

2022 – 2023 Star Grant Application

HFEE is a 501(c)(3) organization run by parent volunteers dedicated to the mission of raising funds for innovative educational programs and/or equipment that enhances and enriches the district's curriculum.

The HFEE Grant Program offers teachers (and administrators) funding for special programs, activities and/or equipment that enrich the core curriculum. Remember, think outside the box! What would ignite your students' imagination and love of learning? HFEE Star grants typically impact a grade, department or an entire school and can be between \$500 - \$15,000+, depending on the program or equipment. Examples of past Star Grants are:

- iPod Touch devices for the English and Science departments at the High School
- Small Cell Culture Lab at the High School
- 3D printers for Finley Middle School
- Robotics Club Equipment at the High School
- The Ukulele Club funding and instruments at Finley Middle School
- Lego League Junior events
- Maker Spaces at Jack Abrams STEM Magnet School

Teachers wishing to obtain funding should complete this grant application and include any additional information that further demonstrates the benefit of the program/equipment/materials. Applicants may be asked to present their ideas to the HFEE board or provide additional information, if necessary. Applicants must also obtain written approval from the school principal before submitting their grant requests to the HFEE grant committee at: Hfeegrantapps@gmail.com.

Grant requests must be **submitted by Dec 16, 2022**. The proposals will be thoroughly vetted by our board of directors for:

1. Innovation
2. Size of impact and benefit to the students
3. Sustainability over the years

Selected proposals will be approved by the Huntington Board of Education and announced in the spring of 2023. For additional information, please contact:
