meetings when business related to athletics is conducted.

3. Guidelines for Developing a Code of Conduct for Schools
   1. **Statement of Purpose**
      a) To emphasize the school's concerns for the health of students in areas of safety while participating in activities and the long-term physical and emotional effects of chemical use on their health.
      b) To promote equity and a sense of order and discipline among students.
      c) To confirm and support existing state laws and local regulations which restrict the use of such mind-altering/performance enhancing chemicals.
      d) To establish standards of conduct for those students who are leaders and standard-bearers among their peers.
      e) To assist students who desire to resist peer pressure which directs them toward the use of mind-altering/performance enhancing chemicals.
      f) To assist students who should be referred for assistance or evaluation regarding their use of mind-altering/performance enhancing chemicals.

2. **Model Code**
   A student shall not (1) use a beverage containing alcohol; (2) use tobacco; (3) use steroids; (4) or use or consume, have in possession, buy, sell or give away any controlled substance defined by law as a drug. It is not a violation for a student to be in possession of a legally defined drug specifically prescribed for the student's own use by her/his doctor.
3. **Consequences for Code Violations:** Consequences for rule violations should incorporate the following standards:
   a) **A standard of Certainty:** An expectation by those to be affected by the rule that it will be applied with a measure of consistency and uniformity to all involved.
   b) **A Standard of Severity:** An expectation that the consequences for the violation are fair for the act committed and that those affected will be encouraged to follow through with the consequences, including coaches, students, and parents.
   c) **A Standard of Celerity:** An expectation that the due process will promptly be applied following an alleged violation.

**THE NYSPHSAA, INC. CHEMICAL HEALTH MANDATE**

Each section must hold at least one chemical health workshop during the school year emphasizing educational and preventative strategies, and attended by representation from each school in their section. The chemical health workshops were mandated in 1990-91.

---

**NFHS DIETARY SUPPLEMENT**

All student-athletes and their parents/guardians should consult with their physicians before taking any supplement product. In addition, coaches and school staff should not recommend or supply any supplement product to student-athletes.

3. Continued cooperation with officials' organizations is essential.
4. Existing officials' organizations which meet the standards of the NYSPHSAA, Inc. are to be maintained or new ones formed when the need arises.
5. Since annual elections are held by officials' organizations, these Chapters, Boards, or Associations shall be registered with the NYSPHSAA, Inc. each year.
6. No implication should be evident that prospective competent officials are prevented from having an opportunity to qualify for officiating.
7. Officials should be able to fulfill requirements comparable to those specified for the licensure of professionally trained personnel who deal with secondary-school students.
8. Officials shall be selected and assigned by secondary-school authorities in the school, the league, or the section, State Association or their designee.
9. Officiating is worthy of recompense commensurate with the experience and training of the official and with the responsibilities assumed.
10. Fees for officiating should be determined in a joint conference between schools' and officials' representatives.

The mission of the National Federation is to serve its members and its related professional groups by providing leadership and national coordination for the administration of interscholastic activities which will enhance the educational experiences of high school students and reduce risks of their participation. The National Federation will promote participation and sportsmanship to develop good citizens through interscholastic activities which provide equitable opportunities, positive recognition and learning experiences to students while maximizing the achievement of educational goals.

National Federation Mission Statement

High school activities programs will attract more than 10 million participants this year. Nearly 50% of the student body of most schools will be involved in some phase of the interscholastic program.

In virtually all of these schools, the interscholastic activities program will require a school board subsidy between one and three percent of the total school budget. That includes equipment, supplies, transportation, coaches' salaries and a portion of the utility bills.

Fifty percent of the students at one to three percent of the budget: that could be the best bargain in public is demanding. Rather than being squeezed out of school programs, interscholastic activities programs should be held up to the communities as model programs for these times.

THE MEMBERSHIP of the National Federation consists of 51 individual state high school athletic and/or activity associations and the association of the District of Columbia. Also benefiting from National Federation services are affiliated members of 11 Canadian provincial associations and similar groups in the Philippines, Guam, Bermuda and the Virgin Islands. Policies for high school athletics emanate from the National Federation and its members.

THE SERVICES of the National Federation are based on the belief that strong state and national high school organizations are necessary to: protect the activity and athletic interests of high schools and the student participants, and promote growth of programs which are educational in both means and ends for the participants.

COACHES AND OFFICIALS are also served in a variety of ways through the National Federation Interscholastic Coaches Association (NFICA) and National Federation Interscholastic Officials Association (NFIOA). Each individual member receives a monthly tabloid containing information to assist individual professional development as well as inform and involve high school coaches and officials in the work of their state and national administrative organizations.
ATHLETIC DIRECTORS benefit directly from National Federation services, including an annual conference conducted for them and printed proceedings distributed to them. A quarterly journal, Interscholastic Athletic Administration, is published as a continuing forum for the exchange of ideas pertinent to athletic administration, a growing profession which the National Federation recognizes as vital to the welfare of high school sports.

NATIONAL FEDERATION PUBLICATIONS are published in 17 sports. The National Federation rules committees consist of high school coaches and administrators.

THE HIGH SCHOOL TODAY is a comprehensive publication distributed ten times a year. Included in each publication are all major athletic rule changes, questions and answers for various sports while in session, plus a section containing music and speech information. The HS TODAY is provided to members of the various National Federation professional organizations as part of their membership. The Publication reaches thousands of high school administrators, coaches and officials, as well as the general public and news media across the nation.

FEDERAL LEGISLATION is monitored by the National Federation staff, and the membership aggressively opposes bills which would adversely affect interscholastic activities programs on the local, state or national levels.

ATHLETIC EXPERIMENTATION is conducted by the National Federation through its rules committees and cooperating agencies, such as the National Operating Committee for Standards of Athletic Equipment. The result is safety in high school athletics which is unparalleled on any other level of competition.

SANCTIONING of interstate and international contests is carried out by the National Federation to curb abuses which might result without such a program. Applications for sanction are carefully reviewed to assure that students will not be exploited and that certain programs are not overemphasized to the expense of others.

NATIONAL RECORDS are maintained by the National Federation in order to bring proper recognition to boys and girls who achieve unprecedented performances in interscholastic competition. It is believed such recognition stimulates public interest in high school programs and motivates other boys and girls to improve their skills.

HIGH SCHOOLS are represented by the National Federation on the U.S. Olympic Committee and national sport governing bodies. The National Federation cooperates with many other national organizations such as Major League Baseball, the National Collegiate Athletic Association, the National Junior College Athletic Association, the National Association of Secondary School Principals and the Young Men’s Christian Association to the extent that such organizations’ activities affect interscholastic programs and participants.

CLASSIFICATION PROCEDURE

For school classification purposes, enrollment figures are collected by the Section Athletics Councils from the October State Education Department BEDS (Bureau of Education Data Systems) forms. The classification of schools shall be approved and set for the following school year by executive committee in January. For classification purposes the school's total enrollment, boys and girls, grades 9, 10, 11 are used.

Classification numbers are verified with the State Education Department numbers when they become available.

The classification of a single gender school will be established by doubling its enrollment (9-11). Publically funded special act schools may be classified by the Section by sport according to the unique enrollment of such school. Non-public and charter schools may be classified by sport. Sections will establish a process for the review of the classification of all nonpublic and charter schools in their section.

If a combined school team goes beyond sectional level competition, their boys' and girls' grades 9, 10, 11 enrollments shall be combined for state level competition.

Schools within each section may choose to move up but not down in classification prior to the season. A school, following its section's established procedure for moving up in class for a particular sport, must remain in that class throughout that entire sports' season.
