Introduction

As we continue through the twenty-first century, it is increasingly evident that students require a wider range of counseling services as they face greater societal pressures. Hence, the School Counseling Plan was devised for two reasons. The first, to ensure that each student is exposed to age-appropriate activities that surround and support the personal, educational, and career goals for future success; and the second, to assure the educational stakeholders and community residents that academic success is considered for all pupils in the Huntington School District.

The purpose of the school counseling program in a school setting is to promote and enhance the learning process. Our school district families depend on school counselors to serve as valuable human resources, and the Huntington counseling team is committed to helping students achieve their full potential, while helping them to become responsible and independent members of the school and community.

The role of the school counselor has changed drastically over the past thirty years; the responsibilities and tasks assigned have expanded exponentially to meet the needs of our diverse student population. School counselors are not only expected to assist students with scheduling and post-secondary planning (including college advising), but also to facilitate personal/social emotional growth, develop healthy self-concepts, maximize academic potential, engage in career exploration and development, partake in various meetings (team, CSE, and leadership), keep current with educational practices and changes, collaborate with staff and faculty, and network with constituents in the counseling field.

According to Commissioner's Regulations 100.2

(j) Guidance programs and comprehensive developmental school counseling/guidance programs.

(1) Guidance programs for public schools for school years prior to the 2019-2020 school year and for non-public schools.

(i) Public Schools. Each school district shall have a guidance program for all students.

(a) In grades K-6, the program shall be designed in coordination with the teaching staff to prepare students to participate effectively in their current and future educational programs, to help students who exhibit any attendance, academic, behavioral or adjustment problems, to educate students concerning avoidance of child sexual abuse, and to encourage parental involvement.

(b) In grades 7-12, the guidance program shall include the following activities or services:

(1) an annual review of each student's educational progress and career plans, with such reviews to be conducted with each student individually or with small groups by personnel certified or licensed as school counselors;

(2) instruction at each grade level to help students learn about various careers and about career planning skills conducted by personnel certified or licensed as school counselors, or by classroom teachers in cooperation with school counselors;

(3) other advisory and individual or group counseling assistance to enable students to benefit from the curriculum, to help students develop and implement postsecondary education and career plans, to help students who exhibit any attendance, academic, behavioral or adjustment problems and to encourage parental involvement, provided that advisory assistance shall be provided by teachers or counselors, or by certified teaching assistants under the supervision of counselors or teachers, and that such individual or group counseling assistance shall be provided by certified or licensed school counselors or by certified or licensed school psychologists or certified or licensed school social workers in cooperation with school counselors; and

(4) the services of personnel certified or licensed as school counselors.

(c) Each school district shall develop a district plan which sets forth the manner in which the district shall comply with the requirements of this subdivision. The City School District of the City of New York shall submit a separate plan for each community school district, for the High School Division and for the Special Education Division. Such plan shall be filed in the district offices and shall be available for review by any individual. The plan shall present program objectives, which describe expectations of what students will learn from the program; activities to accomplish the objectives; specification of staff members and other resources assigned to accomplish the objectives; and provisions for the annual assessment of program results. The plan shall be reviewed annually by the school districts, and revisions shall be made as necessary.

(ii) Nonpublic schools. Each nonpublic secondary school shall provide a guidance and counseling program for students in grades 7-12.

(2) Comprehensive developmental school counseling/guidance programs. Beginning with the 2019-2020 school year, each school district shall have a comprehensive developmental school counseling/guidance program, for all students in kindergarten through grade 12. Each school district shall also ensure that all students in grades kindergarten through 12 have access to a certified school counselor(s), which for the city school district of the City of New York and the city school district of the City of Buffalo shall include a licensed guidance counselor(s) pursuant to Part 80 of the commissioner's regulations.

(i) For all grades kindergarten through 12, district and building level comprehensive developmental school counseling/guidance programs shall prepare students to participate effectively in their current and future educational programs as age appropriate, and be designed to address multiple student competencies including career/college readiness standards, and academic and social/emotional development standards. The comprehensive developmental school counseling/guidance program (program) shall include the following activities or services:

(a) in grades kindergarten through 5, the program shall be designed by a certified school counselor in coordination with the teaching staff, and any appropriate pupil personnel service providers, for the purpose of preparing students to participate effectively in their current and future educational programs, to provide information related to college and careers, and to assist students who may exhibit challenges to academic success, including but not limited to attendance or behavioral concerns, and where appropriate make a referral to a properly licensed professional and/or certified pupil personnel service provider, as appropriate, for more targeted supports;

(b) for students in grades 6 through 12, certified school counselors shall provide an annual individual progress review plan, which shall reflect each student's educational progress and career plans. For a student with disability, the plan shall be consistent with the student's individualized education program;

(c) school counseling/guidance core curriculum instruction for the purpose of addressing student competencies related to career/college readiness, academic skills and social/emotional development by a certified school counselor(s);

(d) other direct student services which may include, but need not be limited to, responsive services, crisis response, group counseling, individual counseling, appraisal, assessment and advisement, for the purpose of enabling students to benefit from the curriculum, assisting students to develop and implement postsecondary education and career plans, assisting students who exhibit attendance, academic, behavioral or adjustment concerns and encouraging parental involvement. Provided that nothing herein shall prohibit certified or licensed school psychologists or certified or licensed school social workers pursuant to Part 80 of the commissioner's regulations from providing other direct student services within their applicable scope of practice;

(e) indirect student services which may include but need not be limited to, referrals to appropriately licensed or certified individuals, consultation, collaboration, leadership, advocacy, and teaming.

(ii) Each school district shall develop district-wide and building-level comprehensive developmental school counseling/guidance plans which set forth the manner in which the district shall comply with the requirements of this subdivision. In the case of the City School District of the City of New York, the Department of Education shall submit separate plans for each community school district, for the High School Division and for the Special Education Division. Such district and building level plans shall be developed by or under the direction of certified school counselor(s) and be updated annually, available for review at the district offices and each school building, and made available on the district's website.

(a) Each plan shall be developed annually and shall include program objectives, activities, program development and maintenance planning, school counseling curriculum, professional learning planning, evaluation methods based on data analysis of program results and closing the gap analysis reports to inform program improvement, and assessment of the resources necessary to support positive student outcomes.

(b) Each plan shall also include the preparation of a program outcomes report that includes an analysis of all systematic components of a comprehensive developmental school counseling/guidance program as defined by this subdivision. Such report shall be annually presented to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(iii) Each school district shall establish a comprehensive developmental school counseling/guidance program advisory council to be comprised of representative stakeholders (such as parents, members of the board of education, school building and/or district leaders, community-based service providers, teachers, certified school counselors and other pupil personnel service providers in the district including school social workers and/or school psychologists). In the case of the City School District of the City of New York, the Department of Education shall establish a comprehensive developmental school counseling/guidance program advisory council for each community school district. The advisory council shall meet no less than twice a year for the purpose of reviewing the comprehensive developmental school counseling/guidance program plan and advising on the implementation of the school counseling/guidance program. The advisory council shall create and submit an annual report to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(3) Nothing in this section shall be construed to authorize any individual to provide professional services where certification is required under Part 80 of the commissioner's regulations or where licensure is required under title VIII of the Education Law.

Learning Standards for Career Development and Occupational Studies

Standard 1: Career Development - Students will be knowledgeable about the world of work, explore career options, and relate personal skills, aptitudes, and abilities to future career decisions.

Standard 2: Integrated Learning - Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings.

Standard 3a: Universal Foundation Skills - Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace.

Standard 3b: Career Major - Students who choose a career major will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in post-secondary programs.

Counseling Department's Mission Statement

The mission of the counseling department is to provide all students with a comprehensive, grade level curriculum to develop academic skills, social/emotional well-being, and college/career readiness. The Counseling Department curriculum incorporates an annual individual progress review (IPR) to document student academic growth, goal setting, college and career readiness, and social/emotional development.

Counseling Programs

The Huntington Board of Education recognizes that counseling programs are an integral part of the total instructional program for all students in all grade levels. Thus, a counseling program is incorporated into the curriculum (for grades K-3) through classroom teachers, social workers, and psychologists to aid students in making informed and responsible decisions in various aspects of their lives. In grades fourth through twelve, students are provided with direct school counseling services and programs through certified New York State school counselors.

The objectives of the counseling department are to assist students to develop into mature self-reflective and understanding individuals who can make sound-decisions; while possessing the necessary core values for productive citizenship. School counseling programs are developed by focusing on the needs and issues related to various stages of student development. The ultimate goal of the school counseling program is to prepare students to meet the demands of college, career, and civic readiness; thereby maximizing post-secondary success in various venues (college, workforce, military, etc.).

The following format follows the suggested outline for implementing the Commissioner's Regulation (CR 100.2), as communicated by the New York State Education Department, Division of Student Development and Family Support Services [The American School Counselor Association Standards: Mindsets and Behaviors for Student Success](#) are also referenced throughout this plan.

New York State School Counseling Goals for Grade 9-12

Goal 1: Review each child's educational progress and career plans annually.

Goal 2: Teach students about various careers and help them to develop career-planning skills.

Goal 3: Help enable students to benefit from the curriculum, as well as the following:

- a. Develop and implement post-secondary education and career plans
- b. Help students who exhibit attendance, academic, behavioral and/or adjustment problems

Goal 4: Encourage parental involvement in the educational process.

Huntington High School Counseling Plan

Huntington High School counselors play a pivotal role in the development of adolescent-aged children. One of the main goals is to assist students in adjusting to their new environment, while ensuring that they are appropriately placed in courses that best prepare them for their future. This process includes informing students and parents of the graduation and diploma requirements, as well as the academic programs that provide opportunities for students to be placed in rigorous academic programs. Hence, the High School Counseling Plan is intended to meet the New York State regulations by focusing on the educational goals and career exploration opportunities; as well as encouraging parental involvement.

A. Program Objective: To review each child’s educational progress and career plans annually.

B. Target Population: Grades 9-12

C. Expected/Measurable Outcome(s):

1. Students will be able to identify their academic abilities and achievement levels.
2. Students will understand the relationship of academics to the world of work in relation to life at home and in the community.
3. Students will complete school with the academic preparation essential to choose from a wide range of post-secondary options, including college.

D. Annual Assessment:

1. Review student report cards, progress reports, state assessments, and standardized testing.
2. Monitor and review career assessments performed and logged through individual student portfolios.
3. Feedback received from counselors, parents and teachers.

E. Program Description:

Activity	Target Group	Staff Assigned	Other Resources	Date(s) of Activity
Academic Reviews – Approximately every five weeks counselors monitor student performance and review individual progress reports and report cards	Students in grades 9-12	School Counselors Department Chairs	Instructional Support Team Principal Assistant Principal Classroom Teachers	Quarterly
