Introduction

As we continue through the twenty-first century, it is increasingly evident that students require a wider range of counseling services as they face greater societal pressures. Hence, the School Counseling Plan was devised for two reasons. The first, to ensure that each student is exposed to age-appropriate activities that surround and support the personal, educational, and career goals for future success; and the second, to assure the educational stakeholders and community residents that academic success is considered for all pupils in the Huntington School District.

The purpose of the school counseling program in a school setting is to promote and enhance the learning process. Our school district families depend on school counselors to serve as valuable human resources, and the Huntington counseling team is committed to helping students achieve their full potential; while helping them to become responsible and independent members of the school and community.

The role of the school counselor has changed drastically over the past thirty years; the responsibilities and tasks assigned have expanded exponentially to meet the needs of our diverse student population. School counselors are not only expected to assist students with scheduling and post-secondary planning (including college advising), but also to facilitate personal/social emotional growth, develop healthy self-concepts, maximize academic potential, engage in career exploration and development, partake in various meetings (team, CSE, and leadership), keep current with educational practices and changes, collaborate with staff and faculty, and network with constituents in the counseling field.

According to Commissioner's Regulations 100.2

j. Counseling programs

1. Public Schools. Each school district should have a comprehensive developmental school counseling program, and ensure that all students in K-12 have access to a certified counselor.
 - i. For all grades kindergarten through twelve, district and building level comprehensive developmental school counseling programs shall prepare students to participate effectively in their current and future educational programs as age appropriate, and be designed to address multiple student competencies including career/college readiness standards, and academic and social/emotional development standards. The comprehensive developmental school counseling program ("program") shall include the following activities or services:
 - a. In grades kindergarten through five, the program shall be designed by a certified school counselor in coordination with the teaching staff, and any appropriate pupil personnel service providers, for the purpose of preparing students to participate effectively in their current and future educational programs, to provide information related to college and careers, and to assist students who may exhibit challenges to academic success, including but not limited to attendance or behavioral concerns, and where appropriate make a referral to a properly licensed professional and/or certified pupil personnel service provider, as appropriate, for more targeted supports.

- b. For students in grades six through twelve, certified school counselors shall provide an annual individual progress review plan, which shall reflect each student's educational progress and career plans. For a student with disability, the plan shall be consistent with the student's individualized education program:

School counseling core curriculum instruction for the purpose of addressing student competencies related to career/college readiness, academic skills and social/emotional development by a certified school counselor(s);

- d. Other direct student services which may include, but need not be limited to, responsive services, crisis response, group counseling, individual counseling, appraisal, assessment and advisement, for the purpose of enabling students to benefit from the curriculum, assisting students to develop and implement postsecondary education and career plans, assisting students who exhibit attendance, academic, behavioral or adjustment concerns and encouraging parental involvement. Provided that nothing herein shall prohibit certified or licensed school psychologists or certified or licensed school social workers pursuant to Part 80 of the Commissioner's regulations from providing other direct student services within their applicable scope of practice;
 - e. Student services, which may include but need not be limited to, referrals to appropriately licensed or certified individuals, consultation, collaboration, leadership, advocacy, and teaming.
- (ii) Each school district shall develop district-wide and building-level comprehensive developmental school counseling plans, which set forth the manner in which the district shall comply with the requirements of this subdivision. In the case of the City School District of the City of New York, the Department of Education shall submit separate plans for each community school district, for the High School Division and for the Special Education Division. Such district and building level plans shall be developed by or under the direction of certified school counselor(s) and be updated annually, available for review at the district offices and each school building, and made available on the district's website.
 - (a) Each plan shall be developed annually and shall include program objectives, activities, program development and maintenance planning, school counseling curriculum, professional development planning, evaluation methods based on data analysis of program results and closing the gap analysis reports to inform program improvement, and assessment of the resources necessary to support positive student outcomes.
 - (b) Each plan shall also include the preparation of a program outcomes report that includes an analysis of all systematic components of a comprehensive developmental school counseling program as defined by this subdivision. Such report shall be annually presented to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(iii) Each school district shall establish a comprehensive developmental school counseling program advisory council to be comprised of representative stakeholders (such as parents, members of the board of education, school building and/or district leaders, community-based service providers, teachers, certified school counselors and other pupil personnel service providers in the district including school social workers and/or school psychologists). In the case of the City School District of the City of New York, the Department of Education shall establish a comprehensive developmental school counseling program advisory council for each community school district. The advisory council shall meet no less than twice a year for the purpose of reviewing the comprehensive developmental school counseling program plan and advising on the implementation of the school counseling program. The advisory council shall create and submit an annual report to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(3) Nothing in this section shall be construed to authorize any individual to provide professional services where certification is required under Part 80 of the Commissioner's regulations or where licensure is required under Title VIII of the Education Law.

2. Nonpublic schools. Each nonpublic secondary school shall provide a comprehensive school counseling program for students in grades 7-12.

Learning Standards for Career Development and Occupational Studies

Standard 1: Career Development

Students will be knowledgeable about the world of work, explore career options, and relate personal skills, aptitudes, and abilities to future career decisions.

Standard 2: Integrated Learning

Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings.

Standard 3a: Universal Foundation Skills

Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace.

Standard 3b: Career Majors

Students who choose a career major will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in post-secondary programs.

Counseling Department's Mission Statement

The mission of the counseling department is to provide all students with a comprehensive, grade level curriculum to develop academic skills, social/emotional well-being, and college/career readiness. The Counseling Department curriculum incorporates an annual individual progress review (IPR) to document student academic growth, goal setting, college and career readiness, and social/emotional development.

Counseling Programs

The Huntington Board of Education recognizes that counseling programs are an integral part of the total instructional program for all students in all grade levels. Thus, a counseling program is incorporated into the curriculum (for grades K-3) through classroom teachers, social workers, and psychologists to aid students in making informed and responsible decisions in various aspects of their lives. In grades fourth through twelve, students are provided with direct school counseling services and programs through certified New York State school counselors.

The objectives of the counseling department are to assist students to develop into mature self-reflective and understanding individuals who can make sound-decisions; while possessing the necessary core values for productive citizenship. School counseling programs are developed by focusing on the needs and issues related to various stages of student development. The ultimate goal of the school counseling program is to prepare students to meet the demands of college, career, and civic readiness; thereby maximizing post-secondary success in various venues (college, workforce, military, etc.).

The following format follows the suggested outline for implementing the Commissioner's Regulation (CR 100.2), as communicated by the New York State Education Department, Division of Student Development and Family Support Services. [The American School Counselor Association Standards: Mindsets and Behaviors for Student Success](#) are also referenced throughout this plan.

New York State School Counseling Goals for Grade 4-6
