

Title I Presentation

Huntington Union Free School
District

What is Title I?

- Funds from the Federal Government to support programs for students at-risk of not meeting state standards in reading, math, science and social studies. These funds are called Title I funds. Title I funds are the largest source of funding to K-12 schools.

How is funding calculated?

- The New York State Education Department distributes Title I funds to districts. The amount of funding a district receives is determined by a complex formula that includes the number of students receiving Free or Reduced Lunch (FRL). The district's allocation must be distributed to Title I schools in the district.
- The purpose of the funding is to ensure that all students have the chance to receive a high-quality education.

What are the Title I programs?

- School districts can use their Title I funds for:
 - RTI math, reading, social studies, and/or science Programs
 - Health related supports
 - Before and after-school programs
 - Supplemental supplies
 - Class size reduction
 - Parental involvement
- Title I Districts must:
 - Monitor students' progress towards meeting state standards.
 - Develop programs to support students' progress towards meeting state standards.
 - Give parents information on their child's progress.
 - Involve parents in decision-making regarding Title I programs.
 - Hold an annual Title I meeting.
 - Annually review Title I programs and "policies."
- Huntington uses its Title I funds to support RTI reading/math programs.

What Does Title I Reading/Math Look Like?

- Pull-out programs
- Small group instruction
- Push-in programs
- Focuses on students' individual needs
- On-going assessment
- Programs are in addition to classroom instruction.

How are students identified for Title I?

- In grades K-6, Aimsweb and/or IReady data is used as a universal screener. For students below the 25 percentile based on the national norms, classroom based Tier I interventions would be implemented. If a student fails to respond to Tier I interventions, the SBIT (School Based Inquiry Team) would meet to review the students' data and may recommend Tier II interventions including RTI reading and math.

Are there other programs for students at-risk?

- Huntington has many other programs to support students who may be at-risk of not meeting State standards. There are additional reading programs, math programs, ENL programs, Special Education programs, 504 services, etc. The only difference between these programs and Title I programs is that the Title I Reading programs are funded by Federal Title I Funds, while the other programs are funded from a variety of other sources.

Parent's Rights in Title I Programs

- Parents must be given information about Title I in a timely manner and in a language that they understand.
- Parents have the right to request the professional qualifications of their child's teacher.
- Districts must inform parents if their child is taught by a teacher that is not highly qualified for four or more consecutive weeks.
- Districts must inform parents of their child's progress in reading and math, as well as their child's results on State tests.
- Parents have the right to be a part of the development, review, and improvement of Title I programs.
- Parents have the right to participate on committees to plan, review, and improve Title I programs.
- Parents have the right to file complaints regarding Title I programs in writing with the Superintendent.
- Parents are encouraged attend parent involvement workshops.
Parents are encouraged to ask questions about their children's education.
